Nursing Staff in Hospitals and Nursing Homes Sloan F Wunderlich GS (Davis CK, editors), 1996 **When Chicken Soup Isn't Enough** Suzanne Gordon, 2011-04-15 The reassuring bromides of chicken soup for the soul provide little solace for nurses and the people they serve in real life hospitals nursing homes schools of nursing and other settings In the minefield of modern health care there are myriad obstacles to quality patient

care including work overload inadequate funds for nursing education and research and poor communication between and within the professions to name only a few The seventy RNs whose stories are collected here by the award winning journalist Suzanne Gordon know that effective advocacy isn't easy It takes nurses willing to stand up for themselves their coworkers their patients and the public When Chicken Soup Isn't Enough brings together compelling personal narratives from a wide range of nurses from across the globe The assembled profiles in professional courage provide new insight into the daily challenges that RNs face in North America and abroad and how they overcome them with skill ingenuity persistence and individual and collective advocacy at work and in the community In this collection we meet RNs working at the bedside providing home care managing hospital departments teaching and doing research lobbying for quality patient care and campaigning for health care reform Their stories are funny sad deeply moving inspiring and always revealing of the different ways that nurses make their voices heard in the service of their profession The risks and rewards joys and sorrows of nursing have rarely been captured in such vivid first person accounts Gordon and the authors of the essays contained in this book have much to say about the strengths and shortcomings of health care today and the role that nurses play as irreplaceable agents of change
