The Longest War Carol Tavris, Carole Wade, 1984 Physical and psychological differences between the sexes

Instructor's Guide to Accompany The Longest War Carole Offir, 1977 **Sex Differences in Social Behavior** Alice H.

Eagly, 2013-05-13 In presenting an innovative theory of sex differences in the social context this volume applies social role theory and meta analytic techniques to research in aggression social influence helping nonverbal and group behavior Eagly's findings show that gender stereotypic behavior results from different male and female role expectations and that the disparity between these gender stereotypes and actual sex differences is not as great as is often believed Sex Differences Yves Christen, 2011-12-31 Few people realize how much science can tell us about the differences between men and women Yves Christen provided the first comprehensive overview of research in this area when this classic book was first published in the 1990s He goes beyond simplistic biology is destiny arguments and constructs a convincing case for linking social and biological approaches in order to understand complex differences in behavior Biologists agree that the sexes differ in brain and body structure Christen links these differences in cerebral anatomy to differences in behavior and intellect Taking his readers on a journey through psychology endocrinology demography and many other fields Christen shows that the biological and the social are not antagonistic To the contrary social factors tend to exaggerate the biological rather than neutralize it This controversial work Sex Differences takes on traditional feminism for its refusal to confront the evidence on biologically determined sex differences Christen argues for a feminism that sees traits common to women in a positive light in the tradition of such early feminists as Clemence Royer and Margaret Sanger as well as more contemporary feminist sociobiologists like Sarah Hrdy We deny sex differences only at the price of scientific truth and our own self respect

Perspectives on Literacy Eugene R. Kintgen, Barry M. Kroll, Mike Rose, 1988 The 28 essays reprinted here are arranged in four sections that offer theoretical historical educational and community perspectives on the whole topic of literacy In addition to their substantial introduction the editors provide an exhaustive bibliography based on the citations to the essays Kintgen Kroll and Rose see literacy as an extremely complex area of inquiry in which all aspects are interrelated and they hope to avoid creating or perpetuating false boundaries within the field The book's first section contains articles dealing with various psychological and economic consequences of literacy The second provides an introduction to the development of literacy in different eras of the West from its inception among the Greeks to the teaching of it in North America during the past century The third section treats the teaching of literacy in educational institutions primarily at the secondary and post secondary levels The final section discusses literacy outside the traditional classroom the development of literacy among children and adults the functions and uses of literacy in the workplace and elsewhere and the identity and problems of those who have not mastered literacy skills Semiotics 1980 Michael Herzfeld, Margot D. Lenhart, 2012-12-06 This volume contains the majority of the papers presented at the Fifth Annual Meeting of the Semiotic Society of America held in Lubbock

Texas October 16 19 1980 The varied styles topics methodologies and intellectual traditions represented here reflect the current state of flux in semiotics a healthy chaos in which new ideas vie for survival and experiment is at a premium Because of this variety we have kept our editorial interventions to a minimum In addition we have refrained from imposing any topical classification While we could have used the panel titles as a taxonomic principle this would not have produced a sufficiently even format We have therefore utilized the alphabetical order of authors surnames as being as tensibly the least loaded These Proceedings represent a current view of the semiotic scene especially in the U S A They also include some work representative of architectural semiotics from the U K We have tried to bring the volume to publication rapidly since the immediacy of the contents would seem to be the primary asset of any such project We would like to express the Society's collective gratitude to the 1980 Program Committee chaired by Richard Bauman University of Texas Austin the Lubbock Local Arrangements Committee chaired by Nancy P Hickerson Texas Tech University and our special thanks to Laurel Phipps of the School of Continuing Education at Texas Tech University
