Nuremberg Diary:

Nuremberg Diary G. M. Gilbert, 2006 The diary by G M Gilbert Ph D formerly prison psychologist at the Nuremberg Trial of the Nazi War criminals **Nuremberg Diary** Gustav M. Gilbert, 1995 *The Nazi and the Psychiatrist* Jack El-Hai, 2013-09-10 NOW THE MAJOR MOTION PICTURE NUREMBERG In 1945 an improbable relationship between the fallen Reichsmarschall Hermann Goering and ambitious US Army physician Douglas Kelley becomes a hazardous quest into the nature of evil amid the devastation of Europe at the end of World War II In 1945 after his capture at the end of the Second World War Hermann G ring arrived at an American run detention center in war torn Luxembourg accompanied by sixteen suitcases and a red hatbox Joining him in the detention center were fifty one senior Nazis of whom G ring was the dominant figure To ensure that the captives were fit for trial at Nuremberg the US army sent an ambitious army psychiatrist Captain Douglas M Kelley to supervise and evaluate them To Kelley it was the professional opportunity of a lifetime to discover a distinguishing trait among these arch criminals that would mark them as psychologically different from the rest of humanity But Kelley s quest would prove to be a dangerous one The more he spoke with the Nazi captives the more he began to understand and appreciate their perspective and the more he would fall for their charms The Inkblots Damion Searls, 2017 An NPR Best Book of the Year A New York Post Best Book of the Year A Times Thought Book of the Year An Irish Independent Best Book of the Year The captivating untold story of Hermann Rorschach and his famous inkblot test In 1917 working alone in a remote Swiss asylum psychiatrist Hermann Rorschach devised an experiment to probe the human mind a set of ten carefully designed inkblots For years he had grappled with the theories of Freud and Jung while also absorbing the aesthetic movements of the day from Futurism to Dadaism A visual artist himself Rorschach had come to believe that who we are is less a matter of what we say as Freud thought than what we see After Rorschach s early death his test quickly made its way to America where it took on a life of its own Co opted by the military after Pearl Harbor it was a fixture at the Nuremberg trials and in the jungles of Vietnam It became an advertising staple a clich in Hollywood and journalism and an inspiration to everyone from Andy Warhol to Jay Z The test was also given to millions of defendants job applicants parents in custody battles and people suffering from mental illness or simply trying to understand themselves better And it is still used today In this first ever biography of Rorschach Damion Searls draws on unpublished letters and diaries and a cache of previously unknown interviews with Rorschach s family friends and colleagues to tell the unlikely story of the test s creation its controversial reinvention and its remarkable endurance and what it all reveals about the power of perception Elegant and original The Inkblots shines a light on the twentieth century s most visionary synthesis of art and science The Internationalists Oona Anne Hathaway, Scott J. Shapiro, 2017-09-12 A bold and provocative history of how an overlooked 1923 treaty was among the most transformative events in modern history On a hot summer afternoon in 1928 the leaders of the world assembled in Paris to outlaw war Within the year the treaty signed that day known as the Peace Pact had been ratified

by nearly every state in the world War for the first time in history had become illegal the world over But the promise of that summer day was fleeting Within a decade of the signing of the Pact each state that had gathered in Paris to renounce war was at war And in the century that followed the Peace Pact was dismissed as an act of folly and an unmistakable failure This book argues that that understanding is inaccurate and that the Peace Pact ushered in a sustained march toward peace that lasts to this day This book tells the story of the Peace Pact by placing it in the long history of international law from the seventeenth century through the present It details the brutal world of conflict the Peace Pact helped extinguish and the subsequent era where tariffs took the place of tanks Accessible and gripping this book will change the way we view the history of the twentieth century and show how we must work together to protect the global order the internationalists fought to make possible Jacket

Law and War Peter H. Maguire, 2010 This is a revised edition of Law and war an American story published in 2000 T p verso

Nazis after Hitler Donald M McKale, 2023-06-14 The stories of thirty war criminals who escaped accountability from a historian praised for his well written scrupulously researched work The New York Times This deeply researched book traces the biographies of thirty typical perpetrators of the Holocaust some well known some obscure who survived World War II Donald M McKale reveals the shocking reality that the perpetrators were rarely if ever tried or punished for their crimes and nearly all alleged their innocence in Germany's extermination of nearly six million European Jews He highlights the bitter contrasts between the comfortable postwar lives of many war criminals and the enduring suffering of their victims and how in the face of exhaustive evidence showing their culpability nearly all claimed ignorance of what was going on and insisted they had done nothing wrong McKale ends the book with a haunting question whether life would be different today if the Allies had pursued Holocaust criminals more aggressively after WWII History buffs and students of the Holocaust will be fascinated Publishers Weekly Gripping and important reading Eric A Johnson author of What We Knew

Anatomy of Malice Joel E. Dimsdale, 2016-05-28 An eminent psychiatrist delves into the minds of Nazi leadership in a fresh look at the nature of wickedness and at our attempts to explain it Sir Simon Wessely Royal College of Psychiatrists When the ashes had settled after World War II and the Allies convened an international war crimes trial in Nuremberg a psychiatrist Douglas Kelley and a psychologist Gustave Gilbert tried to fathom the psychology of the Nazi leaders using extensive psychiatric interviews IQ tests and Rorschach inkblot tests The findings were so disconcerting that portions of the data were hidden away for decades and the research became a topic for vituperative disputes Gilbert thought that the war criminals' malice stemmed from depraved psychopathology Kelley viewed them as morally flawed ordinary men who were creatures of their environment Who was right Drawing on his decades of experience as a psychiatrist and the dramatic advances within psychiatry psychology and neuroscience since Nuremberg Joel E Dimsdale looks anew at the findings and examines in detail four of the war criminals Robert Ley Hermann Goering Julius Streicher and Rudolf Hess Using increasingly precise diagnostic tools he discovers a remarkably broad spectrum of pathology Anatomy of Malice takes us on a

complex and troubling quest to make sense of the most extreme evil In this fascinating and compelling journey a respected scientist who has long studied the Holocaust asks probing questions about the nature of malice I could not put this book down Thomas N Wise MD Johns Hopkins University School of Medicine This harrowing tale and detective story asks whether the Nazi War Criminals were fundamentally like other people or fundamentally different T M Luhrmann author of *How God Becomes Real* Children of Nazis Tania Crasnianski,2018-02-06 The Fascinating Story of Eight Children of Third Reich Leaders and their Journey from Descendants of Heroes to Descendants of Criminals In 1940 the German sons and daughters of great Nazi dignitaries Himmler G ring Hess Frank Bormann H ss Speer and Mengele were children of privilege at four five or ten years old surrounded by affectionate all powerful parents Although innocent and unaware of what was happening at the time they eventually discovered the extent of their father s occupations These men their fathers who were capable of loving their children and receiving love in return were leaders of the Third Reich and would later be convicted as monstrous war criminals For these children the German defeat was an earth shattering source of family rupture the end of opulence and the jarring discovery of Hitler s atrocities How did the offspring of these leaders deal with the aftermath of the war and the skeletons that would haunt them forever Some chose to disown their past Others did not Some condemned their fathers others worshiped them unconditionally to the end In this enlightening book which has been translated into eleven languages Tania Crasnianski examines the responsibility of eight descendants of Nazi notables caught somewhere between stigmatization worship and amnesia By tracing the unique experiences of these children she probes at the relationship between them and their fathers and examines the idea of how responsibility for the fault is continually borne by the descendants *Visualizing Atrocity* Valerie Hartouni,2012-08-20 Taking Hannah Arendt s account of the 1961 trial of Nazi official Adolf Eichmann as its point of departure this book reassesses the myths that shape our understanding of the Nazi genocide as well as totalitarianism s broader features These myths are tied to the atrocity imagery that emerged with the liberation of the concentration camps and played an evidentiary role in the post war trials of perpetrators At the 1945 Nuremberg Tribunal particular practices of looking were first established and later institutionalized through Eichmann s trial in Jerusalem as part of the fabric of historical fact These ways of seeing have come to constitute a visual rhetoric that drives contemporary mythmaking about how we know genocide and what is permitted to count as such In contrast Arendt s claims about the banality of evil work to disrupt this visual rhetoric **The Nazi Mind** Laurence Rees,2025-01-23 THE SUNDAY TIMES BESTSELLER A brilliant piece of work learned compelling and frankly terrifying James Holland I will recommend to everyone Alastair Campbell You know when a book reaches parts that other books cannot reach extraordinary James O'Brien This disturbing book is timely relevant and important Sir Ian Kershaw A groundbreaking narrative history of the motivations and mentalities behind the Nazis and their supporters from the bestselling author of THE HOLOCAUST and President Zelenskyy s most read book HITLER AND STALIN How could the Nazis have committed the crimes they did Why did

commandants of concentration and death camps willingly often enthusiastically oversee mass murder How could ordinary Germans have tolerated the removal of the Jews In *THE NAZI MIND* bestselling author Laurence Rees combines history and the latest research in psychology to help answer some of the most perplexing questions surrounding the Second World War and the Holocaust Ultimately he delves into the darkness to explain how and why these people were capable of committing the worst crime in the history of the world Rees traces the rise and eventual fall of the Nazis through the lens of twelve warnings from talk about them and us to the escalation of racism whilst also highlighting signs to look out for in present day leaders Rees uses previously unpublished testimony from former Nazis and those who grew up in the Nazi system and in depth psychological insights including cutting edge work on obedience authority and the brain *THE NAZI MIND* is a revelatory new way of understanding how so many people committed the most appalling crime of the 20th century *The Emergence of Historical Forensic Expertise* Vladimir Petrović, 2016-10-26 This book scrutinizes the emergence of historians participating as expert witnesses in historical forensic contribution in some of the most important national and international legal ventures of the last century It aims to advance the debate from discussions on whether historians should testify or not toward nuanced understanding of the history of the practice and making the best out of its performance in the future

Crimes of the Holocaust Stephan Landsman, 2013-03-01 The problem of prosecuting individuals complicit in the Nazi regime's Final Solution is almost insurmountably complex and has produced ever less satisfying results as time has passed In *Crimes of the Holocaust* Stephan Landsman provides detailed analysis of the International Military Tribunal prosecution at Nuremberg in 1945 the Eichmann trial in Israel in 1961 the 1986 Demanjuk trial in Israel and the 1990 prosecution of Imre Finta in Canada Landsman presents each case and elaborates the difficulties inherent in achieving both a fair trial and a measure of justice in the aftermath of heinous crimes In the face of few historical and legal precedents for such war crime prosecutions each legal action relies on the framework of its predecessors However this only compounds the problematic issues arising from the Nuremberg proceedings Meticulously combing volumes of testimony and documentary information about each case Landsman offers judicious and critical assessments of the proceedings He levels pointed criticism at numerous elements of this relatively recent judicial invention sparing neither judges nor counsel and remaining keenly aware of the human implications Deftly weaving legal analysis with cultural context Landsman offers the first rigorous examination of these problematic proceedings and proposes guideposts for contemporary tribunals *Crimes of the Holocaust* is an authoritative account of the Gordian knot of genocide prosecution in the world courts which will persist as a confounding issue as we are faced with a trial of Saddam Hussein This volume will be compelling reading for legal scholars as well as laypersons interested in these cases and the issues they address **Architect of Death at Auschwitz** John W. Primomo, 2020-07-16 Rudolf Hoss has been called the greatest mass murderer in history As the longest serving commandant of Auschwitz he supervised the killing of more than 1 1 million people Unlike many of his Nazi colleagues who denied either

knowing about or participating in the Holocaust Hoss remorselessly admitted both at the Nuremberg war crimes trial and in his memoirs that he sent hundreds of thousands of Jews to their deaths in the gas chambers frankly describing the killing process His innovations included the use of hydrogen cyanide derived from the pesticide Zyklon B in the camp's gas chambers Hoss lent his name to the 1944 operation that gassed 430 000 Hungarian Jews in 56 days exceeding the capacity of the Auschwitz's crematoria This biography follows Hoss throughout his life from his childhood through his Nazi command and eventual reckoning at Nuremberg Using historical records and Hoss autobiography it explores the life and mind of one of history's most notorious and sadistic individuals

The Quest for the Nazi Personality Eric A. Zillmer, Molly Harrower, Barry A. Ritzler, Robert P. Archer, 2013-10-31 Half a century after the collapse of the Nazi regime and the Third Reich scholars from a range of fields continue to examine the causes of Nazi Germany An increasing number of young Americans are attempting to understand the circumstances that led to the rise of the Nazi party and the subsequent Holocaust as well as the implication such events may have for today as the world faces a resurgence of neo Nazism ethnic warfare and genocide In the months following World War II extensive psychiatric and psychological testing was performed on over 200 Nazis in an effort to understand the key personalities of the Third Reich and of those individuals who just followed orders In addressing these issues the current volume examines the strange history of over 200 Rorschach Inkblot protocols that were administered to Nazi war criminals and answers such questions as Why the long delay in publishing protocols What caused such jealousies among the principals How should the protocols be interpreted Were the Nazis monsters or ordinary human beings This text delivers a definitive and comprehensive study of the psychological functioning of Nazi war criminals both the elite and the rank and file In order to apply a fresh perspective to understanding the causes that created such antisocial behavior these analyses lead to a discussion within the context of previous work done in social and clinical psychology Subjects discussed include the authoritarian personality altruism obedience to authority diffusion of responsibility and moral indifference The implications for current political events are also examined as Neo Nazism anti-Semitism and ethnic hate are once again on the rise While the book does contain some technical material relating to the psychological interpretations it is intended to be a scholarly presentation written in a narrative style No prior knowledge of psychological testing is necessary but it should be of great benefit for those interested in the Rorschach Inkblot test or with a special interest in psychological testing personality assessment and the history of psychology It is also intended for readers with a broad interest in Nazi Germany

How Hitler Evolved the Traditional Army Establishment Andrew Sangster, Pier-Paolo Battistelli, Pier Paolo Battistelli, 2024-08-30 An examination of Hitler's key military generals and their contributions and failures to the Germany military Under the surveillance of General von Seeckt the Germans re-established their military which Hitler utilised for his aggression of recovering Germany's military greatness This book explores some of the leading military figures The often ignored Field Marshal Keitel is explored to see if there were any substance in the Allied belief that this Chief of the OKW was

the driving force behind initial German success or was he merely Hitler's lackey and bureaucrat? He was derided by his contemporaries because of his unstinting Prussian obedience to Hitler. This sense of total compliance was also reflected by General Paulus who although obedient was reluctant to carry out Hitler's barbaric orders relating to Jews and prisoners but otherwise was obedient and trusting of Hitler even though he knew it would lead to military disaster. It took time in a Russian prison camp to turn him against the once adored German dictator where he eventually became anti-Nazi. In striking contrast to the failed Paulus, Field Marshal Manstein is examined. He was a skilled strategist and tactician and proved this in his victory in France. He lacked the social sophistication of many other leading military commanders but he was one of the very few who had the courage to challenge Hitler's military directions and decisions. He was eventually dismissed by Hitler and postwar wrote two books to regain his reputation despite the fact he was convicted of war crimes and whether he deserves a pedestal remains with the reader.

Smersh Dr. Vadim Birstein, 2013-11-01 SMERSH is the award-winning account of the top secret counterintelligence organisation that dealt with Stalin's enemies from within the shadowy recesses of Soviet government. As James Bond's nemesis in Ian Fleming's novels SMERSH and its operatives were depicted in exotic duels with 007 rather than fostering the bleak oppression and terror they actually spread in the name of their dictator. Stalin drew a veil of secrecy over SMERSH's operations in 1946 but that did not stop him using it to terrify Red Army dissenters in Leningrad and Moscow or to abduct and execute suspected spooks often without cause across mainland Europe. Formed to mop up Nazi spy rings at the end of the Second World War SMERSH gained its name from a combination of the Russian words for Death to Spies. Successive Communist governments suppressed traces of Stalin's political hit squad now Vadim Birstein lays bare the surgical brutality with which it exerted its influence as part of the paranoid regime both within the Soviet Union and in the wider world. SMERSH was the most mysterious and secret of organisations this definitive and magisterial history finally reveals truths that lay buried for nearly fifty years.

Evil and International Relations R. Jeffery, 2007-12-25 This book seeks to determine what is meant by evil when used to describe actors and events in international politics. Focusing on the history of evil in western secular and religious thought it reintroduces a classical understanding of evil as the means to which we seek to understand otherwise meaningless human suffering.

East West Street Philippe Sands, 2016-05-24 A profound important book a moving personal detective story and an uncovering of secret pasts set in Europe's center the city of bright colors Lviv Ukraine dividing east from west north from south in what had been the Austro-Hungarian Empire. A book that explores the development of the world-changing legal concepts of genocide and crimes against humanity that came about as a result of the unprecedented atrocities of Hitler's Third Reich. It is also a spellbinding family memoir as the author traces the mysterious story of his grandfather as he maneuvered through Europe in the face of Nazi atrocities. This is a monumental achievement told with love anger and precision. John le Carr acclaimed internationally bestselling author *East West Street* looks at the personal and intellectual evolution of the two men who simultaneously originated the ideas of genocide and

crimes against humanity both of whom not knowing the other studied at the same university with the same professors in the Paris of Ukraine a major cultural center of Europe a city variously called Lemberg Lw w Lvov or Lviv Phillipe Sands changes the way we look at the world at our understanding of history and how civilization has tried to cope with mass murder *The Nazis, the Vatican, and the Jews of Rome* Patrick J. Gallo, 2023-02-15 On October 16 1943 the Jews of Rome were targeted for arrest and deportation The Nazis the Vatican and the Jews of Rome examines why and more importantly how it could have been avoided featuring new evidence and insight into the Vatican s involvement At the time Rome was within reach of the Allies but the overwhelming force of the Wehrmacht Gestapo and SS in Rome precluded direct confrontation Moral condemnations would not have worked nor would direct confrontation by the Italians Jewish leadership or even the Vatican Gallo underscores the necessity of determining what courses of actions most likely would have spared Italian Jews from the gas chambers Examining the historical context and avoiding normative or counterfactual assertions this book draws upon archival sources ranging from diaries to intelligence intercepts in English Italian and German With antisemitism on the rise today and the last remaining witnesses passing away it is essential to understand what happened in 1943 The Nazis the Vatican and the Jews of Rome grapples with this particular awful episode within the larger horrifying story of the Holocaust Despite the inadequacy of memory we must continue to attempt to make sense of the inexplicable
