

SOURCE OF MORAL KNOWLEDGE

Ayesha Gautam

Abstract:

One cannot deny the fact that we all have some understanding of moral issues. There is a sense that every one of us has regarding right and wrong, good and bad, what ought to be done and what ought not to be done. This moral understanding can be in the form of some vague idea, notion, or simply a gut feeling. No matter who the person is, from which culture or community the person belongs to, everybody faces a moral quandary sometime or other in one's life. Essentially, this assumes that a fundamental sense of right or wrong exists. There seems to be some consensus about what is right and what is wrong when it comes to actions. Some actions, for instance, torturing babies just for fun, killing an innocent person, raping, etc. are exemplars of morally wrong and culpable actions. Assisting a person in need, giving to famine relief, etc. on the other hand are examples of morally right and praiseworthy actions. This essay is an attempt to undertake an inquiry into the source of moral knowledge. Three sources, experience, reason, and intuition have been identified. Views of philosophers like G.E Moore, WD Ross, Immanuel Kant, JS Mill, Plato, Samuel Clarke, Aristotle, Hume, and Anthony Ashley Cooper have been discussed to gain clarity about the issue.
