Department of Defense Authorization for Appropriations for Fiscal Year 2016 and the Future Years Defense Program
United States. Congress. Senate. Committee on Armed Services, 2015 **Mobilizing Knowledge in Healthcare** Jacky Swan, Sue Newell, Davide Nicolini, 2016-09-06 The research practice gap is a persistent problem in healthcare significant new knowledge is created but only some of it is shared and even less is used As a consequence many innovative ideas fail to change practice in healthcare settings Academics practitioners and governments alike agree that finding new ways of mobilizing knowledge is critical to reducing this gap Yet knowledge mobilization is especially difficult in such a complex setting This is because knowledge is essentially social and contextual in its very nature Straightforward linear transfer models fail to work This book provides an alternative knowledge mobilization view that examines in detail how knowledge is circulated and negotiated among those involved in healthcare and how it is used to actually transform practice Building on the collective scholarship of some of the most prominent academics in this area the chapters explore the dynamics of knowledge mobilization focusing on the challenges these pose for organization and management and how these challenges can be overcome Future Survey Annual 1984 World Future Society, 1984-06-01 **Government Reports**

Management, a Continuing Literature Survey with Indexes ,1975 **Scientific and Technical Aerospace Reports** ,1979 *Sustainable Plant Nutrition* Tariq Aftab,Khalid Rehman Hakeem,2022-10-20 Sustainable Plant Nutrition Molecular Interventions and Advancements for Crop Improvement explores the significant opportunities for sustainable eco friendly approaches in plant nutrition and agricultural crop production The book highlights the various prospects involved in optimizing plant nutrient uptake agriculture and includes chapters representing diverse areas dealing with biotechnology nanotechnology molecular biology proteomics genomics and metabolomics This book is an ideal resource for those seeking to ensure a sustainable plant production future While plants have evolved a set of elaborate mechanisms to cope with nutrient limitations the traditional supplementation by the application of fertilizers to plant productivity may then lead to overfertilization which can actually reduce plant growth and have adverse effects on the environment To tackle these issues a detailed understanding of the responses of plants to nutrients and nutrient deficiency at the physiological metabolic transcriptome and epigenetic level is essential Illustrates the central role of sustainable plant nutrition to address current

and future challenges Presents global insights and research ranging from signaling to sensing and translational research
Provides a forward looking perspective for future plans of action *Rethinking Democratic Innovation* Frank Hendriks,2023
Rethinking Democratic Innovation takes a fresh look at diverging visions of improving democratic governance and asks
whether these existing tensions could be made productive Could different visions of democratic revitalisation complement
and correct each other in ways that are good for democracy Is it conceivable that combined approaches address a larger part
of the democratic challenge while isolated approaches centralizing deliberative or plebiscitary democracy are confined to
more limited areas of concern This book ultimately provides an affirmative answer outlining the scope for hybrid democratic
innovations that thrive on exploiting not eliminating tensions between diverging visions of improved democracy
Supplementing democratic theory with a cultural perspective this book contributes to a deeper understanding of plans and
methods geared toward improving democratic governance Revisiting Mary Douglas s seminal take on culture as pollution
reduction processes of democratic innovation are understood as instances of cultural cleaning in public governance The book
recognizes that democratic cleaning will never be finished but can be done in ways that are more productive Reflecting on
varieties of hybrid democratic innovation deliberative referendums participatory budgeting new style and more the author
posits that more versatile connective and embedded innovations stand a better chance of high performance on a broader
spectrum than democratic innovations falling short of these qualities Future Survey Annual 1988-1989 Michael
Marien,Lane Jennings,1990-01-01 BMW Z cars have carved a huge reputation for themselves in a very short time From the
revolutionary and innovative Z1 of the late 1980s to the beautiful and exclusive Z8 of more recent times via the popular Z3
and its controversial replacement the Z4 the family has made BMW s name in the increasingly competitive sports car market
