The Paths of Inland Commerce: A Chronicle of Trail, Road, and Waterway Archer B. Hulbert, 2023-07-18 Before the advent of highways and air travel, the paths of inland commerce were the lifeblood of America's economy. In this comprehensive history, Archer Butler Hulbert takes us on a tour of the trail, road, and waterway systems that connected the nation from the earliest Native American trade routes to the great canals and railways of the modern era. Drawing on extensive research and illustrated with dozens of maps and photographs, *The Paths of Inland Commerce* is an essential guide to understanding the foundations of America's economic and social development. This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America and possibly other nations. Hulbert, 2025-04-28 In 1912, Theodore Roosevelt addressed the American Historical Association to call for American history to be written as compelling stories of literary quality. Editor Allen Johnson of Yale University responded by publishing the *Chronicles of America* series, 50 succinct volumes on regional and thematic American history. These books, intended for secondary schools and college students, are expository works of American history composed by competent historians in the 1920s, well before the special pleading and upending of social norms typical of histories after 1970. This series is focused on the mainstream of American political life and leadership from its initial volumes on Native Americans and European colonists to its final volumes on Woodrow Wilson, Canada, and the Hispanic Republics to our South. Volume 21 of the series, *The Paths of Inland Commerce*, concerns the trails, highways, and canals in the early republic. The

visionary investors in waterways and pathways to the great west facilitated the movement of commodities and settlers until the revolutionary invention of the steamboat came to dominate transportation and cause the rapid growth of the river towns down the Ohio to the Mississippi and New Orleans This dramatic history of pioneers and cargoes chronicles the dynamic changes between the colonial period and the age of the railroad The prolific Archer Hulbert authored a sixteen volume series on trails canals roads and rail in early America titled *The Historic Highways of America* between 1902 and 1905 This work has been formatted and reprinted for Tall Men Books It is not a facsimile reprint *The Paths of Inland Commerce* Archer Butler Hulbert,1921 ***The Paths of Inland Commerce; a Chronicle of Trail, Road, and Waterway*** Archer Butler Hulbert,2012-01 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy ***The Paths of Inland Commerce*** Archer Butler Hulbert,1927 *The Paths of Inland Commerce* Archer. The Paths of Inland Commerce Archer Butler Hulbert,2020-04-18 Inland America at the birth of the Republic was as great a mystery to the average dweller on the Atlantic seaboard as the elephant was to the blind men of Hindustan The reports of those who had penetrated this wilderness of those who had seen the barren ranges of the Alleghanies the fertile uplands of the Unakas the luxuriant blue grass regions the rich bottom lands of the Ohio and Mississippi the wide shores of the inland seas or the stretches of prairie increasing in width beyond the Wabash seemed strangely contradictory and no one had been able to patch these reports together and grasp the real proportions of the giant inland empire that had become a part of the United States It was a pathless desert it was a maze 2 of trails trodden out by deer buffalo and Indian Its great riverways were broad avenues for voyagers and explorers they were treacherous gorges filled with the plunder of a million floods It was a rich soil a land of plenty the natives were seldom more than a day removed from starvation Within its broad confines could dwell a great people but it was as inaccessible as the interior of China It had a great commercial future yet its gigantic distances and natural obstructions defied all known means of transportation

The Paths of Inland Commerce Archer B Hulbert,2020-03 In their wanderings man and beast alike sought the heights the passes that pierced the mountain chains and the headwaters of navigable rivers On the ridges the forest growth was lightest and there was little obstruction from fallen timber rain and frost caused least damage by erosion and the winds swept the trails clear of leaves in summer and of snow in winter Here lay the easiest paths for the heavy blundering buffalo and the roving elk and moose and deer Here high up in the sun where the outlook was unobstructed and signal fires could be seen from every direction on the longest watersheds curving around river and swamp ran the earliest travel routes of the aboriginal inhabitants and of their successors the red men of historic times For their encampments and towns these peoples seem to have preferred the more sheltered ground along the smaller streams but when they fared abroad to hunt to trade to wage war to seek new material for pipe and amulet they followed in the main the highest ways The Paths of Inland Commerce Archer B.
