**Self-creation and History** Michael Hinz,1994 In *Self Creation and History* Michael Hinz focuses on the works of Collingwood and Nietzsche showing how each construes traditional problems in metaphysics as problems generated in history and through conceptual change Hinz focuses on two main problems that are intimately connected 1 how to explain the historical generation and corruption of entire systems of thought and value and 2 the present task of overcoming the current crises facing Western culture in a creative progressive way This study is unique in showing how both Collingwood and Nietzsche can be understood as addressing these problems and as having worked out the theoretical solutions to them

**Collingwood's The Idea of History** Peter Johnson,2012-12-20 An invaluable guide to this classic text surveying the book's composition and central arguments the intellectual context of its composition and its continuing influence      An Essay on Metaphysics Robin George Collingwood,2001-05-24 An *Essay on Metaphysics* is one of the finest works of the great Oxford philosopher historian and archaeologist R G Collingwood 1889-1943 First published in 1940 it is a broad ranging work in which Collingwood considers the nature of philosophy especially of metaphysics He puts forward his well known doctrine of absolute presuppositions expounds a logic of question and answer and gives an original and influential account of causation The book has been widely read and much discussed ever since In this new edition the complete original text is accompanied by three previously unpublished essays by Collingwood which will be essential reading for any serious student of his thought The Nature of Metaphysical Study 1934 Function of Metaphysics in Civilization 1938 and Notes for an Essay on Logic 1939 These fascinating writings illuminate and amplify the ideas of the *Essay* to which they are closely related The distinguished philosopher and Collingwood scholar Rex Martin has established authoritative versions of these new texts added a short set of notes on the *Essay* and contributed a substantial introduction explaining the story of the composition of all these works discussing their major themes and setting them in the context of Collingwood's philosophy as a whole

*R.G. Collingwood An Introduction* Peter Johnson,1998-01-01 Why should modern philosophers read the works of R G Collingwood His ideas are often thought difficult to locate in the main lines of development taken by twentieth century philosophy Some have read Collingwood as anticipating the later Wittgenstein others have concentrated exclusively on the internal coherence of his thought This work aims to introduce Collingwood to contemporary students of philosophy through direct engagement with his arguments It is a conversation with Collingwood that takes as its subject matter the topics that interested him philosophy and method philosophy of mind language and logic the historical imagination art and expression

action metaphysics and life and which still preoccupy us today the first introductory book on this major modern philosopher includes critical investigation of his thought there is no similar work available **R.G. Collingwood and Christianity** Peter Johnson,2024-11-14 Drawing on his writing on philosophy history religion and politics this is the first in depth analysis of R G Collingwood s relation to Christian thought Peter Johnson s original study sheds new and important light on Collingwood s views on emotion civilisation and key political events such as the Spanish Civil War from the perspective of his religious beliefs Here Collingwood s Christianity takes centre stage Johnson considers Collingwood s relationship to prominent philosophers of the 20th century like Wittgenstein and Rawls and examines the connection between Collingwood s views on Christianity and thinkers such as Norman Malcolm and D Z Phillips Chapters also cover Collingwood s discussion of the Augustine and Pelagius debate the impact of Collingwood s Anglicanism on his liberalism and his idea of Christian historiography as a Leaven A rich and nuanced account of the importance of Christianity and Christian concepts to Collingwood s philosophical and political thought this is a valuable resource for students and scholars of philosophy of history and philosophy of religion as well as historical and political theory **Collingwood and the Crisis of Western**

**Civilisation** Richard Murphy,2012-02-23 This book argues that R G Collingwood s philosophy is best understood as a diagnosis of and response to a crisis of Western civilisation The various and complementary aspects of the crisis of civilisation are explored and Collingwood is demonstrated to be working in the traditions of Romanticism and historicism On these subjects the theories of Collingwood and Ortega y Gasset are contrasted with those of Nietzsche and Weber Action as History Stein Helgeby,2016-03-03 R G Collingwood s philosophy of history reflected his historical practices and his moral philosophy Reflection on historical practice provided him with a theory of knowledge his moral philosophy provided him with a theory of the object of history This study shows how Collingwood s concepts of action and history developed together

How Good an Historian Shall I Be? Marnie Hughes-Warrington,2012-02-28 R G Collingwood s name is familiar to historians and history educators around the world Few however have charted the depths of his reflections on what it means to be educated in history In this book Marnie Hughes Warrington begins with the facet of Collingwood s work best known to teachers re enactment and locates it in historically informed discussions on empathy imagination and history education Revealed are dynamic concepts of the a priori imagination and education that tend towards reflection on the presuppositions that shape our own and others forms of life Metaphysics, Method and Politics James Connelly,2003 This book argues that Collingwood developed a complete political philosophy of civilization It also demonstrates that his philosophical work comprises a unity in which there is no fundamental discontinuity between his earlier and later writings *Collingwood and British Idealism Studies* ,2007 **Radix Naturalis** Craig Cramm,2020-10-30 The substance of this present work is liberation semiology The world s own principle is love agape Our fellow creatures are co symbols of emancipation from human violence Creation is not as influential modern thinkers envision mere material mere nature to commodify and

dominate for the freedom of an exclusive constituency of our species The ecological crisis emerges from a tragic misfit between experiments with secular sovereignty and the continuance of Christian historicity Either the Christian form of life of time is replaced revealing a new ecological worldview or we revive Christian sovereignty as a creative fit with the actuality of Christian historicity This work wagers on the latter Christian civilization is coextensive with ecological civilization
