EBOOK: Teaching for Learning Mathematics Ros Sutherland, 2006-12-16 Why do students find learning mathematics difficult Can anything be done about this What can we learn from mathematics lessons in which students are motivated to struggle with difficult mathematical ideas How can teachers make sense of the research which is available and use it to improve practice in real classrooms This book explores the factors that influence young people's learning of mathematics It uses a holistic socio culturally informed approach to show how all young people can be encouraged to engage with and learn mathematics Rich examples from classroom practice are used to connect theory and practice The role of mathematical tools including information and communications technologies is discussed A key focus of the book is the link between teaching and learning including different ways in which teachers can design and orchestrate mathematical learning environments This important accessible and relevant book is essential reading for student teachers of mathematics as well as all qualified mathematics teachers in secondary schools

Inside Multi-media Case Based Instruction Roger C. Schank, 1998 The fourth in the Inside series this volume includes four theses completed under the editor's direction at the Institute for the Learning Sciences at Northwestern University This series bridges the gap between Schank's books

introducing for a popular audience the theories behind his work in artificial intelligence AI and the many articles and books written by Schank and other AI researchers for their colleagues and students The series will be of interest to graduate students in AI and professionals in other academic fields who seek the retraining necessary to join the AI effort or to understand it at the professional level This volume elaborates the Case Based Teaching Architecture A central tenet of this architecture is the importance of acquiring cases and being able to retrieve and use those cases to solve new problems The theses address the problems of building case bases indexing large amounts of data contained within those case bases and retrieving information on a need to know basis They also reflect the work of researchers at the Institute to design tools that enable software programs to be built more effectively and efficiently
