

A vintage, sepia-toned photograph of a steam locomotive. Two men in dark uniforms and hats stand to the left of the locomotive, looking towards it. The locomotive is a large, dark-colored steam engine with a prominent smokestack and various mechanical details visible. The background is a plain, light-colored wall.

Republica de Colombia Pedro A. Pedraza,1909 **Opera Viva** Ezra Schabas,Carl Morey,2000-09-01 It started with a festival three classic operas performed in a theatre in Toronto But when it became apparent that there was a need for a national opera company an organization was founded that would go on to become one of the largest performing arts organizations in the country The Canadian Opera Company was born in 1950 and is now one of the major opera companies in North America The Company has toured extensively throughout Canada and the United States and has delighted audiences as far away as Australia and Hong Kong all the while finding the time to record frequently and develop special operatic presentations for children More than just a group of performers the COC also provides a training program for young professional singers and a series of commissions of new works from both up and coming and established composers Opera Viva is a history of the Company but it is more than that it is also a history of Canada s cultural growth in the second half of the twentieth century a time when the Canadian Opera Company became central to Canada s musical life As the story of the Company unfolds the figures and personalities that were integral to the building of this landmark of Canadian culture are brought to life **Opera in a Multicultural World** Mary Ingraham,Joseph So,Roy Moodley,2015-06-19 Through historical and contemporary examples this book critically explores the relevance and expressions of multicultural representation in western European operatic genres in the modern world It reveals their approaches to reflecting identity transmitting meaning and inspiring creation as well as the ambiguities and contradictions that occur across the time and place s of their performance This collection brings academic researchers in opera studies into conversation with previously unheard voices

of performers critics and creators to speak to issues of race ethnicity and culture in the genre Together they deliver a powerful critique of the perpetuation of the values and practices of dominant cultures in operatic representations of intercultural encounters Essays accordingly cross methodological boundaries in order to focus on a central issue in the emerging field of coloniality the hierarchies of social and political power that include the legacy of racialized practices In theorizing coloniality through intercultural exchange in opera authors explore a range of topics and case studies that involve immigrant indigenous exoticist and other cultural representations and consider a broad repertoire that includes lesser known Canadian operas Chinese and African American performances as well as works by Haydn Strauss Puccini and Wagner and in performances spanning three continents and over two centuries In these ways the collection contributes to the development of a more integrated understanding of the interdisciplinary fields inherent in opera including musicology sociology anthropology and others connected to Theatre Gender and Cultural Studies
