Moralizing The Environment Countryside Change Farming And Pollution

Michael Woods

Moralizing The Environment Countryside Change Farming And Pollution:

Moralizing The Environment Philip Lowe, Judy Clark, Susanne Seymour, Neil Ward, 2023-03-24 First published in 1997 There was a time when pollution was equated with the urban and the industrial But things have changed What were previously mutually exclusive categories of agriculture and pollution have been brought together in a new morally charged atmosphere Moralizing the environment is a study of how this shift came about It examines the emergence of the farm pollution problem in Britain in the 1980s It draws upon a study of the regulation of farm wastes cattle slurry silage effluent and the dirty water from farmyards conducted between 1989 and 1995 Detailed surveys and ethnographic fieldwork were carried out in the south west of England among dairy farmers pollution inspectors agricultural advisers and environmentalists In trying to get to grips with farm pollution they were pursuing different notions not only of sound agricultural practice but also of nature morality and the law What ultimately was at stake was who could be trusted to safeguard the countryside

Moralizing the Environment Philip Lowe, 2003 There was a time when pollution was equated with the urban and the industrial But things have changed What were previously mutually exclusive categories of agriculture and pollution have been brought together in a new morally charged atmosphere Moralizing the environment is a study of how this shift came about It examines the emergence of the farm pollution problem in Britain in the 1980s It draws upon a study of the regulation of farm wastes cattle slurry silage effluent and the dirty water from farmyards conducted between 1989 and 1995 Detailed surveys and ethnographic fieldwork were carried out in the south west of England among dairy farmers pollution inspectors agricultural advisers and environmentalists In trying to get to grips with farm pollution they were pursuing different notions not only of sound agricultural practice but also of nature morality and the law What ultimately was at stake was who could be trusted to safeguard the countryside

The Governance of the Countryside, *Ecological Modernisation Around the World* Arthur P.J. Mol, David A. Sonnenfeld, 2014-04-08 The idea of ecological modernisation originated in Western Europe in the 1980s gaining attention around the world by the late 1990s At the core of this social scientific and policy oriented approach is the view that contemporary societies have the capability of dealing with their environmental crises Experiences in some countries demonstrate that modern institutions can incorporate environmental interests into their daily routines Elsewhere economic and political interests dominate development trajectories and environmental deterioration continues challenging the premises of ecological modernisation This volume brings together research on ecological modernisation practices around the world Studies on Western Central and Eastern Europe the USA and Southeast Asia examine the applicability of this approach to advanced industrial countries transitional economies and developing countries respectively Authors critically examine the premises of ecological modernisation theory assess its value for understanding past and present environmental transformations and outline paths for designing future sustainable development Taken together the studies in collected this volume offer significant refinements extensions and critiques of

ecological modernisation theory and suggest important directions for future research on social and policy dimensions of environmental change **CAP and the Rural Environment in Transition** Floor Brouwer, Philip Lowe, 1998-09-01 In recent years policy makers have had to respond to criticisms of the environmentally damaging role of the Common Agricultural Policy CAP The 1992 reform of the CAP partly addressed the criticisms by reducing the incentives to intensify production and by promoting the beneficial effects of agriculture on landscape and biodiversity In assessing the consequences of these changes it is important to bear in mind the variability of agricultural production systems and of environmental conditions in different EU Member States Uniform responses or single environmental outcomes from a change in agricultural policy are unlikely The book therefore addresses the environmental effects of agricultural policy reform from the different national perspectives In providing an overview of the role of the CAP in the rural environment in transition it explores key linkages between agricultural policy and the physical environment landscape and biodiversity The book is aimed at policy makers and researchers in the fields of agricultural and environmental economics and rural geography interested in the linkages between agricultural policy and the environment **Rural Geography** Michael Woods, 2005-01-05 An introduction to contemporary rural societies and economies in the developed world Rural Geography examines the social and economic processes at work in the contemporary countryside Local Environmental Regulation in Post-Socialism: A Hungarian Case Study Chris G. Pickvance, 2024-11-01 This title was first published in 2003 This text examines Hungarian local environmental regulation in practice rather than what should happen according to national legislation The book is based on interviews with officials regulators firm managers and environmental groups in four localities in Hungary and on a national survey of local government officials Numerous quotations from interviews are included It is shown that the local social and economic context influences the behaviour of both local governments and regional environmental inspectorates Firms responsiveness to regulation is studied and it is shown that while some firms are ready to pay moderate environmental fines others are afraid of even symbolic fines The findings are set within debates in the international literature on environmental regulation It is shown that there are convergences with patterns reported in developed capitalist societies but that certain legacies from state socialism are compatible with these patterns Irish Ethnologies Diarmuid Ó Giolláin, 2017-10-30 Irish Ethnologies gives an overview of the field of Irish ethnology covering representative topics of institutional history and methodology as well as case studies dealing with religion ethnicity memory development folk music and traditional cosmology This collection of essays draws from work in multiple disciplines including but not limited to anthropology and ethnomusicology These essays first published in French in the journal *Ethnologie française* illuminate the complex history of Ireland and exhibit the maturity of Irish anthropology Martine Segalen contends that these essays are part of a larger movement that galvanized the quiet revolution in the domain of the ethnology of France They did so by making specific examples in this instance Ireland inform a larger definition of a European identity The essays

edited by Gioll in also significantly explain expand and challenge Irish ethnography From twelfth century accounts to Anglo Irish Romanticism from topographical surveys to statistical accounts the statistical and literary descriptions of Ireland and the Irish have prefigured the ethnography of Ireland This collection of articles on the ethnographic disciplines in Ireland provides an instructive example of how a local anthropology can have lessons for the wider field This book will interest academics and students of anthropology folklore studies history and Irish Studies as well as general readers Contributors Martine Segalen Diarmuid Gioll in Hastings Donnan Anne Byrne Pauline Garvey Adam Drazin Gear id Cruaioich Joseph Ruane Ethel Crowley Dominic Bryan Helena Wulff Guy Beiner Sylvie Muller and Anthony McCann **Basic Concepts in**

Environmental Biotechnology Neetu Sharma, Abhinashi Singh Sodhi, Navneet Batra, 2021-09-08 The book includes current and emerging concepts in the areas of environmental biotechnology such as pollution sources control and measurement solid waste management bioremediation biofuels biosensors bioleaching conservation biotechnology and more The book also includes recent innovations made in this field and incorporates case studies to help in understanding the concepts This book applies principles from multidisciplinary sciences of environmental engineering metabolic engineering rDNA technology and omics to study the role of microbes and plants in tackling environmental issues It also includes content related to risk assessment and environmental management systems Each chapter provides problems and solutions of different topics with diagrammatic illustrations and tables for students researchers and other professionals in environmental biotechnology Explores cutting edge technologies including nanotechnology based bioremediation value added products from waste and emerging techniques related to environmental risk assessment and monitoring Reviews the current methods being applied in the environment field for pollution control waste management biodegradation of organic and inorganic pollutants and so on Provides in depth knowledge of the latest advancements in the field of environmental biotechnology such as bioleaching biomining and advances in biotechnology based conservation of biodiversity Introduces undergraduate and post graduate students to basic concepts of environmental biotechnology and allied fields Discusses different products such as biofuels biopolymers and biosensors that are being produced using biotechnological methods thus contributing towards the goal of sustainable development Dr Neetu Sharma is Assistant Professor in the Department of Biotechnology GGDSD College Chandigarh India The main thrust of her research centers on biotechnology bioremediation and nanotechnology Abhinashi Singh Sodhi is Assistant Professor in the Department of Biotechnology GGDSD College Chandigarh India His current research focuses on waste reduction valorization and bioproduct formation Dr Navneet Batra is Associate Professor and Head Department of Biotechnology GGDSD College Chandigarh India He has extensive academic and research experience of over 20 years with specialization in biotechnology and biochemical engineering The Politics of Water in Post-War Britain Glen O'Hara, 2017-05-10 This is the first book to cover the British people s late twentieth century engagement with water in all its domestic national and international forms and from bathing and household chores to controversies about maritime

pollution The British Isles a relatively wet and rainy archipelago cannot in any way be said to be short of liquid resources Even so it was the site of highly contentious and revealing political controversies over the meaning and use of water after the Second World War A series of such issues divided political parties pressure groups government and voters and form the subject matter of this book problems as diverse as flood defence to river and beach cleanliness from the teaching of swimming to the installation of hot and cold running water in the home from international controls over maritime pollution and from the different housework duties of men and women to the British state s proposals to fluoridise the drinking water supply *Introducing Social Geographies* Rachel Pain, Jamie Gough, Graham Mowl, Michael Barke, Robert

MacFarlane, Duncan Fuller, 2014-05-01 *Introducing Social Geographies* is a major new text offering a comprehensive and up to date introduction to this important area of human geography It presents a broad overview of social geography clearly outlining the key theoretical and political positions and making extensive use of examples to show how these frameworks can be used to analyse real social issues The book is ideal for undergraduates first encountering social geography and includes topic overviews summaries of key points critiques boxed case studies and suggestions for further reading [The Good](#)

[Farmer](#) Rob J.F. Burton, Jérémie Forney, Paul Stock, Lee-Ann Sutherland, 2020-09-13 Developed by leading authors in the field this book offers a cohesive and definitive theorisation of the concept of the good farmer integrating historical analysis critique of contemporary applications of good farming concepts and new case studies providing a springboard for future research The concept of the good farmer has emerged in recent years as part of a move away from attitude and economic based understandings of farm decision making towards a deeper understanding of culture and symbolism in agriculture The Good Farmer shows why agricultural production is socially and culturally as well as economically important It explores the history of the concept and its position in contemporary theory as well as its use and meaning in a variety of different contexts including landscape environment gender society and as a tool for resistance By exploring the idea of the good farmer it reveals the often unforeseen assumptions implicit in food and agricultural policy that draw on culture identity and presumed notions of what is good The book concludes by considering the potential of the good farmer concept for addressing future emerging issues in agriculture This book will be of interest to students and scholars of food and agriculture and rural development as well as professionals and policymakers involved in the food and agricultural industry **A United**

Kingdom? John Mohan, 2014-04-23 The human geography of the UK is currently being reshaped by a number of forces such as globalisation transition in the organisations of production the changing character of state intervention and changing relationships with Europe A consideration of the impacts of these forces on economic social and political landscapes is therefore an urgent task At the same time enduring institutional features of the British economy and polity are also having important influences on socio economic processes The result is a complex mosaic of uneven development which belies the notion of simplistic regional contrasts Rather than simply mapping spatial inequality *A United Kingdom* charts the processes

underpinning uneven development at a range of scales and for a number of key topics The book draws upon and synthesises the latest contemporary research findings and places emphasis on the interrelated nature of economic social and political geographies It treats the human geographies of the UK in a coherent and integrated way and asks whether contemporary processes of change are tending towards the reduction of socio spatial divisions or their reproduction in new forms

Military Geographies Rachel Woodward,2011-07-15 Military Geographies is about how local space place environment and landscape are shaped by military presence and about how wider geographies are touched by militarism A book about how local space place environment and landscape are shaped by military presence and about how wider geographies are touched by militarism Sets a new agenda for the study of military geography with its critical analysis of the ways in which military control over space is legitimized Explores the ways in which militarism and military activities control development the use of space and our understanding of place Focuses on military lands establishments and personnel in contemporary peacetime settings Uses examples from Europe North America and Australasia Draws on original research into the mechanisms by which the British government manages the defence estate Illustrated with maps plans and other figures

Environmental Risks and the Media Barbara Adam,Stuart Allan,Cynthia Carter,2013-01-11 Environmental Risks and the Media explores the ways in which environmental risks threats and hazards are represented transformed and contested by the media At a time when popular conceptions of the environment as a stable natural world with which humanity interferes are being increasingly contested the medias methods of encouraging audiences to think about environmental risks from the BSE or mad cow crisis to global climate change are becoming more and more controversial Examining large scale disasters as well as everyday hazards the contributors consider the tensions between entertainment and information in media coverage of the environment How do the media frame expert counter expert and lay public definitions of environmental risk What role do environmental pressure groups like Greenpeace or eco warriors and green guerrillas play in shaping what gets covered and how Does the media emphasis on spectacular events at the expense of issue sensitive reporting exacerbate the public tendency to overestimate sudden and violent risks and underestimate chronic long term ones A Region in Transition John

Tomaney,Neil Ward,2017-07-05 The UK has now joined a Europe wide trend towards more devolved forms of government e g Scotland Wales and Northern Ireland Assemblies In the context of this general trend towards regionalism as a focus for public policy and as a source of cultural and political identity an interdisciplinary team from Newcastle University combine to analyze how this affects the North East of England There has been comparatively little published on the contemporary development of English Regions and the North East is a particularly important case study as throughout the 1990s it has experienced a range of social economic and political changes This book will contribute to key contemporary policy debates which will affect all of the English regions and should be read by all social scientists interested in European regional development **The Nature of Cultural Heritage, and the Culture of Natural Heritage** David Lowenthal,Kenneth

Olwig,2013-10-18 The idea that the heritage of nature is fundamentally cultural is provocative to many but it is becoming increasingly accepted in the context of heritage preservation It is argued here that a person s perspective on natural vs cultural heritage as a contested patrimony is to some extent governed by one s intellectual and geographical position In discourses influenced by the natural sciences culture is a heritage of nature whereas in those deriving from the humanities and social sciences nature is defined socio culturally There is also however a geographical dimension to how one looks at the nature culture relation From at least the time of Aristotle the North has been identified with a cultural heritage thought to derive from the northern natural environment It was no longer culture as represented by the architectural monuments of the South but the natural landscape that provided the measure for both natural and cultural heritage as the natural landscape and its ecosystems were put in focus This essay provides a contemporary picture of the long standing contestation between natural and cultural heritage that provided the basis for the northern perspective taken in these essays This book was previously published as a special issue of The International Journal of Heritage Studies

Biosecurity

Andrew Dobson,Kezia Barker,Sarah L. Taylor,2013-08-15 Biosecurity is the assessment and management of potentially dangerous infectious diseases quarantined pests invasive alien species living modified organisms and biological weapons It is a holistic concept of direct relevance to the sustainability of agriculture food safety and the protection of human populations including bio terrorism the environment and biodiversity Biosecurity is a relatively new concept that has become increasingly prevalent in academic policy and media circles and needs a more comprehensive and inter disciplinary approach to take into account mobility globalisation and climate change In this introductory volume biosecurity is presented as a governance approach to a set of concerns that span the protection of indigenous biological organisms agricultural systems and human health from invasive pests and diseases It describes the ways in which biosecurity is understood and theorized in different subject disciplines including anthropology political theory ecology geography and environmental management It examines the different scientific and knowledge practices connected to biosecurity governance including legal regimes ecology risk management and alternative knowledges The geopolitics of biosecurity is considered in terms of health biopolitics and trade governance at the global scale Finally biosecurity as an approach to actively secure the future is assessed in the context of future risk and uncertainties such as globalization and climate change

Food and Animal Welfare

Henry Buller,Emma Roe,2018-05-03 Drawing together the latest research and a range of case studies Henry Buller and Emma Roe guide readers on a fascinating journey through animal welfare issues from farm to fork Animal welfare offers a vital lens through which to explore the economies culture and politics of food This is the first text to provide a much needed overview of this strongly debated area of the food industry Buller and Roe explore how animal welfare is defined advocated assessed and implemented by farmers veterinarians distributors and consumers From the practicalities and limitations of establishing a basic standard of care for livestock to the ethics of selling welfare as a product in the supermarket this indispensable book offers empirical

insights into a key aspect of the global food system the lives deaths and consumption of animals which are at the core of the food chain It is a must read for students and scholars of animal welfare agro food studies and human animal relations in disciplines such as geography politics anthropology and sociology as well as animal behaviour psychology and veterinary science *Insecure Times* Michael Hill,John Vail,Jane Wheelock,2005-08-03 At a time when families break up and employment is often short term society is increasingly forced to operate against a background of insecurity *Insecure Times* looks at how this sense of risk and instability has affected the major institutions of social life With examples and research taken from a range of European and North American societies today this innovative text on contemporary society discusses such major issues as the causes of social and economic insecurity insecurity and modern capitalism the role of the state insecurity and housing contemporary family life
