Selfinterest And Beyond:

Self-Interest and Beyond David M. Holley, 1999-09 Holley philosophy and business ethics U of Southern Mississippi moves beyond Socrates question How ought we to live and asks How do we go about becoming a self that is worth becoming often showing the superficiality of much of what is considered valuable in the process Using classical and contemporary philosophical ideas and stories from literature and film he argues that in order to live a desirable life a person must move beyond simple self interest This book is intended for readers without formal philosophical training encouraging an audience inundated with self help literature to see how to give self interested thinking its due while enlarging the field of awareness to incorporate other factors Annotation copyrighted by Book News Inc Portland OR [Beyond Self-Interest](#) Jane J. Mansbridge, 1990-04-15 A dramatic transformation has begun in the way scholars think about human nature Political scientists psychologists economists and evolutionary biologists are beginning to reject the view that human affairs are shaped almost exclusively by self interest a view that came to dominate social science in the last three decades In [Beyond Self Interest](#) leading social scientists argue for a view of individuals behavior and social organization that takes into account the powerful motivations of duty love and malevolence Economists who go beyond economic man psychologists who go beyond stimulus response evolutionary biologists who go beyond the selfish gene and political scientists who go beyond the quest for power come together in this provocative and important manifesto The essays trace from the ancient Greeks to the present the use of self interest to explain political life They investigate the differences between self interest and the motivations of duty and love showing how these motivations affect behavior in prisoners dilemma interactions They generate evolutionary models that explain how altruistic motivations escape extinction They suggest ways to model within one individual the separate motivations of public spirit and self interest investigate public spirit and self interest investigate public spirit in citizen and legislative behavior and demonstrate that the view of democracy in existing Constitutional interpretations is not based on self interest They advance both human evil and mothering as alternatives to self interest this last in a penetrating feminist critique of the contract model of human interaction [Beyond Self-Interest](#) Krzysztof Pelc, 2022 At a time when people are questioning the fundamental assumptions of the free market [Beyond Self Interest](#) upends how we relate to capitalism It does so not by rejecting the market but by consigning it to its original function as a tool of human development rather than an end in itself Krzysztof Pelc reminds us that commercial society was seen by its earliest theorists merely as a means of achieving our highest ends It can still do this if only we treat it once more as the tool it was originally conceived as Prosperity is highly desirable but only insofar as it contributes to human flourishing [Beyond Self-interest](#) Gregory R. Beabout, 2002-01-01 [Foundations of Economic Personalism](#) is a series of three book length monographs each closely examining a significant dimension of the Center for Economic Personalism s unique synthesis of Christian personalism and free economic market theory In the aftermath of the momentous geo political and economic

changes of the late 1980s a small group of Christian social ethicists began to converse with free market economists over the morality of market activity This interdisciplinary exchange eventually led to the founding of a new academic subdiscipline under the rubric of economic personalism These scholars attempt to integrate economic theory history and methodology with Christian personalism s stress upon human dignity humane social structures and social justice This volume presents the methodological and theoretical foundations for economic personalism through a detailed investigation of human action from two different yet complementary perspectives from the personalist perspective of Karol Wojtyla in the *Acting Person* 1969 and the free market perspective of Ludwig von Mises in *Human Action* 1949 By comparing and contrasting the viewpoints of Wojtyla and Mises the authors develop a comprehensive praxeology i e a theory of human action capable of analyzing human action from moral and economic perspectives *Beyond Self Interest* illustrates how a unified praxeology could encourage more sustained analysis of the moral dimensions of economic activity while simultaneously softening the utilitarian prejudice of contemporary economic analysis *Moving Beyond Self-Interest* Stephanie L. Brown,R. Michael Brown,Louis A.

Penner,2012 *Moving Beyond Self Interest* is an interdisciplinary volume that discusses cutting edge developments in the science of caring for and helping others In Part I contributors raise foundational issues related to human caregiving They present new theories and data to show how natural selection might have shaped a genuinely altruistic drive to benefit others how this drive intersects with the attachment and caregiving systems and how it emerges from a broader social engagement system made possible by symbiotic regulation of autonomic physiological states In Part II contributors propose a new neurophysiological model of the human caregiving system and present arguments and evidence to show how mammalian neural circuitry that supports parenting might be recruited to direct human cooperation and competition human empathy and parental and romantic love Part III is devoted to the psychology of human caregiving Some contributors in this section show how an evolutionary perspective helps us better understand parental investment in and empathic concern for children at risk for or suffering from various health behavioral and cognitive problems Other contributors identify circumstances that differentially predict caregiver benefits and costs and raise the question of whether extreme levels of compassion are actually pathological The section concludes with a discussion of semantic and conceptual obstacles to the scientific investigation of caregiving Part IV focuses on possible interfaces between new models of caregiving motivation and economics political science and social policy development In this section contributors show how the new theory and research discussed in this volume can inform our understanding of economic utility policies for delivering social services such as health care and education and hypotheses concerning the origins and development of human society including some of its more problematic features of nationalism conflict and war The chapters in this volume help readers appreciate the human capacity for engaging in altruistic acts on both a small and large scale ***Beyond Integrity*** Scott Rae,Kenman L. Wong,2012-02-21

Integrity is essential to Judeo Christian business ethics But today s business environment is complex Those in business and

those preparing to enter the business world need to grapple with the question of how integrity and biblical ethics can be applied in the workplace They need to go beyond integrity in their thinking Beyond Integrity is neither excessively theoretical nor simplistic and dogmatic Rather it offers a balanced and pragmatic approach to a number of concrete ethical issues Readings from a wide range of sources present competing perspectives on each issue and real life case studies further help the reader grapple with ethical dilemmas The authors conclude each chapter with their own distinctly Christian commentary on the topic covered This Zondervan ebook of the third edition has been revised to provide the most up to date introduction to the issues Christians face in today s constantly changing business culture Revisions include 30 new case studies 13 new readings 50% substantially revised sidebars that reflect the issues in the news and business press summaries and material for discussion

The Power of Public Ideas Robert B. Reich,1988 Justice beyond 'Just Us' Gregory W.

Streich,2016-04-22 Notions of justice and community in the United States are increasingly challenged by trends like immigration multiculturalism and economic inequality as well as historical legacies like Jim Crow era racial segregation These dynamics continually re shape the communities in which people live whether by generating new forms of interdependency and inequality creating new social cleavages or exacerbating existing ones or generating new spaces in which cross boundary contact conflict or cooperation is possible Revealing the ways in which notions of justice and community overlap in American politics and public discourse through concrete political questions which emerge when considering dimensions of time place and difference Gregory W Streich offers a fresh re examination of the normative ideas of justice and community He encourages Americans to move from a view of justice that applies only to people who are like us to a view of justice that applies to people beyond just us

Beyond Market and Government Yining Li,2014-09-16 This book explores how moral factors exert influence on economy from an economic and philosophical point of view The book takes an in depth look at topics such as efficiency and coordination fairness and identification law and self discipline and the third distribution which have long been the focus of public attention As expounded in this book in places where regulation by market or government does work there are still some gaps that the two modes of regulation cannot reach owing to the limitations of their influence Each does compensate for the other s limitations but only up to a point The gap can only be filled by custom and morality In this sense regulation by custom and morality can be viewed as a regulatory mode beyond market and government In a market economy market regulation of resource allocation as a basic mode can be called primary regulation and government regulation as a high level mode secondary regulation Regulation that relies on the force of custom and morality a regulation beyond market and government can be called the third regulation A variety of causes can give rise to market failure or government paralysis rendering regulation by market or government ineffective or extremely limited But even in such circumstances custom and morality still exist and continue working as normal What affects resource allocation socio economic operations and living standards is not just the power of market or government but that of custom

and morality This book is one of the three published writings that best reflect Professor Li Yining's academic standpoint Although written in economic language the book also incorporates sociology history and philosophy and will help the reader make better judgment calls in the face of changing market conditions and economic policies **Beyond Profit** Samir Alamad,2024-04-12 This book advocates for a transformative shift in economics emphasising the need to manage finite resources equitably while safeguarding universal well being It introduces the Equitable Optimality economic theory departing from materialistic views and championing a theory deeply rooted in moral economy values and ethics By integrating spirituality social justice and ethics into economic analysis this model contends that economics can serve the welfare of all offering a unique lens for economic theory and policy It challenges prevailing materialistic economic paradigms by proposing an interest balanced free financial economy This economic theory prioritises profit sharing societal objectives and equitable resource allocation aiming to create a more inclusive society However practical implementation and comprehensive research are crucial for understanding its impact and overcoming transitional challenges The Equitable Optimality economic theory provides a valuable perspective within economics focusing on ethical foundations acknowledging non monetary values and humanising economic agents It does not aim to replace conventional economic theories but offers an alternative framework to inspire innovative approaches to economic models and policymaking Its broader policy perspective aims to foster a more prosperous and harmonious society by integrating ethical considerations equity and justice into economic decision making and emphasising societal welfare **Beyond the Call of Duty** Gregory Mellema,1991-09-27 A surprisingly large number of people have denied that it is possible for human moral agents to act in such a way as to go beyond or transcend what moral duty or obligation requires of them Some of this opposition to the possibility of supererogation as it is called has been motivated by theological concerns This book surveys the concerns of Luther Calvin and Melancthon as they react to certain teachings of the Roman Catholic Church as well as the concerns of several contemporary theologians It also examines some contemporary philosophers whose concerns have grown out of a commitment to a Kantian utilitarian or prescriptive type of ethics and urges that there are valuable lessons to be learned from these theologians and philosophers At the same time it is argued that some of their concerns are the result of a mistaken idea of what it means to perform an act of supererogation In addition it is argued that some of their concerns can be addressed in ways that do not require a denial of the possibility of going beyond the call of duty in human life This stage of the argument involves a discussion of virtue ethics and an examination of the concept of vocation particularly as it has developed in Protestant thought and illustrates the relevance of virtue and vocation to the problem of supererogation

Beyond Happiness and Meaning Steven Mintz,2019-07-02 Should you make provocative comments on social media Should you act in your own self interest and ignore others How can you develop meaningful relationships in life and the workplace Should you or should you not These are the questions of ethical behavior In **Beyond Happiness and Meaning** Dr

Steven Mintz will show you how to make decisions that make life worth living It goes beyond enhancing our own well being to improving the lives of others Life is a contact sport that requires us to leave our comfort zone and engage with others learn how to do good things make the right choices and follow the ethical path At the end of the journey you will learn how to transform your life and achieve true happiness and meaning Unique in its approach and rich with everyday ethical dilemmas Mintz brings to life the process of ethical decision making that can improve your life and the life of others and bring back civility to society

Beyond Humanism B. Nooteboom, 2012-04-17 This book seeks to set humanism on a new footing No longer Enlightenment intuitions of an autonomous disconnected and rational self but a philosophy oriented towards the relationship between self and other With this it seeks to provide an escape from present egotism and narcissism in society It discusses altruism as well as its limitations

Personal Branding, Storytelling and Beyond Dr. Amit Nagpal and Dr. Prakash Hindustani, 2016 When it is the work of two great minds the story only comes out to be fantabulous The new book Personal Branding Story Telling and Beyond authored by eminent authors and successful professionals Dr Amit Nagpal and Dr Prakash Hindustani surely conveys the powerful message Branding is only the journey and Bonding is the destination As you go through the book you would understand the rationale of story telling and becoming the architect of your own personal brand using the Social Media skills while you dwell into the positivity of authentic personal branding And by the virtue of which you are sure to steer swiftly in your pathway which eventually takes you smoothly towards your destination This books is a playbook for success using two of the most effective strategies in life and business Each section provides a concise explanation of what you need to know and why Tips are included so you can return to the text when you need help

The Method and Principles of Complementary Reflection in and Beyond African Philosophy Innocent Asouzu, 2005 Questions relating to types of philosophical trends within African philosophy can be very decisive for any idea of African philosophy In this strikingly novel approach to African Philosophy the author explores a complementary philosophical trend that goes back to those he calls anonymous traditional African philosophers Based on their thoughts he articulates a distinctive variant of the principles method and imperative of complementarity Ibu anyi danda around which he builds his system He anchors his reflection on such ambient concepts as the joy of being jide k iji fragmentation wholeness and future reference

Beyond Rationality Alex Mintz, Nicholas A. Valentino, Carly Wayne, 2022 The first textbook to present a framework of the Behavioral Political Science paradigm for understanding political decision making

The Causal Structure of Long-Term Supply Relationships Gjalt de Jong, Bart Nooteboom, 2012-12-06 Long term supply relationships are of crucial importance in industrial organization The present r evolution in information and communication technology such as e business is proof of the increasingly dynamic environment in which firms operate As a result firms have to focus on their core competencies and obtain complementary ones from partner firms to be able to survive This can hardly be realized without having long term supply relationships In the past decades research on strategic alliances the class of interfirm arrangements to which long

term supply relationships belong mushroomed Many of the empirical studies in the alliance literature focus on a single variable that is then explained by a set of independent variables For example for international joint ventures the level of commitment interdependence asymmetry and dedicated investments explains the development of trust By itself there is nothing wrong in this approach On the contrary because of all these studies we now have some knowledge about the reasons why firms enter in alliances and why some alliances are more successful than others In fact one of our first studies also belonged to this research tradition

Beyond Conflict Peter R. Breggin, 1995-01-15 Dr Breggin presents ways in which individuals and nations can learn to live in cooperation and harmony He describes three fundamental methods coercion liberty and love for satisfying people's basic needs and resolving the bitter antagonisms that poison personal and political dealings By demonstrating the links between the three methods and the significance of the last love Dr Breggin sets the agenda for a vigorous and viable future for us all Book jacket

Beyond the Instrumentalised Economy Garrett Thomson, 2025-01-27 The concept of an economy requires us to characterise what human life and society are fundamentally about or what is valuable and why This includes our social relations with each other and to the ecosystems we live in as well as our happiness well being and flourishing Beyond the Instrumentalised Economy defines what work consumption and the use of natural resources would look like if they were not instrumentalised This enables the reader to see how a company would work in a non instrumentalised economy and what would constitute a non instrumentalised market Based on this the book provides insight concerning how investment would work in such an economy and the main features of a non instrumentalised financial system

Beyond Secular Faith Matyas Szalay, 2023-01-19 Attempts to reach an understanding of how to live a Christian life in the contemporary context have never been more necessary This is the aim of the International Symposium Beyond Secular Faith an annual conference held in Granada Spain This volume represents the fruits of over seven years of scholarship The title Beyond Secular Faith suggests we are interested in re discovering and reflectively elaborating ways to overcome the limits imposed by the dominant contemporary culture We are convinced that only a faith liberated from the conceptual restrictions and reductions put forward by secular philosophy and theology and centered radically on Christ can flourish in the dimension that is proper to faith that is in all spheres of human life Featuring contributions from internationally recognized philosophers and theologians such as Tracey Rowland Jaros aw Jagiello Rocco Buttiglione Alison Milbank Massimo Borghesi John Milbank and others we will explore a diversity of questions from this common perspective the light of revelation illuminates how Christians should live in the modern world leading to a new beginning
