**Cookbook** Jessica ANDERSON,2020-09-14 Here s how to cook homemade bread snacks buns and loaves with your Bread machine Would you like to cook more than 150 recipes quickly and easily with any type of bread machine keep reading A bread machine or sometimes known as a bread maker is a useful kitchen appliance that will help you a lot to serve warm fresh and delicious homemade bread from your lovely kitchen It is more like a small electric oven with a bread tin inside The bread machine has a kneading paddle that is installed on a waterproof axle and connected to the electric motor at the bottom

of the bread tin This paddle is the one which has the responsibility to knead the fresh ingredients you load to the bread tin and change into a smooth and elastic dough As you probably have known that making bread requires several steps including ingredients measuring dough kneading bread dough proofing bread dough shaping and bread baking Some recipes may also add more steps like glazing the bread and giving bread topping Because there are so many steps in making bread it is no secret that making bread takes a long period of time for the baker without being able to do anything else Not to mention the instincts needed to determine whether the dough is good enough or not yet For some people with lots of time and talent this process may be interesting However for other busy people this process can be tiring and stressful Fortunately a bread machine comes as a smart solution Not only kneading but the bread machine also has functions to do the entire process of making bread With a bread machine people have to load the ingredients into the bread tin and let the bread machine shows its magical function The kneading paddle in the bread tin will spin and knead the ingredients resulting good dough then the bread machine will let the dough rise and after that bake the bread The total time needed for this making bread process may take around 3 or 4 hours However the time you have to invest is only not more than 5 minutes Put the ingredients touch the buttons leave the bread machine and come back in a few hours to smell and get tasty bread It sounds wonderful doesn't it This book covers the following topics Overview of a bread machine Everyday loaves recipes Vegetables loaves recipes Herbs and seeded loaves Cheese loaves recipes Sweet loaves recipes Dessert and cookies 30 day meal plan And much more Every different brand of bread machine may offer different menu setting However a bread machine has these several cycle setting depends on what kinds of bread you are going to make Always remember to check the instructions on your bread machine It varies across different models and types So before you start baking make sure you know how to program your bread machine for the best quality bread Your bread machine should come with a timing chart for the different types of bread The idea of choosing a bread machine can be overwhelming but most machines have a similar assortment of programmed cycles with precise times and temperatures so different breads turn out perfectly or close to perfect Do you want to learn more Scroll up and CLICK THE BUY NOW Button
