Patron-client State Relationships Christopher C. Shoemaker, John W. Spanier, 1984 **Theories and Approaches to International Politics** Patrick M. Morgan, 1987 **Patron-client State Relationships** Christopher C. Shoemaker, John W. Spanier, 1984 *Clientelism and Patronage in the Middle East and North Africa* Laura Ruiz de Elvira, Christoph Schwarz, Irene Weipert-Fenner, 2018-07-17 One common demand in the 2011 uprisings in the MENA region was the call for freedom dignity and social justice Citizens rallied against corruption and clientelism which for many protesters were deeply linked to political tyranny This book takes the phenomenon of the 2011 uprisings as a point of departure for reassessing clientelism and patronage across the entire MENA region Using case studies covering Morocco Tunisia Egypt Jordan Lebanon Turkey and the Gulf monarchies it looks at how the relationships within and between clientelist and patronage networks changed before 2011 The book assesses how these changes contributed to the destabilization of the established political and social order and how they affected less visible political processes It then turns to look at how the political transformations since 2011 have in turn reconfigured these networks in terms of strategies and dynamics and concomitantly what implications this has had for the inclusion or exclusion of new actors Are specific networks expanding or shrinking in the post 2011 contexts Do these networks reproduce established forms of patron client relations or do they translate into new modes and mechanisms As the first book to systematically discuss clientelism patronage and corruption against the background of the 2011 uprisings it will be a valuable resource for students and scholars of Middle Eastern Studies The book also addresses major debates in comparative politics and political sociology by offering networks of dependency as an interdisciplinary conceptual approach that can travel across place and time *Superpowers and Client States in the Middle East* Moshe Efrat, Jacob Bercovitch, 2020-04-23 This book first published in 1991 examines in detail superpower client relations in the Middle East The Middle East with its protracted and seemingly insoluble conflict and complex patterns of loyalty and hostility is the ideal setting for the study of such relationships Using the USSR and Syria and the USA and Israel as case studies this book illuminates the extent of superpower influence on client states but also the real constraints on their exercise of that influence In analysing specific contexts over this period the authors advance that tension between goals and constraints often favours the client state and that superpower relations are not those of dominance and subordination but bargaining relations in which clients have great leverage *The Turkish-American Relationship Between 1947 and 2003* Nasuh Uslu, 2003 Turkish American Relationship Between 1947 2003 The History of a Distinctive Alliance **Handbook on the Politics of Small States** Godfrey Baldacchino, Anders Wivel, 2020-03-28 Comprehensive and timely this Handbook identifies the key characteristics challenges and opportunities involved in the politics of small states across the globe today Acknowledging the historical legacies behind these states the chapters unpack the costs and benefits of different political models for small states **State**, 1985 *Conflict Management In The Middle East* Steven L Spiegel, 2019-03-07 This book

explores efforts being made to create Russian American cooperation in managing recurrent conflict in the Middle East Theoretical historical and policy sections provide the framework for chapters that represent the most current multinational thinking on issues of war prevention crisis avoidance and conflict resolution The contributo The Evolution of the South Korea-United States Alliance Uk Heo, Terence Roehrig, 2018-09-27 In contrast to previous studies of the South Korea United States alliance Uk Heo and Terence Roehrig analyze the bigger picture including the history economics security alliance structure politics and the future of the alliance Taking alliance theory as a starting point the authors argue that the alliance provides an ideal case study to examine how the political development and economic growth of junior partners impact an alliance As South Korea s capabilities and ambitions have grown the alliance has evolved from an asymmetric regional security relationship to an economic partnership with global interests while China s rise and North Korea s nuclear development mean that South Korea remains of strategic importance for American interests in East Asia This book will be read both as a major contribution to Korean studies and the study of alliance politics and theory *Role Compatibility as Socialization* Dorothée Vandamme, 2022-03-10 In *Role Compatibility as Socialization* Dorothée Vandamme examines Pakistan s socialization process in terms of role compatibility in the 2008-2018 period Adopting an Interpretative phenomenological analysis IPA method of analysis Vandamme builds on role theory to develop a theory of socialization as role compatibility to explain the dynamics of Pakistan s dysfunctioning position and its status seeking process as a fully functioning member of the international system Specifically she focuses on how Pakistani civilian and military leaders define their country s positioning towards India the United States and China In doing so she traces the link between domestic role contestation at the country s inception and the resulting domination of the military s conception of their country state identity how it projects itself externally and how it is received by others Departing from strictly structural or agent oriented explanations Vandamme expertly demonstrates Pakistan s perceived role compatibility with significant others and underlines the causality between state identity foreign policy behavior and socialization *Role Compatibility as Socialization* will be of interest to graduate students and researchers who work on and with role theory and socialization theory and for those with a research interest on South Asia *The International Criminal Court at the Mercy of Powerful States* Res Schuerch, 2017-07-15 This book aims to investigate whether and if so how an institution designed to bring to justice perpetrators of the most heinous crimes can be regarded a tool of oppression in a neo colonial sense To do so it re-invents the concept of neo colonialism which is traditionally associated more with economic or political implications from an international criminal law perspective combining historical political and legal analyses Allegations of neo colonialism in relation to the International Criminal Court ICC became widespread after the Court had issued an arrest warrant against the Sudanese President Omar Al Bashir in 2009 While the Court since its entry into function in 2002 has been confronted with criticism from various corners the neo colonialism controversy was sparked by African stakeholders Unlike other contributions in this domain thus this book

provides a Western perspective on an issue more often addressed from an African standpoint with the intention of distinguishing itself from the more political and emotive and sometimes superficial arguments that exist within critical legal approaches towards the ICC. The subject matter will primarily be of interest to scholars of international criminal law or those operating at the intersection of law and politics, history, nationals of African states and from other parts of the world professionally interested and or involved in international criminal law and justice and the ICC and governmental and non governmental organizations. Secondly the book will also appeal and speak to critical legal scholars and those interested in historical legal analysis. Res Schuerch is a Swiss lawyer specialized in the field of International Criminal Law and the ICC. He previously worked as a researcher at the University of Amsterdam and as an academic assistant at the University of Zurich.

International and Regional Security Benjamin Miller, 2016-11-10. This volume is a collection of the best essays of Professor Benjamin Miller on the subjects of international and regional security. The book analyses the interrelationships between international politics and regional and national security with a special focus on the sources of international conflict and collaboration and the causes of war and peace. More specifically it explains the sources of intended and unintended great power conflict and collaboration. The book also accounts for the sources of regional war and peace by developing the concept of the state to nation balance. Thus the volume is able to explain the variations in the outcomes of great power interventions and the differences in the level and type of war and peace in different eras and various parts of the world. For example the book's model can account for recent outcomes such as the effects of the 2003 American intervention in Iraq, the post 2011 Arab Spring and the conflicts between Russia and Ukraine. The book also provides a model for explaining the changes in American grand strategy with a special focus on accounting for the causes of the invasion of Iraq in 2003. Finally the book addresses the debate on the future of war and peace in the 21st century. This book will be essential reading for students of international security, regional security, Middle Eastern politics, foreign policy and IR. The Forgotten Front Walter C. Ladwig III, 2017-06-09. After a decade and a half of war in Iraq and Afghanistan, US policymakers are seeking to provide aid and advice to local governments, counterinsurgency campaigns rather than directly intervening with US forces. This strategy and US counterinsurgency doctrine in general fail to recognize that despite a shared aim of defeating an insurgency, the US and its local partner frequently have differing priorities with respect to the conduct of counterinsurgency operations. Without some degree of reform or policy change on the part of the insurgency-plagued government, American support will have a limited impact. Using three detailed case studies: the Hukbalahap Rebellion in the Philippines, Vietnam during the rule of Ngo Dinh Diem and the Salvadoran Civil War, Ladwig demonstrates that providing significant amounts of aid will not generate sufficient leverage to affect a client's behaviour and policies. Instead, he argues that influence flows from pressure and tight conditions on aid rather than from boundless generosity. Adventures in Chaos Douglas J. Macdonald, Robert James Nelson, 1992 Can or should the United States try to promote reform in client states in the Third World This question which reverberates through American foreign policy is at the heart of *Adventures in Chaos* A faltering friendly state in danger of falling to hostile forces presents the U S with three options withdraw bolster the existing government or try to reform it Douglas Macdonald defines the circumstances that call these policy options into play combining an analysis of domestic politics in the U S cognitive theories of decision making and theories of power relations drawn from sociology economics and political science He examines the conditions that promote the reformist option and then explores strategies for improving the success of reformist intervention in the future In order to identify problems in this policy and to propose solutions Macdonald focuses on three case studies of reformist intervention in Asia China 1946 1948 the Philippines 1950 1953 and Vietnam 1961 1963 Striking similarities in these cases suggest that such policy dilemmas are a function of the global role played by the U S especially during the Cold War Though this role is changing Macdonald foresees future applications for the lessons his study offers A challenge to the conventional wisdom on reformist intervention *Adventures in Chaos* through extensive archival research displays a theoretical and historical depth often lacking in treatments of the subject

Pivotal Deterrence Timothy W. Crawford, 2003 Crawford explains the political dynamics of pivotal deterrence and the conditions under which it is likely to succeed while examining some of its most impressive feats and failures German Chancellor Otto von Bismarck's agile approach to the 1870s Eastern Crisis which prevented war between Russia and Austria Hungary is contrasted with Britain's ambiguous and ill fated maneuvers to deter Germany and France in July 1914 Shifting to the 1960s Cold War Crawford explores the successes and setbacks in U S efforts to prevent NATO allies Greece and Turkey from fighting over Cyprus and to defuse the Kashmir conflict between India and Pakistan
