Congress. Senate. Committee on the Judiciary, 1956 Ainslee's, 1912 **Making Whiteness** Grace Elizabeth Hale, 2010-08-25 Making Whiteness is a profoundly important work that explains how and why whiteness came to be such a crucial embattled and distorting component of twentieth century American identity In intricately textured detail and with passionately mastered analysis Grace Elizabeth Hale shows how when faced with the active citizenship of their ex slaves after the Civil War white southerners re established their dominance through a cultural system based on violence and physical separation And in a bold and transformative analysis of the meaning of segregation for the nation as a whole she explains how white southerners creation of modern whiteness was beginning in the 1920s taken up by the rest of the nation as a way of enforcing a new social hierarchy while at the same time creating the illusion of a national egalitarian consumerist democracy By showing the very recent historical making of contemporary American whiteness and by examining how the culture of segregation in all its murderous contradictions was lived Hale makes it possible to imagine a future outside it Her vision holds out the difficult promise of a truly democratic American identity whose possibilities are no longer limited and disfigured by race **A Dictionary of archaic and provincial words, obsolete phrases, proverbs and ancient customs from the fourteenth century** James Orchard Halliwell-Phillipps, 1855 **West's Federal Supplement**, 1996

Rethinking the Secular Origins of the Novel Kevin Seidel, 2021-03-25 Literary histories of the novel tend to assume that religion naturally gives way to secularism with the novel usurping the Bible after the Enlightenment This book challenges that teleological conception of literary history by focusing on scenes in seventeenth and eighteenth century fiction where the Bible appears as a physical object Situating those scenes in wider circuits of biblical criticism Bible printing and devotional reading Seidel cogently demonstrates that such scenes reveal a great deal about the artistic ambitions of the novels themselves and point to the different ways those novels reconfigured their readers relationships to the secular world With insightful readings of the appearance of the Bible as a physical object in fiction by John Bunyan Daniel Defoe Samuel Richardson Sarah Scott Frances Sheridan and Laurence Sterne this book contends that the English novel rises with the
