**Pathology of Lying, Accusation, and Swindling** William Healy, 2012-11-01 Very little advancement in the treatment of delinquents or criminals can be expected if typical characteristics and their bearings on behavior are not understood The whole study of characterology or the motivation of conduct is extremely new particularly in their forensic and psychological significance It is these characteristics that are addressed here In some cases it is vital for the administration of justice for us to understand the types of personality and behaviors before rendering a final judgment Some appreciation of this fact may be gained from this book which shows the possibility of tracing one form of behavior to its source *Pathological Lying, Accusation, and Swindling* William Healy, Mary Tenney Healy, 1915 *Pathological Lying, Accusation, and Swindling* William Healy, 1926 *Pathology of Lying, Accusation and Swindling* William Healy, 2007-02 Not a mystery novel as such but a great character study *Pathological lying, accusation, and swindling* William Healy, 1915 **Pathology of Lying, Accusation, and Swindling** William Healy, 2022-02-24 **Pathological Lying, Accusation, and Swindling** William Healy, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1915 edition Excerpt CHAPTER in CASES OF PATHOLOGICAL LYING AND SWINDLING In the group of twelve cases making up this chapter we have limited ourselves to a simple type in order to demonstrate most clearly the classical characteristics of pathological liars How pathological lying verges into swindling may be readily seen in several of the following cases e g Cases 3 8 10 12 although only two Cases 3 and 12 have had time as yet to show marked development of the swindling tendency For the purpose of aiding in the demonstration of the evolution of lying into swindling and also to bring out the fact that facility in language may be the determining influence towards pathological lying and swindling we have included Case 12 which otherwise possibly might be considered under our head of border line mental types In any attempt to distinguish between pathological accusers and liars cases overlapping into both groups are found so some of the material in this chapter may be fairly considered as belonging partially to the next chapter In discussing the possibility of betterment a fact which we as well as others have observed consideration of Cases 1 4 and 7 is suggested Case 1 Summary A girl of 16 applied for help telling an elaborate tale of family tragedy which proved to be totally untrue It was so well done that it deceived the most experienced Shrewd detective work cleared the mystery It was found that the girl was a chronic falsifier and had immediately preceding this episode become delinquent in other ways Given firm treatment in an institution and later by her family who knew well her peculiarities this girl in the course of four years apparently has lost her previous extreme tendency to falsification Hazel M at 16 years of age *Pathology of Lying, Accusation, and Swindling* Mary Tenney Healy, 1996 *Pathological Lying, Accusation, and Swindling; a Study in Forensic Psychology* William Healy, 2012-08-01 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where

han the lying but it is an expression of the same tendency The most striking form of this type of conduct is of course self accusation Mendacious self impeachment seems especially convincing of abnormality Such falsification not infrequently is episodic The inclusion of swindling in our discussion is due to the natural evolution of this type of conduct from pathological lying Swindling itself could hardly be called a pathological phenomenon since it is readily explicable by the fact that it is entered into for reasons of tangible gain but when it is the product of the traits shown by a pathological liar it just as the lying itself is a part of the pathological picture It is the most concrete expression of the individual s tendencies This has been agreed to by several writers for all have found it easy to trace the development of one form of behavior into the other As Wulffen says Die Gabe zu Schwindeln ist eine Lust am Fabulieren Over and over again we have observed the ph We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for

you it becomes an enriching experience      Pathological Lying, Accusation, and Swindling William Healy, M. D., Mary Tenney Healy, 2015-05-13 Originally published in 1915 The only method by which good understanding may be obtained of the types of personality and mentality involved in pathological lying accusation and swindling as well as of the genetics of these tendencies is by the detailed reading of typical case histories In this fact is found the reason for the presentation of this monograph Appreciation of the nature of the phenomena can only be obtained through acquaintance with an entire career Any of us may be confronted by fabrications so consistent as to leave at one or several interviews the impression of truth Our selection of literature to summarize needs no explanation We have simply taken all that we could find which specifically bears on the problem Lying in general especially as a form of delinquency has received attention at the hands of some authors notably Ferriani and Duprat The falsifications and fantasies of children and adolescents have been dealt with by Stanley Hall None of these goes into the important narrower field with which we are here concerned The foreign literature is vitally important in its opening up of the subject but from the standpoint of modern psychopathology it does not adequately cover the ground The inclusion of swindling in our discussion is due to the natural evolution of this type of conduct from pathological lying Swindling itself could hardly be called a pathological phenomenon since it is readily explicable by the fact that it is entered into for reasons of tangible gain but when it is the product of the traits shown by a pathological liar it just as the lying itself is a part of the pathological picture It is the most concrete expression of the individual s tendencies Notwithstanding the grave and sensational social issues which arise out of pathological lying accusation and swindling there is very little acquaintance with the characteristics of cases showing this type of behavior even by the people most likely to meet the problems presented Lawyers or other professional specialists have slight knowledge of the subject Perhaps this is due to the fact that the pathological lying does not follow the usual lines of abnormal human behavior unless it be among the insane where other symptoms proclaim the true nature of the case Another reason for the slight acquaintance with the subject is the fact that almost nothing has been written on it in English PREFACE I INTRODUCTION II PREVIOUS STUDIES III CASES OF PATHOLOGICAL LYING AND SWINDLING IV CASES OF PATHOLOGICAL ACCUSATION V CASES OF PATHOLOGICAL LYING IN BORDER LINE MENTAL TYPES VI CONCLUSIONS INDEX OF AUTHORS INDEX OF TOPICS
