Lost Rider A Bilingual Anthology:

The Lost Rider Péter Dávidházi, 1999

The Stylistics of Landscapes, the Landscapes of Stylistics John

Douthwaite, Daniela Francesca Virdis, Elisabetta Zurru, 2017-11-15 In treating the topic of the landscapes of stylistics this book provides a series of chapters which deal not only with physical landscapes but also with social mental historical portraits of places people and society The chapters demonstrate that all texts project a worldview even when the content appears to be only a physical description of the external world The implication is that texts attempt to produce specific effects on the reader determined by the author's worldview Contents and effects namely mental and emotional states behaviours are thus inseparable Identifying those effects and how they are produced is an eminently cognitive operation The chapters analyse a variety of linguistic devices and cognitive mechanisms employed in producing the text and accounting for the effects achieved Though the majority of the chapters have a cognitive basis a wide range of methodologies are employed including ecostylistics offering cutting edge theoretical approaches teamed up with close reading A further crucial feature of this collection is the selection of non canonical texts ranging from lesser known texts in English to significant works in languages other than English all of which are characterised by important social themes thus emphasising the importance of critical appreciation as a means of self empowerment

After 1945 Hans Ulrich Gumbrecht, 2013-05-08 What is it the legacy that humankind has been living with since 1945 We were once convinced that time was the agent of change But in the past decade or two our experience of time has been transformed Technology preserves and inundates us with the past and we perceive our future as a set of converging and threatening inevitabilities nuclear annihilation global warming overpopulation Overwhelmed by these horizons we live in an ever broadening present In identifying the prevailing mood of the post World War II decade as that of latency Gumbrecht returns to the era when this change in the pace and structure of time emerged and shows how it shaped the trajectory of his own postwar generation Those born after 1945 and especially those born in Germany would have liked nothing more than to put the catastrophic events and explosions of the past behind them but that possibility remained foreclosed or just out of reach World literatures and cultures of the postwar years reveal this to have been a broadly shared predicament they hint at promises unfulfilled and obsess over dishonesty and bad faith they transmit the sensation of confinement and the inability to advance After 1945 belies its theme of entrapment Gumbrecht has never been limited by narrow disciplinary boundaries and his latest inquiry is both far ranging and experimental It combines autobiography with German history and world historical analysis offering insightful reflections on Samuel Beckett and Paul Celan detailed exegesis of the thought of Martin Heidegger and Jean Paul Sartre and surprising reflections on cultural phenomena ranging from Edith Piaf to the Kinsey Report This personal and philosophical take on the last century is of immediate relevance to our identity today

Diversity in Narration and Writing Kornélia Horváth, Judit Mudriczki, Sarolta Osztrólczyk, 2022-01-10 The essays in this volume focus on different prose and audiovisual narratives and their academic

and cultural significance as seen in the twenty first century Their diverse interpretations of the novel as a genre provide a current academic overview on the variety of interpretive cultures and traditions Divided into three sections the book consciously takes an international perspective in both narrative theory and novel studies in order to deepen the reader s understanding of classic American and European authors including Gustave Flaubert Lewis Carroll James Joyce Doris Lessing Jack London J M Coetzee and David Lodge In addition it also offers a profound contribution to international scholarship as it covers works of classic and contemporary Hungarian and Central European writers that have not been discussed in English before With its unprecedented insights into the depth and diversity of narrative prose traditions the book will inspire innovative approaches to the concept of the novel in European academic criticism today **The Summer My Father Died**

Redefining Hungarian Music from Liszt to Bartók Lynn M. Hooker, 2013-10-25 Some of the most popular works of nineteenth century music were labeled either Hungarian or Gypsy in style including many of the best known and least respected of Liszt s compositions In the early twentieth century Béla Bartók and his colleagues questioned not only the Hungarianness but also the good taste of that style Bartók argued that it should be discarded in favor of a national style based in the genuine folk music of the rural peasantry Between the heyday of the nineteenth century Hungarian Gypsy style and its replacement by a new paradigm of authentic national style was a vigorous decades long debate one little known inside or outside Hungary over what it meant to be Hungarian European and modern *Redefining Hungarian Music from Liszt to Bartók* traces the historical process that defined the conventions of Hungarian Gypsy style Author Lynn M Hooker frames her study around the 1911 celebration of Liszt s centennial In so doing she analyzes Liszt s problematic role as a Hungarian born composer and leader of Hungarian art music who spent most of his life outside of Hungary and questioned whether Hungary s national music was more the creation of Hungarians or Roma Gypsies The themes of race and nation that emerge in the discussion of Liszt are further developed in an analysis of discourse on Hungarian national music throughout the Hungarian press in the late nineteenth and early twentieth centuries Showing how the discovery of genuine folk music by Bartók and Kodály often depicted as a purely scientific matter responds directly to concerns raised by earlier writers about the problem of Hungarian music Hooker argues that the innovations of Bartók and Kodály and their circle are not so much in correcting a

flawed concept of the national as in using the idea of national authenticity to open up freedom for composers to explore more stylistic options including the exploration of modernist musical language Meticulously researched and elegantly written *Redefining Hungarian Music from Liszt to Bartók* is essential reading for musicologists musicians and concertgoers alike

Light within the Shade Zsuzsanna Ozsvath, Frederick Turner, 2014-07-02 The pure verbal energy characterizing Hungarian poetry may be regarded as one of the most striking components of Hungarian culture More than 800 years ago under the inspiration of classical and medieval Latin poetry Hungarian poets began to craft a rich chain of poetic designs much of it in response to the country's cataclysmic history With precision depth and great intensity these verses give accounts of their authors vision of themselves as participants in history and their most personal experience in the world *Light within the Shade* includes 135 of the most important Hungarian poems ranging from the fourteenth to the twenty first century Organized in chronological order the poems are followed by an essay by Ozsvath providing the historical biographical and cultural background of the poets and the poetry The book concludes with Turner's essay on the special thematic and literary qualities of Hungarian poetry as well as notes on translation practices This essential volume exposes English speaking readers to Hungarian poetry's artistic achievement in history and culture its evolutionary development as a tradition and its significance within the context of world literature
