Books In Print 2004-2005 Ed Bowker Staff, Staff Bowker, Ed, 2004 *The British National Bibliography* Arthur James Wells, 2003 **1945** Ole Steen Hansen, 2005 **Second Front** Marc Milner, 2025-05-13 A revelatory new account of the Second World War and how bitter competition between the Allies would shape the postwar world. In June 1944 an Allied army of British American and Canadian troops sought to open up a Second Front in Normandy. But they were not only fighting to bring the Second World War to an end. After decades of Anglo American struggle for dominance, they were also contending with one another to determine who would ascend to global hegemony once Hitler's armies fell. Marc Milner traces this bitter rivalry as it emerged after the First World War and evolved during the fragile peace which led to the Second American media and domestic politics dominated the Allied powers' military strategy, overshadowing the contributions of Britain and the remarkably critical role played by Canada in establishing this Second Front. Culminating in the decisive Normandy campaign, Milner shows how the struggle for supremacy between Churchill and Roosevelt changed the course of the Second World War and how their rivalry shaped our understanding of the Normandy campaign and the war itself. *The End of the War* Charles Whiting, 1973
