*The Comics of Alison Bechdel* Janine Utell, 2019-12-30 Contributions by Michelle Ann Abate Leah Anderst Alissa S Bourbonnais Tyler Bradway Natalja Chestopalova Margaret Galvan Judith Kegan Gardiner Katie Hogan Jonathan M Hollister Yetta Howard Katherine Kelp Stebbins Don L Latham Vanessa Lauber Katherine Parker Hay Anne N Thalheimer Janine Utell and Susan R Van Dyne Alison Bechdel is both a driver and beneficiary of the welcoming of comics into the mainstream Indeed the seemingly simple binary of outside inside seems perpetually troubled throughout the career of this important comics artist known for *Fun Home* *Are You My Mother* and *Dykes to Watch Out For* This volume extends the body of scholarship on her work from a range of interdisciplinary perspectives In a definitive collection of original essays scholars cover the span of

Bechdel's career placing her groundbreaking early work within the context of her more well known recent projects. The contributors provide new insights on major themes in Bechdel's work such as gender performativity, masculinity, lesbian politics and representation, trauma, life writing and queer theory. Situating Bechdel among other comics artists, this book charts possible influences on her work, probes the experimental traits of her comics in their representations of kinship and trauma, combs archival materials to gain insight into Bechdel's creative process and analyzes her work in community building and space making through the comics form. Ultimately, the volume shows that Bechdel's work consists of performing a series of selves, serializing the self as it were, each constructed and refracted across and within her chosen artistic modes and genres.

**Lesbian Lives** Maggie Magee, Diana C. Miller, 2013-05-13. In this groundbreaking re-visioning of lesbianism, Magee and Miller transcend a literature that for decades has focused on the timeworn and misconceived task of formulating a lesbian-specific psychology. Rather, they focus on a set of interrelated issues of far greater salience in our time: the developmental and psychological consequences of identifying as homosexual and of having lesbian relationships. Their consideration of these issues leads to a rigorous review of major psychoanalytic and biological theories about female homosexuality and a probing examination of current notions of gender identity. These tasks set the stage for Magee and Miller's own model of psychologically mature sexuality between members of the same sex. The developmental and clinical issues taken up in specific chapters of *Lesbian Lives* include the challenges facing lesbian adolescents, the psychological and social significance of coming out, the various meanings and contexts of coming out as a gay or lesbian analyst, the interaction of individual psyche and social context in clinical work with lesbian patients, and the history of homosexual therapists and psychoanalytic training. The chapter on Bryher, the lesbian-identified life partner of the poet Hilda Doolittle (Freud's patient H.D.), relying on unpublished documents, is not only a wonderful exemplification of themes developed throughout the work but an invaluable contribution to psychoanalytic history. *Lesbian Lives* is a heartening sign of the generous scholarship and humane impulse that are transforming psychoanalysis in our time. In writing infused with an experiential immediacy born of personal participation in the stories they tell, Magee and Miller weave a multiplicity of narratives into a fabric of explanation far richer, far more colorful, far truer to lived experience than anything psychoanalysis has heretofore offered on the subject.
