Everyday Ethics Michael Lamb, Brian A. Williams, 2019-10-01 What might we learn if the study of ethics focused less on hard cases and more on the practices of everyday life In *Everyday Ethics* Michael Lamb and Brian Williams gather some of the world's leading scholars and practitioners of moral theology including some GUP authors to explore that question in dialogue with anthropology and the social sciences Inspired by the work of Michael Banner these scholars cross disciplinary boundaries to analyze the ethics of ordinary practices from eating learning and loving thy neighbor to borrowing and spending using technology and working in a flexible economy Along the way they consider the moral and methodological questions that emerge from this interdisciplinary dialogue and assess the implications for the future of moral theology

Gospel of the Absurd Robert Scot Miller, 2017-08-02 *Gospel of the Absurd* is a project that originates in the anarchic experiences of a crack cocaine addict who was knocked off his high horse by an experience of Jesus Having spent years as an enemy of the faith R Scot Miller came back to faith with the passion of a new convert infused with a subversive's heart for turning the world upside down In the process of stumbling every bit as much as he learned to walk in the light Miller begins to understand that the subversive claims of the gospel of Jesus as the Christ are not only the most meaningful response to the absurdity of the world but that such absurdity demands a community of action that makes the subversive Christ the credible response to a culture and Christendom run amok with power and greed *Gospel of the Absurd* is about an ethic informed by an absurd claim that being the claim that voluntary sacrifice of privilege is the proper response to human brokenness and the systems of domination that have lured the church into apostasy Miller then explores whether the church by prioritizing care ethics over legislative or coercive justice is the salvific experience Jesus is calling us to engage in Communication in

Verhey, 1998-05-11 Collecting a wide range of contemporary and classical essays dealing with medical ethics this huge volume is the finest resource available for engaging the pressing problems posed by medical advances What is Good? A.C.

Grayling, 2011-07-21 A.C. Grayling answers the most important question How do we live a good life One of the most fundamental questions in our life is to find out what we value what principles we want to live by and which codes we will use to guide our behaviour Most of us want to live a good life But what in today's secular society does good actually mean To classical Greeks the acquisition of knowledge the enjoyment of the senses creativity and beauty were all aspects of life to

strive for Then came the volcanic declarations of St Paul and his fundamentalist ideas on sin and human nature In WHAT IS GOOD A C Grayling examines these and other proposals on how to live a good life from the heroic ideals of the Greek poets to Kant s theories on freedom and the UN Declaration on Human Rights **The Oxford Handbook of Theological Ethics** Gilbert Meilaender, William Werpehowski, 2005-08-25 The Oxford Handbook of Theological Ethics is an authoritative guide to the practical and theoretical issues that concern and shape the discipline Thirty of the world s most distinguished specialists provide new essays in order to offer a survey of and analysis of the subject As this is a Handbook of theological ethics its essays deal not only with the standard topics of ethics the goals we ought to seek the actions we ought to do the sort of people we should seek to be but more particularly with the shape moral life takes for those who seek to live as Christians

BOOK JACKET Ethics Lost in Modernity Matthew Vest, 2023-07-21 Ethics Lost in Modernity Reflections on Wittgenstein and Bioethics turns to the philosopher Ludwig Wittgenstein as a guide to understand the immense success yet great danger of bioethics Matthew Vest traces the story of bioethics since its inception in the late 1960s as a way to uncover a number of hidden assumptions within modern ethics that relies upon scientific theorizing as the fundamental way of thinking Autonomy and utilitarianism in particular are two nearly unquestioned goals of scientific theorizing that are easily accessible but at what cost Vest argues that such an ethics enacts a thin moral calculation that runs the risk of enslaving ethics to scientism Far from the depth of religious ethos and practices of virtue modern ethics is lost amidst thin ethical theories enacting a language game that instrumentalizes ethics in service of technological bureaucratic and professional end goals He proposes that true moral living is far from anti science but rather is envisioned best when ethics and science are balanced with keen insights from ancient sacred cosmology **Responsibility and Christian Ethics** William Schweiker, 1999-03-11 Schweiker develops a powerful new theory of responsibility articulated in terms of Christian faith Visions of Agapé Craig A. Boyd, 2017-03-02 This book brings together philosophical and theological perspectives on agapistic love The aim of the text is to illuminate the nature of unlimited love by distinct and integrative approaches to the intersection of the divine and the human Various scientific approaches to human forms of love seem to shed light on our nature as social beings But to what extent are the natural desires for affection sexual love and friendship augmented revised perfected or replaced by the gift of grace In other words we can ask how is it that agap modifies or shapes the natural loves Diverse theological and moral traditions address the question in quite startling contrast Thomists follow the dictum that Grace does not destroy nature but perfects it Lutherans draw a sharp contrast between law and Gospel while Wesleyans see charity as the sanctifying power of the Holy Spirit Some feminist theorists see the idea of self giving love as contrary to genuine self fulfilment while the neo Kantians see love as a duty to others and some Kierkegaardians see the command to love as an unusual manifestation of divine command ethics These diverse approaches in light of contemporary research in the natural and social sciences can provide fertile ground for the exploration of the intersection of human and divine love To date there is no text available that

brings scholars from various theological and philosophical backgrounds together to engage in interdisciplinary dialogue on this important and much neglected aspect of research into the human and divine loves This book offers a significant attempt to remedy the situation **The Ethics of Encounter** Mescher, Marcus,2020-03-18 The author provides an ethical framework for the culture of encounter that Pope Francis calls us to build Christian Ethics Introduced Hans O. Tiefel,2024-03-11 Christian Ethics Introduced asks why humans count as ends in themselves The biblical answer was is that humans have standing inherent worth as creatures in the image of God This traditional answer yielded to seventeenth and eighteenth century enlightenment secularism To these secularists human reason promised to be a surer and more peaceable foundation for a just culture than religion Human rationality the light of human reason would enlighten and improve the human condition Two world wars and more realistic trends in new social sciences created not just awareness of human irrationality but fostered skepticism of sound foundations for morality and justice It seemed that both traditional religion and enlightened reason fell short of what had been hoped And the cause of failure may not lie in traditional religion or in human irrationality Rather the problem might lie in human conduct Specifically it may lie in the human inclination to favor self over others of the me outranking the we Christian responses to the human failure to live a moral and just life recognize the persistence of immoral conduct acknowledge it in regard to oneself ask for forgiveness and make amends and peace with God and with those wronged *Identity Excellence* Perry L. Glanzer,2022-07-18 American higher education historically and inherently is a morally formative endeavor Yet in order to respond to America s moral pluralism higher education has increasingly taken a reductionistic approach to moral formation Consequently it abandoned the effort to supply students with moral expertise Current approaches help students learn how to be excellent professionals and citizens but they fail to provide the necessary tools for living the good life in college and beyond Identity Excellence A Theory of Moral Expertise for Higher Education addresses this problem by setting forth a multi disciplinary theory of moral expertise for fostering moral excellence in an array of important identities To this end it teases apart the essential elements of what it means to be excellent in an identity before discussing the philosophical sociological psychological and educational processes necessary for students to internalize traditions of identity excellence as part of their own moral identities Overall the emergent theory exposes the shortcomings in contemporary general education professional ethics and co curricular education Finally this book sets forth a bold but compelling vision for a more hopeful future for American higher education As outlined within such education involves teaching students excellence in the Great Identities as well as how to prioritize and integrate their pursuit of identity excellence
