Atisa's Stages of the Path to Awakening James B. Apple, 2025-06-10 This book contains a lost Stages of the Path Lamrim work composed by the originator of the genre Atisa, one of the greatest Indian Buddhist masters to ever set foot in Tibet. Nearly a millennium ago, the great Indian Buddhist master Atisa Dipamkarasrijana ca. 982-1054 wrote a guidebook for realizing all the stages to awakening at the repeated request of his closest Tibetan disciple. Atisa is famously the author of the Lamp for the Path to Awakening Bodhipathapradipa, a short work in verse, but this longer prose work has been virtually unknown even in Tibet until now. Atisa's Stages of the Path to Awakening Bodhipathakrama, translated here, synthesizes all aspects of Buddhist practice from the very beginning of the path, reflecting on the fortunate opportunity of human rebirth up through to attaining omniscient buddhahood by nondual meditation. The Indian master's faithful disciple Dromtonpa kept these teachings secret, and they were only transmitted to select disciples in a closely guarded transmission, but the lineage died out centuries ago after Dromtonpa's Kadam school was eclipsed by history. Now this significant work of Buddhist path literature has become available owing to recently recovered manuscripts of the Kadampas. This book offers a study and complete translation from the Tibetan of this monument of guidance on the Buddhist path, accompanied by the commentaries and ritual texts that were transmitted alongside Atisa's text. Apple's substantial introduction includes a structural comparison with Atisa's famous work, charts the transmission lineage for the present work before it died out, and explores various hypotheses for why their fates diverged. Recovered from the contingencies of history, this book brings to life one of the most holistic and integrated approaches to the highest realizations of the Indian Buddhist path ever transmitted in Tibet.

Lords of the Left-Hand Path Stephen E. Flowers, 2012-06-15 Examines the left hand path and reveals the masters of the tradition. Explores the practices and beliefs of many left hand path groups, including the Cult of Set, the Hell Fire Club, and heretical Sufi, Zoroastrian, Christian, and Muslim sects. Investigates many infamous occult personalities, including Helena Blavatsky, Aleister Crowley, the Marquis de Sade, and Anton LaVey. Explains the true difference between the right hand path and the left hand path: union with and dependence on God versus individual freedom and self-empowerment. From black magic and Satanism to Gnostic sects and Gurdjieff's Fourth Way, the left hand path has been linked to many practices, cults, and individuals across the ages. Stephen Flowers, Ph.D., examines the methods, teachings, and historical role of the left hand path from its origins in Indian tantric philosophy to its underlying influence in current world affairs and reveals which philosophers, magicians, and occult figures throughout history

can truly be called Lords of the Left Hand Path Flowers explains that while the right hand path seeks union with and thus dependence on God the left hand path seeks a higher law based on knowledge and power It is the way of self empowerment and true freedom Beginning with ancient Hindu and Buddhist sects and moving Westward he examines many alleged left hand path groups including the Cult of Set the Yezidi Devil Worshipers the Assassins the Neoplatonists the Hell Fire Club the Bolsheviks the occult Nazis and several heretical Sufi Zoroastrian Christian and Muslim sects Following a carefully crafted definition of a true adherent of the left hand path based on two main principles self deification and challenge to the conventions of good and evil the author analyzes many famous and infamous personalities including H P Blavatsky Faust the Marquis de Sade Austin Osman Spare Aleister Crowley Gerald Gardner Anton LaVey and Michael Aquino and reveals which occult masters were Lords of the Left Hand Path Flowers shows that the left hand path is not inherently evil but part of our heritage and our deep seated desire to be free independent and in control of our destinies **Diagrammatic**

Sarda, Benjamin Fagard, 2022-07-15 The idea of this book on Neglected Aspects of Motion Event Description comes from the observation that over the last 30 years much attention has been devoted to the manner path divide in relation to the distinction between Verb Framed and Satellite Framed languages This mainstream focus has left aside other aspects of motion event descriptions The chapters of this volume take an in depth look at three less studied aspects of motion expression The first part of the book focuses on directional deixis especially in relation to associated motion and visual motion The second part explores variations in Source Goal asymmetries The third part investigates different types of motion event constructions e g with various types of co events Many languages are taken into consideration throughout the 11 chapters which gives the volume a clear typological dimension This book is intended for students and academics interested in motion spatial semantics typological variation and cognitive linguistics **Ancient Road Networks and Settlement**
