Morality Of War Classical And Contemporary Readings:

The Morality of War Larry May, Eric Rovie, Steve Viner, 2006 The first major anthology to survey the field of moral and ethical issues concerning war and peace this text traces debates from Cicero and Augustine to Kosovo and Iraq today Issues of self defense preemptive war torture pacifism terrorism and many more are central to the readings in this book **The Ethics of War** Gregory M. Reichberg, Henrik Syse, Endre Begby, 2006-07-05 The Ethics of War is an indispensable collection of essays addressing issues both timely and age old about the nature and ethics of war Features essays by great thinkers from ancient times through to the present day among them Plato Augustine Aquinas Machiavelli Grotius Kant Russell and Walzer Examines timely questions such as When is recourse to arms morally justifiable What moral constraints should apply to military conduct How can a lasting peace be achieved Will appeal to a broad range of readers interested in morality and ethics in war time Includes informative introductions and helpful marginal notes by editors **An Introduction to Military Ethics** Bill Rhodes, 2009-09-23 This comprehensive overview examines the many facets of military ethics as they are applied during times of armed conflict and times of peace An Introduction to Military Ethics A Reference Handbook presents the philosophical and conceptual foundations of military ethics offering an excellent foundation for exploration and discussion of these issues It focuses first on the 2 500 year legacy of the just war theory and its application through history It then moves to the application of that tradition in the modern era showing how acts of terrorism by nonstate participants require a new theory and way of thinking about when and how armed force can be justifiably employed Further the author analyzes how new theories might alter the fundamental identity of traditional defensive military forces The book also addresses peacetime ethical issues such as gender integration and the role of religion in the military The book is essential reading for military officers and students as well as those policymakers who confront decisions about how to deploy military force during the War on Terror **Ethics and War** Steven P. Lee, 2012 An account of war ethics sensitive to the historical just war theory informed by the contemporary concerns of war The Morality of Defensive War Cécile Fabre, Seth Lazar, 2014-02 Most of us take it for granted that wars in defence of one's political community are the quintessential just wars Indeed while in recent years philosophers have subjected all of our other assumptions about just war theory to radical revision this principle has emerged largely unscathed But what underpins the morality of defensive war In this book leading moral and political philosophers both show the profoundly challenging nature of that question and advance novel answers to it The first part exposes the deep tension between the individualist foundations of much contemporary philosophy and plausible conclusions about the morality of defensive war The second part offers an individualist attempt to resolve that tension while the third seeks to justify defensive war by appeal to more collectivist values *Morality, Jus Post Bellum, and International Law* Larry May, Andrew Forcehimes, 2012-04-23 Leading legal political and moral theorists discuss the normative issues that arise when war concludes and when a society strives to regain peace International Law in Public Debate Madelaine

Chiam,2021-12-09 Public debates in the language of international law have occurred across the 20th and 21st centuries and have produced a popular form of international law that matters for international practice This book analyses the people who used international law and how they used it in debates over Australia s participation in the 2003 Iraq War the Vietnam War and the First World War It examines texts such as newspapers parliamentary debates public protests and other expressions of public opinion It argues that these interventions produced a form of international law that shares a vocabulary and grammar with the expert forms of that language and distinct competences in order to be persuasive This longer history also illustrates a move from the use of international legal language as part of collective justifications to the use of international law as an autonomous justification for state action *Moral Victories* Andrew R. Hom,Cian O'Driscoll,Kurt Mills,2017-11-17

What does it mean to win a moral victory Ideals of just and decisive triumphs often colour the call to war yet victory is an increasingly dubious proposition in modern conflict where negotiated settlements and festering violence have replaced formal surrenders In the Just War and strategic studies traditions assumptions about victory also underpin decisions to go to war but become more problematic in discussions about its conduct and conclusion So although winning is typically considered the very object of war we lack a clear understanding of victory itself Likewise we lack reliable resources for discerning a just from an unjust victory for balancing the duty to fight ethically with the obligation to win and for assessing the significance of changing ways of war for moral judgment Though not amenable to easy answers these important questions are both perennial and especially urgent This book brings together a group of leading scholars from various disciplines to tackle them It covers both traditions of victory charting the historically variable notion of victory and the dialogues and fissures this opens in the just war and strategic canons along with contemporary challenges of victory analysing how new security contexts put pressure on these fissures and working toward clearer ideas about victory today The result is a wide ranging and timely collection of essays that bridges the gap between ethical strategic and historical approaches to war and develops new ways of thinking about it as a practical and moral proposition **On Just Cause in Law and the Morality of War** Andreas Weiß,2015-11-23

Essay from the year 2009 in the subject Politics Political Theory and the History of Ideas Journal grade 1 3 University of Birmingham Department of Political Science and International Studies course The Theory and Ethics of Terrorism and Political Violence language English abstract As the Spaniard Francisco de Vitoria noticed war can only be justified as response to previous wrongs The issue here is the extent and manner of inflicted harm justifying the use of violence on behalf of third parties the legal and moral preconditions for interventions National defence should remain the central basis for just cause in the law and morality of war however in the area of tension between national self determination and the most fundamental human rights the prevalent principle of non intervention reaches its limits and allows for humanitarian interventions as response to acts that shock the moral conscience of mankind In order to avoid instrumentalization or misemployment of these instruments and guarantee protection of peoples

from human rights abuses an institutionalization is absolutely essential hence proper international authority has to be established and has to conduct these interventions on multilateral grounds with care for the cultural circumstances for the solution of societal problems and of nation building cannot simply be imposed on nations from outside *Imagining War and Peace in Eighteenth-Century Britain, 1690–1820* Andrew Lincoln, 2023-11-23 Is war the opposite of peace or its necessary accomplice Exploring this question in relation to eighteenth century Britain Andrew Lincoln opens up complex paradoxical and enduring issues and shows how ideas and methods were developed to provide the British public with moral insulation from violence both overseas and at home **Ethics and the Future of Spying** Jai Galliot, Warren Reed, 2016-01-08 This volume examines the ethical issues generated by recent developments in intelligence collection and offers a comprehensive analysis of the key legal moral and social questions thereby raised Intelligence officers whether gatherers analysts or some combination thereof are operating in a sea of social political scientific and technological change This book examines the new challenges faced by the intelligence community as a result of these changes It looks not only at how governments employ spies as a tool of state and how the ultimate outcomes are judged by their societies but also at the mind set of the spy In so doing this volume casts a rare light on an often ignored dimension of spying the essential role of truth and how it is defined in an intelligence context This book offers some insights into the workings of the intelligence community and aims to provide the first comprehensive and unifying analysis of the relevant moral legal and social questions with a view toward developing policy that may influence real world decision making The contributors analyse the ethics of spying across a broad canvas historical philosophical moral and cultural with chapters covering interrogation and torture intelligence s relation to war remote killing cyber surveillance responsibility and governance In the wake of the phenomena of WikiLeaks and the Edward Snowden revelations the intelligence community has entered an unprecedented period of broad public scrutiny and scepticism making this volume a timely contribution This book will be of much interest to students of ethics intelligence studies security studies foreign policy and IR in general The Bloomsbury Companion to Political Philosophy Andrew Fiala, 2015-02-26 The Bloomsbury Companion to Political Philosophy is the definitive guide to contemporary political philosophy The book covers all the most pressing and important themes and categories in the field areas that have continued to attract interest historically as well as topics that have emerged more recently as active areas of research Fourteen specially commissioned essays from an international team of experts including Eduardo Mendieta and Gillian Brock reveal where important work continues to be done in the area and most valuably the exciting new directions the field is taking The Companion explores a range of issues from the nature and history of political philosophy sovereignty distributive justice democratic theory feminist theory to toleration human rights immigration cosmopolitanism peace war and the challenge of Eurocentrism in political philosophy Featuring a series of indispensable research tools including an A to Z of key terms and concepts a chronology a detailed list of resources and a fully annotated bibliography this is the essential reference tool for

anyone researching or working in political philosophy **Acts, Intentions, and Moral Evaluation** Craig M.

Acts, Intentions, and Moral Evaluation Craig M.

White, 2022-12-27 This book argues that the moral quality of an act comes from the agent's inner states. By arguing for the indispensable relevance of intention in the moral evaluation of acts, the book moves against a mainstream objective approach in normative ethics. It is commonly held that the intentions, knowledge, and volition of agents are irrelevant to the moral permissibility of their acts. This book stresses that the capacities of agency, rather than simply the label 'agent', must be engaged during an act if its moral evaluation is to be coherent. The author begins with an ontological argument that an act is a motion or a causing of change in something else. He argues that the source of an act's moral meaning is in the agent, specifically what the agent is aware of relevant facts around her aims to accomplish. He then moves to a series of critical chapters that consider arguments for mainstream approaches to act evaluation, including Thomson's dismissal of the agent's knowledge and volition requirements, Scanlon's arguments for a derivative relevance of intentions to permissibility, Frowe's causal roles of agents in the moral evaluation of acts, and Bennett's explicit defense of the objective approach. The book concludes by offering the author's preferred replacement for the objective approach: an Aristotelian Thomist view of acts. *Acts, Intentions, and Moral Evaluation* will be of interest to scholars and advanced students working in ethics, just war theory, the ethics of self-defense, and philosophy of action.

International Law, Security and Ethics Aidan Hehir, Natasha

International Law, Security and Ethics Aidan Hehir, Natasha

Kuhrt, Andrew Mumford, 2014-02-04 This book examines the different ways in which the laws governing the use of force and the conduct of warfare have become subject to intense scrutiny and contestation since the initiation of the war on terror. Since the end of the Cold War the nature of security challenges has changed radically and this change has been recognised by the UN governments and academics around the world. The 9/11 attacks and the subsequent launch of the war on terror added a new dimension to this debate on the nature and utility of international law due to the demands from some quarters for a change in the laws governing self defence and humanitarian intervention. This book analyses the nature of these debates and focuses on key issues that have led to the unprecedented contemporary questioning of both the utility and composition of international law on the use of force as well as the practicability of using force including handling of prisoners and security risks. It also identifies the sources of division and addresses the capacities of security policy and international law to adapt to the changed international environment. This book will be of much interest to students of international law, war and conflict studies and IR and Security Studies in general. The Oxford Handbook of Religion and Violence Mark

The Oxford Handbook of Religion and Violence Mark

Juergensmeyer, Margo Kitts, Michael K. Jerryson, 2015-11 Violence has always played a part in the religious imagination from symbols and myths to legendary battles from colossal wars to the theater of terrorism The Oxford Handbook of Religion and Violence surveys intersections between religion and violence throughout history and around the world The forty original essays in this volume include overviews of major religious traditions showing how violence is justified within the literary and theological foundations of the tradition how it is used symbolically and in ritual practice and how social acts of violence and

warfare have been justified by religious ideas The essays also examine patterns and themes relating to religious violence such as sacrifice and martyrdom which are explored in cross disciplinary or regional analyses and offer major analytic approaches from literary to social scientific studies The contributors to this volume innovative thinkers who are forging new directions in theory and analysis related to religion and violence provide novel insights into this important field of studies By mapping out the whole field of religion and violence The Oxford Handbook of Religion and Violence will prove an authoritative source for students and scholars for years to come

Pacifism Robert L. Holmes, 2016-12-15 In a world riven with conflict violence and war this book proposes a philosophical defense of pacifism It argues that there is a moral presumption against war and unless that presumption is defeated war is unjustified Leading philosopher of non violence Robert Holmes contends that neither just war theory nor the rationales for recent wars Vietnam the Gulf War the Iraq and Afghanistan Wars defeat that presumption hence that war in the modern world is morally unjustified A detailed comprehensive and elegantly argued text which guides both students and scholars through the main debates Just War Theory and double effect to name a few clearly but without oversimplifying the complexities of the issues or historical examples

The Oxford Handbook of Ethics of War Seth Lazar, Helen Frowe, 2018-01-12 Recent years have seen a resurgence of interest among both philosophers legal scholars and military experts on the ethics of war Due in part due to post 9 11 events this resurgence is also due to a growing theoretical sophistication among scholars in this area Recently there has been very influential work published on the justification of killing in self defense and war and the topic of the ethics of war is now more important than ever as a discrete field The 28 commissioned chapters in this Handbook will present a comprehensive overview of the field as well as make significant and novel contributions and collectively they will set the terms of the debate for the next decade Lazar and Frowe will invite the leading scholars in the field to write on topics that are new to them making the volume a compilation of fresh ideas rather than a rehash of earlier work The volume will be divided into five sections Method History Resort Conduct and Aftermath The contributors will be a mix of junior and senior figures and will include well known scholars like Michael Walzer Jeff McMahan and David Rodin

Revolution and the Historical Novel John McWilliams, 2017-12-15 John McWilliams has written the first much needed account of the ways the promise and threat of political revolution have informed masterpieces of the historical novel The jolting sense of historical change caused by the French Revolution led to an immense readership for a new kind of fiction centered on revolution counter revolution and warfare which soon came to be called the historical novel During the turbulent wake of The Declaration of the Rights of Man promptly followed by the phenomenon of Napoleon Bonaparte the historical novel thus served as a literary hybrid in the most positive sense of that often dismissive term It enabled readers to project personal hopes and anxieties about revolutionary change back into national history While immersed in the fictive lives of genteel often privileged heroes readers could measure their own political convictions against the wavering loyalties of their counterparts in a previous but still familiar

time McWilliams provides close readings of some twenty historical novels from Scott and Cooper through Tolstoy Zola and Hugo to Pasternak and Lampedusa and ultimately to Marquez and Hilary Mantel but with continuing regard to historical contexts past and present He traces the transformation of the literary conventions established by Scott's Waverley novels showing both the continuities and the changes needed to meet contemporary times and perspectives Although the progressive hopes imbedded in Scott's narrative form proved no longer adaptable to twentieth century carnage and the rise of totalitarianism the meaning of any single novel emerges through comparison to the tradition of its predecessors A foreword and epilogue explore the indebtedness of McWilliams's perspective to the Marxist scholarly tradition of Georg Lukacs and Frederic Jameson while defining his differences from them This is a scholarly work of no small ambition and achievement

The Ashgate Research Companion to Military Ethics James Turner Johnson, Eric D. Patterson, 2016-03-23 This Companion provides scholars and graduates serving and retired military professionals members of the diplomatic and policy communities concerned with security affairs and legal professionals who deal with military law and with international law on armed conflicts with a comprehensive and authoritative state of the art review of current research in the area of military ethics Topics in this volume reflect both perennial and pressing contemporary issues in the ethics of the use of military force and are written by established professionals and respected commentators Subjects are organized by three major perspectives on the use of military force the decision whether to use military force in a given context the matter of right conduct in the use of such force and ethical responsibilities beyond the end of an armed conflict Treatment of issues in each of these sections takes account of both present day moral challenges and new approaches to these and the historical tradition of just war Military ethics as it has developed has been a particularly Western concern and this volume reflects that reality However in a globalized world awareness of similarities and differences between Western approaches and those of other major cultures is essential For this reason the volume concludes with chapters on ethics and war in the Islamic Chinese and Indian traditions with the aim of integrating reflection on these approaches into the broad consideration of military ethics provided by this volume

The Ethics of National Security Intelligence Institutions Adam Henschke, Seumas Miller, Andrew Alexandra, Patrick F. Walsh, Roger Bradbury, 2024-03-19 This book explores the ethics of national security intelligence institutions operating in contemporary liberal democracies Intelligence collection by agencies such as the CIA MI6 and Mossad involves practices that are apparently inconsistent with the principles of ordinary morality practices such as lying spying manipulation and covert action However in the defence of national security such practices may not only be morally permissible but may also under some circumstances be morally obligatory One approach to the ethics of national security intelligence activity has been to draw from the just war tradition so called just intelligence theory This book identifies significant limitations of this approach and offers a new institutionally based teleological normative framework In doing so it revises some familiar principles designed for application to kinetic wars such as necessity and proportionality and

invokes some additional ones such as reciprocity and trust It goes on to explore the applications of this framework and a revised set of principles for national security intelligence institutions and practices in contemporary and emerging political and technological settings This book will be of much interest to students of intelligence studies ethics security studies and International Relations

Morality Of War Classical And Contemporary Readings Introduction

In today's digital age, the availability of Morality Of War Classical And Contemporary Readings books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Morality Of War Classical And Contemporary Readings books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Morality Of War Classical And Contemporary Readings books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Morality Of War Classical And Contemporary Readings versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Morality Of War Classical And Contemporary Readings books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Morality Of War Classical And Contemporary Readings books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Morality Of War Classical And Contemporary Readings books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both

public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Morality Of War Classical And Contemporary Readings books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Morality Of War Classical And Contemporary Readings books and manuals for download and embark on your journey of knowledge?

FAQs About Morality Of War Classical And Contemporary Readings Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Morality Of War Classical And Contemporary Readings is one of the best book in our library for free trial. We provide copy of Morality Of War Classical And Contemporary Readings in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Morality Of War Classical And Contemporary Readings. Where to download Morality Of War Classical And Contemporary Readings online for free? Are you looking for Morality Of War Classical And Contemporary Readings PDF? This is definitely going to save you time and cash in something you should think about.
