Pathway Beyond Jerome Stanley,2011-06-24 Have you ever pondered the problem of being as we know it Our knowledge is extremely limited and what is unknown at one moment in history may become known in the next causing the body of knowledge to be constantly changing along the path of human development While we are all on a brief journey that begins at birth and ends in death this current state of being does not preclude the possibility of another state of being presently unknown The Pathway Beyond addresses the issues surrounding this question bringing together the scientific and the spiritual The study of philosophy and religion has been part of human activity for thousands of years Even so our society seems not to have reaped the full benefit of the positive values set forth by our philosophers and spiritual leaders Instead the growth of science in solving immediate practical problems has consumed our interest Now however scientists are developing an interest in topics that have traditionally been solely within the boundaries of philosophy and religion such as human consciousness The subject of ontology or the science of being seems to be expanding its influence within human thought Aimed at laypeople as well as academics The Pathway Beyond explores ideas from Eastern and Western spiritual leaders to illustrate the connections between science and religion *I Am Lazarus* James Davison,2021-10-28 We sometimes wonder

what God s plan is for our short time on Earth In this story three people resurrected by the Son of God Lazarus of Bethany the daughter of Jarius and the son of the widow from Nain are stunned when the apostle Paul reveals that they are now immortal Together they travel across the centuries collecting and preserving the words of Jesus Christ But it soon becomes clear that they must also become warriors for Christ as they elude a persistent group of zealots who are determined to permanently return them to the grave **Age of Wolf and Wind** Davide Zori,2024-01-02 The Vikings continue to fascinate us because their compelling stories connect with universal human desires for exploration and adventure In Age of Wolf and Wind Voyages through the Viking World author Davide Zori argues that recent advances in excavation and archaeological science coupled with a re evaluation of oral traditions and written sources inspire the telling of new and engaging stories that further our understanding of the Viking Age Drawing upon his fieldwork experience across the Viking world he proposes that the best method for weaving together these narratives is a balanced interdisciplinary approach that integrates history archaeology and new scientific techniques The book delves into key questions of the Viking Age such as the motivations of Scandinavians to board open wooden ships to raid England or cross the North Atlantic in search of new worlds beyond

Europe Each chapter offers new conclusions about the Vikings their views on death their raiding tactics their lavish feasts their forging of powerful medieval states and many others In each case Zori brings together written sources archaeology and the natural sciences The dialogues he creates between these three separate data sets result in an entanglement of confirmation texts archaeology and science affirming the same story contradiction texts archaeology and science telling incompatible stories and complementarity texts archaeology and science contributing mutually enriching stories This optimistic yet critical treatment of the sources allows for a holistic picture of the Viking Age to emerge one that is accessible to a general audience but simultaneously offers new insights into current key issues of scholarly debate

Globalism in the Middle Ages and the Early Modern Age Albrecht Classen, 2023-09-05 Although it is fashionable among modernists to claim that globalism emerged only since ca 1800 the opposite can well be documented through careful comparative and transdisciplinary studies as this volume demonstrates offering a wide range of innovative perspectives on often neglected literary philosophical historical or medical documents Texts images ideas knowledge and objects migrated throughout the world already in the pre modern world even if the quantitative level compared to the modern world might have been different In fact by means of translations and trade for instance global connections were established and maintained over the centuries Archetypal motifs developed in many literatures indicate how much pre modern people actually shared But we also discover hard core facts of global economic exchange import of exotic medicine and on another level intensive intellectual debates on religious issues Literary evidence serves best to expose the extent to which contacts with people in foreign countries were imaginable often desirable and at times feared of course The pre modern world was much more on the move and reached out to distant lands out of curiosity economic interests and political and military concerns Diplomats crisscrossed the continents and artists poets and craftsmen traveled widely We can identify for instance both the Vikings and the Arabs as global players long before the rise of modern globalism so this volume promises to rewrite many of our traditional notions about pre modern worldviews economic conditions and the literary sharing on a global level as perhaps best expressed by the genre of the fable

The Evolution of Faith Thomas R. McFaul, Al Brunsting, 2021-07-21 A new understanding is developed in this book about the relationship between the Christian faith modern science and the world religions The authors call their new position Evolutionary Pluralism By combining the Christian faith with modern science and the global growth of religious diversity Evolutionary Pluralism provides Christians with an alternative to current interpretations such as Young Earth Creationism Old Earth Creationism Intelligent Design Creationism and Evolutionary Creationism This new understanding stands solidly within the history and traditions of the Christian faith and builds on the life and ministry of Jesus Christ
