Moral Action And Christian Ethics:

Moral Action and Christian Ethics Jean Porter, 1999-03-11 How do we determine whether an action is right or wrong Until recently philosophers assumed that this question could be answered by means of a theory of morality which set forth clearly established rules for moral behaviour More recently however a number of philosophers have challenged a theory of morality in this sense Porter is sympathetic to their criticisms but questions whether they go far enough in offering a positive alternative to a modern view of the moral act She argues that the work of Aquinas offers an alternative account of moral rationality in terms of which moral reasoning is understood as dialectical rather than deductive and questions are resolved in a wider context of ethical thought Aquinas's account of the moral virtues and prudence is seen to offer unexpected insights into the relationship between moral rules and the practice of the virtues thus contributing to our own moral reflection

The Moral Disciple Kent A. Van Til, 2012-08-13 The ability to judge good from bad right from wrong is a uniquely human characteristic However given the complexity of life it is often difficult to discern which choice to make where our responsibilities lie or what the consequences of an action or of a nonaction will be In *The Moral Disciple* Kent Van Til surveys the skills and dispositions that we need to address moral issues responsibly This basic introduction to Christian ethics the systematic evaluation of morality highlights the centrality of Christ and the Christian faith in moral formation and it offers an ethical framework to guide Christians as they engage a host of moral dilemmas including those surrounding wealth sexuality and the end of life Using easy to read prose and defining terms carefully Van Til provides an accessible introduction to this crucial and practical subject

Christian Ethics; Or, The True Moral Manhood and Life of Duty D. S. Gregory, 1883

Can Ethics Be Christian? James M. Gustafson, 1975 Is there a special relation between religious beliefs and moral behavior In particular is there a distinctive Christian moral character and how is this manifested in moral actions The influential theologian James M Gustafson probes these questions and offers an analysis of the distinctively religious reasons of the heart and mind which constitute the basis for a Christian ethics Professor Gustafson grounds his discussion in a concrete example of moral conduct which deeply impressed him The incident narrated in detail at the start and referred to throughout concerns a nonreligious colleague who came to the aid of an intoxicated soldier Although seemingly trivial this incident in the author's view approximates the normal sorts of experiences in which individuals have to make moral decisions every day it becomes a touchstone to investigate the logical social and religious elements in moral decision making

Jürgen Moltmann's Ethics of Hope Timothy Harvie, 2016-05-06 This book develops a thorough account of the sphere of human moral action in sustained dialogue with Jürgen Moltmann By examining God's role as promise giver particularly in the Christian understanding of resurrection this work describes the occupancy of both history and space in moral terms This leads to an understanding of Jesus' description of the kingdom of God to feature prominently in describing both the possibility and content of human moral action By offering an account of each of the main doctrines found in Moltmann's corpus the role

of the future the Trinity the Holy Spirit and anthropology this book locates how each contributes to the understanding of ethics from a Christian perspective and subsequently applies these findings to the contemporary issue of poverty and global economics

Moral Passion and Christian Ethics Robin Gill, 2017-03-06 Using a range of disciplines this book explores the relationship between moral passion and rational ethical deliberation

Christian Ethics and Commonsense Morality Kevin Jung, 2014-11-27 Christian Ethics and Commonsense Morality goes against the grain of various postmodern approaches to morality in contemporary religious ethics In this book Jung seeks to provide a new framework in which the nature of common Christian moral beliefs and practices can be given a new meaning He suggests that once major philosophical assumptions behind postmodern theories of morality are called into question we may look at Christian morality in quite a different light On his account Christian morality is a historical morality insofar as it is rooted in the rich historical traditions of the Christian church Yet this kind of historical dependence does not entail the evidential dependence of all moral beliefs on historical traditions It is possible to argue for the epistemic autonomy of moral beliefs according to which Christian and other moral beliefs can be justified independently of their historical sources The particularity of Christian morality lies not in its particular historical sources that also function as the grounds of justification but rather in its explanatory and motivational capacity to further articulate the kind of moral knowledge that is readily available to most human beings and to enable people to act upon their moral knowledge

Browning, 2006-05-17 Interest in psychology permeates our culture with psychological solutions advanced for a host of moral dilemmas How should ethically minded Christians include insights from such disciplines as psychoanalysis cognitive moral development and neuroscience in their theological reflection Don Browning offers a serious proposal for combining these disciplines with the best in ethical reflection from a Christian standpoint Along the way he introduces readers to the moral psychology work of Sigmund Freud Carol Gilligan Antonio Damasio and others opening up a dialogue between their work and the hermeneutics of Hans Georg Gadamer and Paul Ricoeur Browning also recognizes the potential limits of the conversation between Christian ethics and the moral psychologies pointing out where they must diverge

Renewing Moral Theology Daniel A.

Westberg,2015-04-02 Moral theology rooted in Thomas Aquinas has long found its home in the Catholic and Anglican traditions and in recent years it has become more familiar through the perspective known as virtue ethics Renewing Moral Theology unfolds an ethical perspective that is Thomistic in structure evangelical in conviction and Anglican in ethos **The Nature and Scope of Christian Ethics, with an Inquiry Into the Origin of Our Moral Sentiments, Etc** Henry WALLACE (of Belfast.),1867 *Theology and the Science of Moral Action* American Academy of Religion. Conference,2012 The past decade has witnessed a renaissance in scientific approaches to the study of morality Once understood to be the domain of moral psychology the newer approach to morality is largely interdisciplinary driven in no small part by developments in behavioural economics and evolutionary biology as well as advances in neuroscientific imaging capabilities among other fields To date scientists studying moral cognition and behaviour have paid little attention to virtue theory while virtue theorists have yet to acknowledge the new research results emerging from the new science of morality Theology and the Science of Moral Action explores a new approach to ethical thinking that promotes dialogue and integration between recent research in the scientific study of moral cognition and behaviour including neuroscience moral psychology and behavioural economics and virtue theoretic approaches to ethics in both philosophy and theology More particularly the book evaluates the concept of moral exemplarity and its significance in philosophical and theological ethics as well as for ongoing research programs in the cognitive sciences *Moved by God to Act* Wm. Carter Aikin,2014-01-03 *Moved by God to Act* offers a fresh description of Christian moral action as a moment of connection between divine and human agency Through an ecumenical consideration of a variety of resources this book gives an accessible description of the work of God s grace not only in individual Christian agency but also within the dynamics of Christian community *Moved by God to Act* brings the contemporary theological ethics of community into dialogue with the pneumatology of Thomas Aquinas The ethic emerging from this dialogue lifts up the centrality of God s grace in Christian community while at the same time offering a detailed articulation of the human being as naturally and beautifully drawn into cooperation with God s grace in the ethical life The book concludes by showing how Aquinas stands in substantial harmony with the contemporary authors discussed offering a proper description of God s agency in individual Christian human agency and the dynamics of the body of the Christian community to which the contemporary discourse so rightly points *Moved by God to Act* is an attempt to speak to the work of God in the life and day to day action of Christians and Christian communities as moved to act by the Holy Spirit *The Identity of Christian Morality* Ann Marie Mealey,2016-03-03 This book argues that moral theology has yet to embrace the recommendations of the Second Vatican Council concerning the ways in which it is to be renewed One of the reasons for this is the lack of consensus between theologians regarding the nature content and uniqueness of Christian morality After highlighting the strengths and weaknesses of the so called autonomy and faith ethic schools of thought Mealey argues that there is little dividing them and that in some instances both schools are simply defending one aspect of a hermeneutical

dialectic In an attempt to move away from the divisions between proponents of the faith ethic and autonomy positions Mealey enlists the help of the hermeneutical theory of Paul Ricoeur She argues that many of the disagreements arising from the Christian proprium debate can be overcome if scholars look to the possibilities opened up by Ricoeur's hermeneutics of interpretation Mealey also argues that the uniqueness of Christian morality is more adequately explained in terms of a specific identity self that is constantly subject to change and revision in light of many often conflicting moral sources She advocates a move away from attempts to explain the uniqueness of Christian morality in terms of one specific unchanging context motivation norm divine command or value By embracing the possibilities opened up by Ricoeurian hermeneutics Mealey explains how concepts such as revelation tradition orthodoxy and moral conscience may be understood in a hermeneutical way without being deemed sectarian or unorthodox

Tensions in Christian Ethics Malcolm Brown, 2011-01-01 The book draws on the author's teaching of ethics at undergraduate and postgraduate level for the Cambridge Theological Federation since 2000 Its purpose is to introduce the reader to questions in Christian ethics through a careful examination of the fundamental meta-ethical questions posed by the state we're in whether understood as a new phase of modernity or as postmodernity Brown draws on sources and authors from a variety of Christian traditions and from Britain the U S A and Europe The book will be of use not only to university departments and denominational and ecumenical teaching institutions but also as a more general exposition of the current state of ethical thinking in the Christian churches

Christian Ethics as Witness David Haddorff, 2011-01-01 Christian ethics is less a system of principles rules or even virtues and more of a free and open-ended responsible witness to God's gracious action to be with and for others and the world Postmodernity has left us with the risky uncertainty of knowing and doing the good It also leaves us with the global risks of political violence and terrorism economic globalization and financial crisis and environmental destruction and global climate change How should Christians respond to these problems This book creatively explores how Christian ethics is best understood a witness to God's action thereby providing the ethical framework for addressing the various problematic social issues that put our world at risk Haddorff develops the notion of witness through a detailed study of Karl Barth's theological ethics Barth he argues provides a language enabling us to know what a Christian ethics of witness actually looks like in both theory and in practice In correspondence to God's gracious action Christians remain free to think and act in faith hope and love in response to their unique circumstances even in a world at risk In their witness Christians remain confident that God has not abandoned the world but loves and cares for its future

The Christian Life Karl Barth, 2017-08-24 Karl Barth 1886-1968 was described by Pope Pius XII as the most important theologian since Thomas Aquinas and his writings from the perspective of a renewed theology of the Word of God continue to be a major influence among Christians students of theology and preachers around the world today His theology creatively reworks key Christian doctrines including the Trinity Christology and salvation including therein importantly the doctrine of election The product of the sustained work of more

than three decades his closely reasoned fourteen volume magnum opus *The Church Dogmatics* represents the culmination of Barth's own achievements and is regarded as perhaps one of the most significant theological works of all time. As part of the theological ethics integral to this dogmatic vision *The Christian Life* offers a fascinating and provocative account of the Christian orientation toward ethical life from the perspective of divine reconciliation setting forth a distinctive vision that sees prayer as the heart of a moral passion for the honour of God and the struggle for human righteousness. The work of one of the most influential Protestant theologians of the twentieth century this Cornerstones edition includes a brand new introduction by Philip G. Ziegler both examining and celebrating the message of one of Barth's last and most suggestive writings.
