The Routledge Companion to Screen Music and Sound Miguel Mera, Ronald Sadoff, Ben Winters, 2017-05-25 The Routledge Companion to Screen Music and Sound provides a detailed and comprehensive overview of screen music and sound studies addressing the ways in which music and sound interact with forms of narrative media such as television videogames and film The inclusive framework of screen music and sound allows readers to explore the intersections and connections between various types of media and music and sound reflecting the current state of scholarship and the future of the field A diverse range of international scholars have contributed an impressive set of forty six chapters that move from foundational knowledge to cutting edge topics that highlight new key areas The companion is thematically organized into five cohesive areas of study Issues in the Study of Screen Music and Sound discusses the essential topics of the discipline Historical Approaches examines periods of historical change or transition Production and Process focuses on issues of collaboration institutional politics and the impact of technology and industrial practices Cultural and Aesthetic Perspectives contextualizes an aesthetic approach within a wider framework of cultural knowledge Analyses and Methodologies explores potential methodologies for interrogating screen music and sound Covering a wide range of topic areas drawn from musicology sound studies and media studies The Routledge Companion to Screen Music and Sound provides researchers and students with an effective overview of music's role in narrative media as well as new methodological and aesthetic insights

The Physics and Astronomy of Science Fiction Steven D. Bloom, 2016-07-06 The great scientific astronomical and technological advances of the 20th century inspired the science fiction genre to imagine distant worlds and futures far beyond the discoveries of the here and now This book explores science fiction films television series novels and short stories from Lost in Space 1965 1968 to Fringe 2008 2013 to the works of Isaac Asimov and Stephen Baxter with a focus on their underlying concepts of physics and astronomy Assessing accuracy and plausibility the author considers the possibilities of solar system interstellar and faster than light travel intelligent planets dark anti matter the multiverse and string theory time travel alternate universes teleportation and replication weaponry force fields extraterrestrial life subatomic life emotional robots super human and parapsychological powers asteroid impacts space colonies and many other topics

Music in Science Fiction Television Kevin J. Donnelly, Philip Hayward, 2013 The music for science fiction television programs like music for science fiction films is often highly distinctive introducing cutting edge electronic music and soundscapes There is a highly particular role for sound and music in science fiction because it

regularly has to expand the vistas and imagination of the shows and plays a crucial role in setting up the time and place. Notable for its adoption of electronic instruments and integration of music and effects, science fiction programs explore sonic capabilities offered through the evolution of sound technology and design which has allowed for the precise control and creation of unique and otherworldly sounds. This collection of essays analyzes the style and context of music and sound design in Science Fiction television. It provides a wide range of in-depth analyses of seminal live action series such as Doctor Who, The Twilight Zone, and Lost, as well as animated series such as The Jetsons. With thirteen essays from prominent contributors in the field of music and screen media, this anthology will appeal to students of Music and Media as well as fans of science fiction television.

A Reference Guide to Television's Bonanza Bruce R. Leiby, Linda F. Leiby, 2005-03-15
Bonanza aired on NBC from September 12, 1959 to January 16, 1973, playing to 480,000,000 viewers in over 97 countries. It was the second longest running western series, surpassed only by Gunsmoke, and continues to provide wholesome entertainment to old and new fans via syndication. This book provides an in-depth chronicle of the series and its stars. A history of the show from its inception to the current made-for-television movies is provided, and an episode guide includes a synopsis of each show and lists such details as the main characters of each episode and the actors who portrayed them, the dates they stayed with the show, date and time of original broadcast, writer, director, producer, executive producer, and supporting cast. Also provided are character sketches for each of the major recurring characters, career biographies of Lorne Green, Pernell Roberts, Dan Blocker, and Michael Landon, brief biographical sketches of the supporting cast, a discography of recordings of the Bonanza theme, and recordings of the four major stars, and information on Bonanza television movies.

Where the Wild Things Were Henry Jenkins, 2005-02-25 How might reading Benjamin Spock and Margaret Mead help us to better understand Dennis the Menace, Harold and the Purple Crayon, and Mr. Roger's Neighborhood? TV Guide: TV on DVD 2006 TV Guide, 2005-10 From the foremost authority on TV viewing comes a complete guide to television shows on DVD. *Irwin Allen Television Productions, 1964-1970* Jon Abbott, 2015-06-14 Before establishing himself as the master of disaster with the 1970s films *The Poseidon Adventure* and *The Towering Inferno*, Irwin Allen created four of television's most exciting and enduring science fiction series: *Voyage to the Bottom of the Sea*, *Lost in Space*, *The Time Tunnel*, and *Land of the Giants*. These 1960s series were full of Allen's favorite tricks, techniques, and characteristic touches, and influenced other productions from the original *Star Trek* forward. Every science fiction show owes something to Allen, yet none has equaled his series' pace, excitement, or originality. This detailed examination and documentation of the premise and origin of the four shows offers an objective evaluation of every episode and demonstrates that when Irwin Allen's television episodes were good, they were great, and when they were bad, they were still terrific fun.
