Menace in Europe Claire Berlinski,2007-12-18 Old Europe s new crisis Europe the charming continent of windmills and gondolas But lately Europe has become the continent of endless strikes and demonstrations bombs on the trains and subways radical Islamic cells in every city and ghettos so hopeless and violent even the police won t enter them In Spain a terrorist attack prompts instant capitulation to the terrorists demands In France the suburbs go up in flames every night In Holland politicians and artists are murdered for speaking frankly about Islamic immigration This isn t the Europe we thought we knew What s going on over there Traveling overland from London to Istanbul journalist Claire Berlinski shows why the Continent has lately appeared so bewildering and often so thoroughly obnoxious to Americans Speaking to Muslim immigrants German rock stars French cops and Italian women who have better things to do than have children she finds that Europe is still despite everything in the grip of the same old ancient demons Anyone who knows the history can sense it There is something ugly and familiar in the air But something new is happening as well Indeed Europe now confronts and seems unable to cope with an entirely new set of troubles Tracing the ancient conflicts and newly erupting crises Menace in Europe reveals Why Islamic radicalism and terrorist indoctrination flourish as Europe fails to assimilate millions of Muslim

immigrants How plummeting birthrates hurtle Europe toward economic and cultural catastrophe Why hatred of America has become ubiquitous on Europe's streets in its books newspapers and music and at the highest levels of government How long repressed destructive instincts are suddenly reemerging How the death of religious faith has created a hopeless morally unmoored Europe that clings to anti Americanism anti-Semitism and other dangerous ideologies Why the notion of a united Europe is a fantasy and what that means for the United States In the end these are not separate issues Berlinski provocatively demonstrates that Europe's political and cultural crisis mirrors its profound moral and spiritual crisis But this is not just Europe's problem Menace in Europe makes clear that the spiritual void at the heart of Europe is ultimately our problem too And America will pay a terrible price if we continue to ignore it *The Cumulative Book Index* ,1990 A world list of books in the English language *Beginning 3D Game Development with Unity* Sue Blackman,2011-08-18 Beginning 3D Game Development with Unity is perfect for those who would like to come to grips with programming Unity You may be an artist who has learned 3D tools such as 3ds Max Maya or Cinema 4D or you may come from 2D tools such as Photoshop and Illustrator On the other hand you may just want to familiarize yourself with programming games and the latest ideas in game production This book introduces key game production concepts in an artist friendly way and rapidly teaches the basic scripting skills you'll need with Unity It goes on to show how you as an independent game artist can create casual interactive adventure games in the style of Telltale's Tales of Monkey Island while also giving you a firm foundation in game logic and design The first part of the book explains the logic involved in game interaction and soon has you creating game assets through simple examples that you can build upon and gradually expand In the second part you'll build the foundations of a point and click style first person adventure game including reusable state management scripts load save functionality a robust inventory system and a bonus feature a dynamically configured maze and mini map With the help of the provided 2D and 3D content you'll learn to evaluate and deal with challenges in bite sized pieces as the project progresses gaining valuable problem solving skills in interactive design By the end of the book you will be able to actively use the Unity 3D game engine having learned the necessary workflows to utilize your own assets You will also have an assortment of reusable scripts and art assets with which to build future games *Graphic Opinions* Jack Collidewei, Kalman Goldstein,1998 Through profiles and essays *Graphic Opinions* examines current work and opinions of two dozen prominent cartoonists *Cartoon Kings* Alan Silberberg,2013-07-04 Best friends Matt and Craz couldn't be more different Matt loves order while Craz is always scattered and loves to live on the edge Matt is learning to live with his parents divorce and deal a distant older brother while Craz lives in a house full of siblings and two loving yet harried parents One thing the boys do have in common is their love for cartooning But thanks to the school paper gatekeeper Skip Turkle they seem destined to never see their cartoons make the school paper All that changes one night when the boys click on a link to buy a pen that promises to help them DRAW BETTER NOW And when the pen arrives Matt and Craz quickly realise that this is no ordinary pen whatever
