Loewy, 2013-06-29 When physicians in training enter their clinical years and first begin to become involved in clinical decision making they soon find that more than the technical data they had so carefully learned is involved Prior to that time of course they were aware that more than technology was involved in practicing medicine but here for the first time the reality is forcefully brought home It may be on the medical ward when a patient or a patient s relatives ask that no further

treatment be given and that the patient be allowed to die it may be in ob gyn when a 4 or 5 month pregnant lady with two other children and just deserted by her husband pleads for an abortion it may be in the outpatient setting where patients unable to afford enough to eat cannot afford to buy antibiotics for their sick child or provide him or her with the recommended diet Whatever the setting students soon find themselves confronted with problems in which an answer is not given by the technical possibilities alone indeed students may have to face situations in which all things considered the use of these technical possibilities seems ill advised But choices need to be made Some of us may choose to hide behind a mastery of technology

**Primary Care Ethics** Deborah Bowman, 2018-04-19 Relevant for the entire primary care team this book provides a diverse range of perspectives on current topical issues Healthcare ethics is a subject of increasing interest especially when it related to some of the challenging themes regularly discussed in the media Until now there has been little useful literature for those in primary care where ethical problems are often experienced with a unique set of issues Primary Care Ethics is rigorous and academic while remaining highly accessible for the full range of practitioners Moral and legal aspects are clearly distinguished throughout and the theme based approach is stimulating and original In providing greater depth and breadth in this subject than has been available previously the book is both practical and thought provoking and essential reading for everyone whether in academic training or practice based primary care Oxford Textbook of Palliative Medicine Nathan I. Cherny, Marie T. Fallon, Stein Kaasa, Russell K. Portenoy, David C. Currow, 2021 Written by an established comprehensive multidisciplinary focused internationally recognized team the sixth edition has been fully revised and brought up to date with the inclusion of recent developments in the speciality to ensure that it retains its reputation as the definitive reference on palliative care
