eating mindful sex mindful parenting mindfulness in the office mindful sports mindfulness based stress relief and addiction recovery and hire mindful divorce lawyers Mindfulness is touted by members of Congress CEOs and Silicon Valley tech gurus and is even being taught in public schools hospitals and the military Focusing on such processes as the marketing medicalization and professionalization of meditation Jeff Wilson reveals how Buddhism shed its countercultural image and was assimilated into mainstream American culture The rise of mindfulness in America Wilson argues is a perfect example of how Buddhism enters new cultures and is domesticated in each case the new cultures take from Buddhism what they believe will relieve their specific distresses and concerns and in the process create new forms of Buddhism adapted to their needs Wilson also tackles the economics of the mindfulness movement examining commercial programs therapeutic services and products such as books films CDs and even smartphone applications Mindful America is the first in depth study of this phenomenon invaluable for understanding how mindfulness came to be applied to such a vast array of non religious concerns and how it can be reconciled with traditional Buddhism in America

Christianity Looks East Peter Feldmeier, 2006 This fascinating book takes a fresh look at interreligious dialogue with St John of the Cross and Bhadantacariya Buddhaghosa as representatives of Christian and Buddhist paths to liberation As the world is increasingly experienced as a global village dialogue with other religious traditions is widely regarded as possibly the greatest modern or post modern challenge and the distinctive journey of our time Dialogue not only informs our understanding of various expressions of holiness it also can inform one s own religious faith and practice This book investigates a form of dialogue that can be a model for future dialogues Without laying

assumptions on the nature of religious experience it allows these classic texts and their representative religions to speak for themselves What is often lacking in this history of dialogue is its lack of appreciation for distinctive religious paths and the experiences described therein
