## **Moral Boundaries A Political Argument For An Ethic Of Care:**

**Moral Boundaries** Joan C. Tronto, 1993 First Published in 1993 Routledge is an imprint of Taylor Francis an informal company *Moral Boundaries* Joan C. Tronto, 2009 In *Moral Boundaries* Joan C. Tronto provides one of the most original responses to the controversial questions surrounding women and caring and demonstrates that feminist thinkers have failed to realize the political context which has shaped their debates about care *Moral Boundaries* contests the association of care with women as empirically and historically accurate as well as politically unwise In our society other groups such as the working classes and people of color also do disproportionate amounts of caring Tronto presents care as one of the central activities of human life and illustrates the ways in which society degrades the importance of caring in order to maintain the power of those who are privileged *Moral Boundaries Redrawn* Gert Olthuis, Helen Kohlen, Jorma Heier, 2014 Joan Tronto's *Moral Boundaries A Political Argument for an Ethic of Care* 1993 is one of the most influential works in the short history of the ethics of care In her book Tronto rethinks care as one of the central activities of human life and explains that it is shaped through politics Since it is two decades ago that *Moral Boundaries* was published it seems more than worthwhile to take stock of its significance This volume does so It attempts to redraw the moral boundaries Tronto discusses and explores the impact and meaning of her thinking for care ethics as a developing discipline This volume celebrates the anniversary of a book Our author of honour is Joan Tronto herself The contributions of the other authors concentrate on three domains political theory professional ethics and the understanding of care as practice *Moral Boundaries* Joan C. Tronto, 1994 Presentación del editor In *Moral Boundaries* Joan C. Tronto provides one of the most original responses to the controversial questions surrounding women and caring Tronto demonstrates that feminist thinkers have failed to realise the political context which has shaped their debates about care It is her belief that care cannot be a useful moral and political concept until its traditional and ideological associations as a women's morality are challenged *Moral Boundaries* contests the association of care with women as empirically and historically inaccurate as well as politically unwise In our society members of unprivileged groups such as the working classes and people of color also do disproportionate amounts of caring Tronto presents care as one of the central activities of human life and illustrates the ways in which society degrades the importance of caring in order to maintain the power of those who are privileged *Moral Boundaries* Joan C. Tronto, 2015 *The Ethics of Care* Virginia Held, 2006 The author assesses the ethics of care as a promising alternative to the familiar moral theories that serve so inadequately to guide our lives Held examines what we mean by care and focuses on caring relationships She also looks at the potential of care for dealing with social issues and global problems **Caring for Families in Court** Barbara A. Babb, Judith D. Moran, 2019-01-15 In many US courts and internationally family law cases constitute almost half of the trial caseload These matters include child abuse and neglect and juvenile delinquency as well as divorce custody paternity and other traditional family law issues In this book the authors argue that reforms to the family

justice system are necessary to enable it to assist families and children effectively The authors propose an approach that envisions the family court as a care center by blending existing theories surrounding court reform in family law with an ethic of care and narrative practice Building on conceptual procedural and structural reforms of the past several decades the authors define the concept of a unified family court created along interdisciplinary lines a paradigm that is particularly well suited to inform the work of family courts These prior reforms have contributed to enhancing the family justice system as courts now can shape comprehensive outcomes designed to improve the lives of families and children by taking into account both their legal and non legal needs In doing so courts can utilize each family s story as a foundation to fashion a resolution of their unique issues In the book the authors aim to strengthen a court s problem solving capabilities by discussing how incorporating an ethic of care and appreciating the family narrative can add to the court s effectiveness in responding to families and children Creating the court as a care center the authors conclude should lie at the heart of how a family justice system operates The authors are well known figures in the area and have been involved in family court reform on both a US national and an international scale for many years

#### **The Bloomsbury Handbook of Care Ethics** Matilda

Carter,2025-07-24 Emphasising the vulnerability and interdependence of humans care ethics has emerged in recent years as a powerful alternative to dominant modes of thinking in moral philosophy Bringing together the theoretical and applied dimensions of care ethics this pioneering volume provides an authoritative overview of what care ethics is and the contributions it can make to pressing contemporary problems Divided into two parts Part I of The Bloomsbury Handbook of Care Ethics traces the development of care ethics how it interacts with other central components of moral reasoning such as freedom and normative justification and the ongoing discussions among care ethicists about the direction scope and underlying mechanisms of the theory Part II then showcases the varied contributions care ethics can make to key areas of applied philosophy and to research in the social sciences from disability and care medical ethics and feminist ethics to timely issues such as maternity care and public administration With an international team of experts providing interdisciplinary approaches to care this is the place to start if you want to gain an in depth insight into the field of care ethics and its crucial role in addressing worldwide vulnerabilities

#### **Fostering Well-being as a UN Sustainable Development Goal** Gerard

Magill,James Benedict,2025-02-24 This edited book is a collection of essays based on presentations at the 8th conference in an annual endowed series held at Duquesne University USA The conference series addresses emerging concerns and pivotal problems about our planet s environment and ecology The contributions gathered here highlight the inter relation of topics and expertise connecting well being as a UN sustainable development goal with health bioengineering and the natural and social environment The book concludes with an ethical analysis of the multiple and over lapping challenges that require urgent attention and long term resolution The book is written for scholars and students in a variety of disciplines and fields that deal with sustainability

*Social Policy and the Ethic of Care* Olena Hankivsky,2004 In this book Hankivsky considers

the implications of this ethic for a range of Canadian social policy issues Through a series of case studies she demonstrates the extent to which a care orientation differs from a justice orientation and provides an alternative normative framework for interpreting understanding and evaluating social policy She reveals why Canadian social policy is lacking and how it could be made more effective and robust by the inclusion of an ethic of care Jacket *Care Ethics and Political Theory* Daniel Engster, Maurice Hamington, 2015-08-20 *Care Ethics and Political Theory* brings together new chapters on the nature of care ethics and its implications for politics from some of the most important philosophers working in the field today Chapters take up long standing questions about the relationship between care and justice and develop guidelines for the development of a care based justice theory Care ethics is further applied to issues such as security privacy law and health care where little work has been previously done By bringing care ethics into conversation with non Western and subaltern cultures the contributing authors further show how care ethics can guide and learn from other traditions A final set of chapters uses care ethics to challenge dominant moral and political paradigms and offer an alternative foundation for future moral and political theory The book as a whole makes the case for care ethics as an equal or superior approach to morality and politics compared with liberalism luck egalitarianism libertarianism the capabilities approach communitarianism and other political theories The volume includes many of the leading care scholars in the world today engaging in both theoretical and applied discussions of this burgeoning field of study Ultimately *Care Ethics and Political Theory* endeavors to find realistic methods and ways of thinking to create a more caring world **Socializing Care** Maurice Hamington, Dorothy C. Miller, 2006-01-10 Criticism is often levied that care ethics is too narrow in scope and fails to extend to issues of social justice *Socializing Care* attempts to dispel that criticism Contributors to the volume demonstrate how the ethics of care factors into a variety of social policies and institutions and can indeed be useful in thinking about a number of different social problems Divided into two sections the first looks at care as a model for an evaluative framework that rethinks social institutions liberal society and citizenship at a basic conceptual level The second explores care values in the context of specific social practices like live kidney donations or settings like long term care as a framework that should guide thinking Ultimately this collection demonstrates how society would benefit from a more serious engagement with care ethics *American Journal of Islamic Social Sciences* 35:2 Ovamir Anjum, 2018-04-01 The *American Journal of Islamic Social Sciences* AJISS established in 1984 is a quarterly double blind peer reviewed and interdisciplinary journal published by the International Institute of Islamic Thought IIIT and distributed worldwide The journal showcases a wide variety of scholarly research on all facets of Islam and the Muslim world including subjects such as anthropology history philosophy and metaphysics politics psychology religious law and traditional Islam **Reactualising Emancipation in Contemporary Ethical Discourse** Silvia Pierosara, 2024-05-22 Nowadays emancipation evokes scenarios of an acquired freedom and is closely linked to autonomy Emancipation as liberation and freedom imposes a reflection on the conditions in which we live as well as a question

concerning what people can free themselves from and what is not possible to liberate oneself from This collection investigates the possibility of relating to emancipation through the eyes of the ethicist What does emancipation mean in the contemporary moral and political landscape How is emancipation possible and from and towards what can humankind aspire to emancipate Which are the unattended promises of emancipation Where when and to whom can one speak of emancipation Assuming a clear ethical and moral standpoint the contributions collected here reply to such questions firstly by re semantising this word and then by re placing it within different philosophical traditions

**Social Work Theory and Ethics** Dorothee Hölscher, Richard Hugman, Donna McAuliffe, 2023-03-17 This reference work addresses the ideas that shape social work Much of the social work literature addresses questions of theory and ethics separately so that the body of thought that is represented in social work scholarship and research creates a distinction between them However the differences between these categories of thought can be somewhat arbitrary This volume goes beyond this simple separation of categories Although it recognises that questions of theory and ethics may be addressed distinctly the connections between them can be made evident and drawn out by analysing them alongside each other Social work s use and development of theory can be understood in two complementary ways First theory from the social sciences and other disciplines can be applied for social work second considered systematic examinations of practice have enabled theory to be developed out of social work These different approaches are usually referred to as theory for practice and practice theory The advancement of social work theory occurs often through the interplay between these two dimensions through research and scholarship in the field Similarly social work ethics draw on principles and concepts that have their roots in philosophical inquiry and also involve applied analysis in the particular issues with which social workers engage and their practices in doing so In this way social work contributes to wider debates through advancement of its own perspectives and knowledge gained through practice Social Work Theory and Ethics Ideas in Practice offers a unique approach by bringing together the complementary dimensions of theory with each other and at the same time with ethical research and scholarship It presents an analysis of the ideas of social work in a way that enables connections between them to be identified and explored This reference is essential reading for social work practitioners researchers policy makers academics and students as well as an invaluable resource for universities research institutes government ministries and departments major non governmental organisations and professional associations of social work

**Care Ethics and Art** Jacqueline Millner, Gretchen Coombs, 2021-11-24 What would it mean to substitute care for economics as the central concern of politics This anthology invites analysis reflections and speculations on how contemporary artists and creative practitioners engage with interpret and enact care in practices which might forge an alternative ethics in the age of neoliberalism Interdisciplinary and innovative it brings together contributions from artists researchers and practitioners who creatively consider how care can be practised in a range of contexts including environmental ethics progressive pedagogies cultures of work alternative economic models death literacy

advocacy parenting and mothering deep listening mental health disability and craftivism Care Ethics and Art contributes new modes of understanding these fields together with practical solutions and models of practice while also offering new ways to think about recent contemporary art and its social function The book will benefit scholars and postgraduate research students in the fields of art art history and theory visual cultures philosophy and gender studies as well as creative and arts practitioners

*Violence, Care, Cure* Marta-Laura Cenedese, Clio Nicastro, 2025-05-02 This book explores the notions of violence care and cure within the medical encounter and seeks to foreground the ways in which whether individually or as a triad they are prone to ambiguous interpretations The chapters of this book attend to the complex interlacing of these three key terms and what to make of their entanglement by offering historical practical philosophical personal and aesthetic analyses of different medical scenes objects and concepts Besides the three main concepts that give the collection its title the volume deals with bodily experience medical neglect or scepticism pain and suffering diagnosis and recovery and epistemic injustice through the lens of among others biopolitics ethics gender medicine and critical medical humanities Altogether the chapters pay particular attention to the role of images and other narratives including social media platforms The case studies in this collection invite the reader to observe medical encounters that take place in and are shaped by a variety of both material and immaterial spaces from the consulting room to the antechamber of medical bureaucracy and from artistic venues to biopolitical discourses Taken together this book argues that a hermeneutic of violence care and cure is inseparable from individual and collective perceptions of the medical encounter that is it is inextricable from an understanding of the tensions and consensus that surge among perceptions orchestrated by both internal subjective and external social cultural political gazes Moreover the volume aims to provide both directly and indirectly a meta reflection on the disciplines that fall under the umbrella of medical and health humanities interrogating the field's potential to unearth systemic bias to open different possibilities of existence and to make visible the complexity of its research objects as well as to caution against their possible pitfalls By bringing together different methodological approaches this volume provides its readers with conceptual resources for thinking about the intersections of violence care and cure By providing a space where the voices of both emerging and established scholars mingle and respond to one another this book will be essential reading for anyone across the social sciences and humanities interested in the sociology of health and medicine the medical humanities and gender studies

**Care Ethics, Democratic Citizenship and the State** Petr Urban, Lizzie Ward, 2020-07-08 This book reflects on theoretical developments in the political theory of care and new applications of care ethics in different contexts The chapters provide original and fresh perspectives on the seminal notions and topics of a politically formulated ethics of care It covers concepts such as democratic citizenship social and political participation moral and political deliberation solidarity and situated attentive knowledge It engages with current debates on marketizing and privatizing care and deals with issues of state care provision and democratic caring institutions It speaks to the current political and societal challenges including the

crisis of Western democracy related to the rise of populism and identity politics worldwide The book brings together perspectives of care theorists from three different continents and ten different countries and gives voice to their unique local insights from various socio political and cultural contexts Chapter 11 is available open access under a Creative Commons Attribution 4.0 International License via [link.springer.com](https://link.springer.com)

**Globalizing Care** Fiona Robinson, 2018-10-08 This book broadens the scope of thinking about ethics in global social relations criticizing the leading traditions in international ethics and exploring the ways in which some strands of feminist moral philosophy may offer an alternative perspective to view ethics in international relations

Care Ethics and the Refugee Crisis Marcia Morgan, 2020-01-27 This book advocates for the philosophical import of care in re evaluating problems of humanitarianism in the context of the ongoing international refugee and forced migration situation In doing so it rethinks the human capacity to care about the suffering of distant others At a time when emotional resources are running low there is a need to recast what it means to care with the aim of generating a productive movement against the rise of value fundamentalism globally embraced in mantras of good and evil and us and them and to confront xenophobia and oppressive politics The author draws upon a wide array of rich traditions including historical and contemporary writings on self care and care of the other to re examine the intersection of care ethics and justice She also rethinks the relationship between care and contestation here analyzed in the aesthetic ethical political and religious domains of human experience From within the context of this contingent historical repetition of political oppression the book constructs a reminder not only of what it feels like to care but how and why we should act upon our care

Care Ethics and the Refugee Crisis is an important contribution to the growing literatures on care ethics and immigration forced migration in philosophy It will also appeal to scholars and advanced students working in other disciplines such as political science refugee and migration studies and social anthropology
