Think, Thank, Thunk - Self-Help Collection Dr. Robert C. Worstell, Wallace Wattles, Charles F. Haanel, Napoleon Hill, The Making of the Good Person Nora Hämäläinen, 2023-04-03 This book provides a philosophical assessment of the idea of personhood advanced in popular self help literature It also traces within academic philosophy and philosophical scholarship a self help culture where the self is brought forth as an object of improvement and a key to meaning progress and profundity Unlike other academic treatments of the topic of self help this book is not primarily concerned with providing a critique of popular self help and self transformative practices Rather it is concerned with how they work to shape contemporary forms and ideals of moral personhood and are conducive to moral renegotiation and change The book consists of two parts with somewhat different argumentative strategies Part 1 consists of an overview and reassessment of popular self help literature and its sociological and journalistic critics written from a moral philosophical perspective Part 2 opens with discussion of the current attraction among a range of philosophers to self transformative themes The chapters assess the strand of self transformative philosophy found in the work of Ludwig Wittgenstein Michel Foucault Pierre Hadot Stanley Cavell and Iris Murdoch Finally the book concludes with a discussion of the theme of social change and moral renegotiation in contemporary societies which is a central but underestimated undercurrent in discussions on contemporary self transformative practices The book's dual perspective on both popular self help and self transformative currents in philosophy enables a cultural and moral philosophical analysis of contemporary ethical ideals of personhood as well as reflection on the literatures available for its development The Making of the Good Person will be of interest to scholars and advanced students working in moral philosophy history of philosophy psychology sociology and literary studies
