China's Modernization II Gerhard Preyer, 2015-09-09. The idea of only one way leading to a modern society seems to be hardly tenable. But even if we agree to this, our theories and terms describing modernization are gained on our own Western history. So social science has to reconsider its basic terms to describe China's modernization and maybe even the understanding of modernization itself. The second of two volumes on China's modernization collects articles by leading Chinese and Western scientists focusing on the main conflicts and differences this process involves. In the first section, On Contemporary Theory of Modernization, Manoussos Marangudakis represents Shmuel N. Eisenstadt's concept of Multiple Modernities and the Theory of Indeterminacy, one of the best elaborated perspectives on modernity. Changing China: Dealing with Diversity, the second section examines how China copes with dissent and discusses the significance of law and a civil society. Merle Goldman begins with Dissent of China's Public Intellectuals in the Post Mao Era. The Modernization of Law in China: its Meaning, Achievements, Obstacles and Prospect is the
