

"Schulman interestingly and insightfully raises a number of liberty related issues that we ignore at the nation's peril. His ideas are precisely those that helped make our country the destination of those seeking liberty. The book's title says it all: personal responsibility, not laws and prohibitions, is the mark of a civil society."

Self Control Not Gun Control:

Self Control J. Neil Schulman, J. Neil Shulman, 1995-12 **Stopping Power** J. Neil Shulman, Joseph Neil Schulman, 1994-12 Did you know that every 13 seconds one of America's 70 million gun owners uses a firearm in defense against a criminal That American women use handguns 416 times a day in defense against rapists which is a dozen times more often than rapists use a gun That a gun kept in the home for protection is 216 times as likely to be used in defense against a criminal than it is to cause the death of an innocent victim in that household These are just a few of the surprises this book has in store for anyone whose belief in gun control is based on TV news or popular magazines Award winning novelist screenwriter and journalist J Neil Schulman challenges the misinformation that pundits ranging from network anchors to ill informed doctors are promoting about guns Especially for the reader who doesn't own a gun and has never even considered buying one *Stopping Power* should be an eye opener Veterans' Lament Oliver L. North, David Goetsch, 2020-10-06 What is happening to our country This question is heard more and more frequently these days as Americans worry about the unrelenting attacks by so called progressives on the foundation core values and history of our nation Nobody is more concerned than those Americans who volunteered to serve in uniform and willingly put their lives on the line to protect the United States and all it represents Based on interviews by the authors this book explains why many of our American heroes believed in and loved our nation enough to go into harm's way to defend it and why so many of them now question if America is still the country they fought for More importantly it asks is America still worth fighting for

Nasty, Brutish and Short Stories J. Neil Schulman, 1999-07 The Prometheus Award winning author of *Alongside Night* and *The Rainbow Cadenza* offers a collection of his short fiction including two never before seen stories **The End of Gun Control** Ken Yamarashi, 2023-12-10 Dive into the complexities and controversies of gun control using the framework of political economy to explore thought provoking implications on criminal justice self defense personal liberty social cohesion the administration of law constitutional order republican federalism and the role of government in a free society Drawing from a wide range of sources historical examples philosophical insights and causal realist analysis this book challenges conventional wisdom and invites readers to critically examine their beliefs about gun control security production and the United States Constitution's Second Amendment **The Rainbow Cadenza** J. Neil Schulman, 1999-07 Set in a future world where the Earth has been remade into a paradise and humanity has been joined under a single popularly elected world government this 1984 Prometheus Award winning novel tells the story of Joan Darris a brilliant young artist in the medium of laser concerts Like the novels of Huxley Burgess and Rand *The Rainbow Cadenza* uses black humor to reveal a fearsome future that ends with a ray of hope Legislative and Administrative Reform United States. Subcommittee on Crime,1996 *The Oxford Companion to Comparative Politics* Joel Krieger,2013 The two volume Oxford Companion to Comparative Politics fills a gap in scholarship on an increasingly important field within Political Science Comparative Politics the discipline devoted to the politics of other countries or peoples has been steadily gaining prominence as a field of study allowing politics to be viewed from a wider foundation than a concentration on domestic affairs would permit Comparativists apply various theories and concepts to analyze the similarities and differences between political units using the results of their research to develop causalities and generalizations Each of these theories and outcomes are thoroughly defined in the Companion as are major resultant conclusions those comparativists who have influenced the field in significant ways and politicians whose administrations have shaped the evaluation of contrasting governments Approximately 200 revised and updated articles from the Oxford Companion to Politics of the World would serve as a foundation for the set while over 100 new entries would thoroughly examine the field in a lasting more theoretical than current event based way New entries cover such topics as failed states Grand Strategies and Soft Power important updates include such countries as China and Afghanistan and issues like Capital Punishment Gender and Politics and Totalitarianism Country entries include the most significant nations to permit a focus on non time sensitive analysis In addition 25 1 000 word interpretive essays by notable figures analyze the discipline its issues and accomplishments Collectively entries promote deeper understanding of a field that is often elusive to non specialists Born Liberal, Raised Right Reb Bradley,2008 America has a problem Conservatives aren't helping their kids mature past that arrested development phase also known as liberalism In this groundbreaking book noted speaker Reb Bradley proves that societal pressures and foolish child raising theories that have gone mainstream are preventing parents from developing in their kids the key ingredients of maturity including self control Too many children are becoming adults who are ruled purely by magical thinking passions emotions and desires the hallmarks of the liberal mindset It's up to parents to turn their baby Bolsheviks into good citizens by helping their kids mature past their infantile liberal stage Reb Bradley shows how Firearms Legislation United States.
