**Patrons, Clients and Friends** S. N. Eisenstadt, Luis Roniger, 1984-10-18 About interpersonal relations in society

*Patrons, Clients, and Empire* Colin Newbury, 2003-01-02 Patrons Clients and Empire challenges the stereotypes of despotic imperial power in Asian African and Pacific colonies by analysing the relationship between rulers and rulers on both sides of the imperial equation It seeks an answer to the question how were European officials able to govern so many societies for so long Rejecting the usual explanations of collaboration and indirect rule this study looks to pre imperial structures in the indigenous hierarchies which supplied patrimonial models of chieftaincy for territorial government For nawabs chiefs emirs sultans and their officials and followers there were dynastic and economic advantages in accepting the terms of European over rule as well as the threat of deposition For European officials few in numbers and with limited military and financial resources there were ready made systems of local government that could be co opted reformed or left relatively untouched Both sides played politics as patrons and clients within a dual system of administration based on a mixture of force and self interest Surveying a wide variety of cases and employing a patron client model this study embraces pre colonial colonial and post colonial politics in new states It covers the chronology of early European dependency on local rulers the reasons for reversal of status among chiefs and administrators the longer period of political bargaining over access to local resources in terms of land labour and taxes and the ultimate fate of indigenous rulers in the period of party politics leading to independence

Politics and Society in Imperial Rome Aloys Winterling, 2009-07-20 Politics and Society in Imperial Rome offers fresh new interpretations of the politics society and culture Rome s imperial era Argues that the early principate was fundamentally incompatible with the persisting structures of the Roman Republic Demonstrates how these contradictory systems affected the development of Roman society Includes case studies on the imperial court and the emperor Caligula as well as chapters on the scholarship of Theodor Mommsen and Christian Meier

**Pulling Strings** Brenda Danet, 2012-02-01 This is a book about the use of personal influence protektzia in Israel All over the world in both democratic and socialist societies there exists some degree of recognition of the rights of citizens to complain about unjust treatment in organizational encounters While the goals and actual functioning of complaint handling devices may vary bureaucratic role relations are ideally governed by the principles of universalism specificity and affective neutrality In fact patterns of actual behavior frequently differ dramatically from this model giving rise to practices from bribery and embezzlement to nepotism patronage and what is referred to in the United States as pulling strings In Israel protektzia is widespread This book is a major contribution to the systematic sociological study of this phenomenon Drawing on the literature on the functioning of public administration around the world Danet develops a theory about the conditions under which deviations from universalistic norms occur distinguishing four patterns of organizational culture The theory is then tested in a case study of bureaucratic encounters in Israel Danet s fascinating study brings new insights to the debate

regarding the cultural contradictions that continue to confront the still emerging Israeli society The conclusions and classifications of her theory prove invaluable as well to all those interested in organizational culture comparative public administration and dispute processing in general **Paul, Apostle to the Nations** Walter F. Taylor, 2012 Who was Paul what did he do what did he write Walter F Taylor sets out to bring together a wealth of contemporary perspectives in a clear and accessible synthesis bringing to bear on his subject the best of recent social scientific and cultural anthropological thinking on Paul An appendix presents a clear summary of issues related to Paul's thought on gender and sexuality

Political Conflict and Development in East Asia and Latin America Richard Boyd, Galjart Benno, Tak-Wing Ngo, 2007-01-24 Long run processes of socio economic change generate prodigious problems of social conflict and social control and governments responsible for these processes must therefore manage the resultant conflict Consequently the success or failure of a government's management of such conflicts is a crucial factor in development outcomes This volume investigates the political struggle for development specifically in two vital regions East Asia and Latin America This analysis calls into question the dominant emphasis on institutional and cultural bases for stable growth A careful historical account of the two regions is presented which permits the rigorous testing of conventional wisdoms regarding development Of importance to a broad range of academics in the spheres of development studies politics political economy and sociology this book will also make an interesting read for those with a general interest in these areas Filelfo in Milan Diana Robin, 2014-07-14 In this portrait of the flamboyant Milanese courtier Francesco Filelfo 1398 1481 Diana Robin reveals a fifteenth century humanism different from the cool elegant classicism of Medicean Florence and patrician Venice Although Filelfo served such heads of state as Pope Pius II Cosimo de Medici and Francesco Sforza his humanism was that of the other the marginalized exilic writer whose extraordinary mind yet obscure origins made him a misfit at court Through an exploration of Filelfo's disturbing montages in his letters and poems of such events as the Milanese revolution of 1447 and the plague that swept Lombardy in 1451 Robin exposes the extent to which Filelfo once viewed as an apologist for his patrons criticized their militarism sham republicanism and professions of Christian piety This study includes an examination of Filelfo's deeply layered references to Horace Livy Vergil and Petrarch as well as a comparison of Filelfo to other fifteenth century Lombard writers such as Cristoforo da Soldo Pier Candido Decembrio and Giovanni Simonetta Here Robin presents her own editions of selections from Filelfo's *Epistolae Familiares Sforziad Odae* and *De Morali Disciplina* many of these texts appearing for the first time since the Renaissance Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Handbook of Biblical Social

Values, Third Edition John J. Pilch, Bruce Malina, 2016-11-04 Values are culturally specific This handbook explains select biblical social values in their Mediterranean cultural contexts Some examples of values are altruism freedom family centeredness obedience parenting and power Though the English words for the values described here would be familiar to readers e g altruism the meanings of such words differ between cultures In the Mediterranean world for instance altruism is a duty incumbent upon anyone who has surplus It is interpersonal and group specific In the West especially in the United States altruism is impersonal and universally oriented generosity that operates in a highly organized context This handbook not only presents the Mediterranean meanings of these value words but also contrasts those meanings with Western ones

Poetry for Patrons Ruurd R. Nauta, 2017-09-18 A study of the phenomenon of literary patronage both non imperial and imperial during the reign of the Roman emperor Domitian 81 96 A D This work centres on the Epigrams of Martial and the *Silvae* of Statius The book deals not only with the relationships between poets and patrons but also with the audiences and the functions of patron oriented poetry It includes discussions of such topics as patronage versus friendship the poetic I the role of poetry at symposia and festivals dedication and publication the influence of rhetoric on poetry and the poetic representation of imperial power The book should prove of interest not only to specialists in Roman poetry but also to ancient historians and to students of literary patronage in other cultures All Latin and Greek is translated Shi'i Scholars of

Nineteenth-Century Iraq Meir Litvak, 2002-05-02 In the nineteenth century the shrine cities of Najaf and Karbala in Ottoman Iraq emerged as the most important Shi'i centres of learning In a major contribution to the study of pre modern Middle Eastern religious institutions Meir Litvak analyses the social and political dynamics of these communities Tracing the historical evolution of Shi'i leadership he explores the determinants of social status amongst the ulama the concept of patronage the structure of learning questions of ethnicity and financial matters He also assesses the role of the ulama as communal leaders who in the face of a hostile Sunni government in Baghdad were often obliged to adopt a more quietist political stance than their counterparts in Iran This is an important book which sheds light on the formation of contemporary Shi'ism and the surrounding debates *People's Republic of China, Volumes I and II* Frank N. Pieke, 2023-12-31 This title was first published in 2002 This two volume set collects in a conveniently accessible form the most influential articles by leading authorities in the study of China It provides an international reference work combined with an authoritative introduction by the editor

Slaves and Slave Agency in the Ottoman Empire Stephan Conermann, Gül Şen, 2020-05-11 *Slaves and Slave Agency in the Ottoman Empire* offers a new contribution to slavery studies relating to the Ottoman Empire Given the fact that the classical binary of slavery and freedom derives from the transatlantic experience this volume presents an alternative approach by examining the strong asymmetric relationships of dependency documented in the Ottoman Empire A closer look at the Ottoman social order discloses manifold and ambiguous conditions involving enslavement practices rather than a single universal pattern The authors examine various forms of enslavement and dependency with a

particular focus on agency i e the room for maneuver which the enslaved could secure for themselves or else the available options for action in situations of extreme individual or group dependencies      Migration and Identity in Central Asia Rano Turaeva,2015-11-19 This book is an ethnographic and sociolinguistic study of Uzbek migrants in the capital city of Uzbekistan The ethnographic details of the book represent post Soviet urban realities on the ground where various forms of belonging clash and kinship ties are reinforced within social safety networks Theoretically it challenges the existing theories of identity and identification which often considered the relations between We and Them taking the We for granted The book offers in depth insights into the communication strategies of migrants the formation of collective consciousness and the relations within the We domain Constructed around contradictions regarding Uzbek identity and how various groups relate to one another as different ethnic groups the theoretical argument of the book is built through such methods and analytical tools as strategic rhetoric and discourse analysis communication and identity theories and the analysis of power and dependence The book will be of interest to students and scholars of Central Asian Studies Migration Studies and Central Asian Culture and Society      **The Price of Partnership in the Letter of Paul to the Philippians** Mark A.

Jennings,2018-01-25 Mark A Jennings challenges the consensus that there is no clear single purpose that shapes the entire epistle to the Philippians instead arguing that there is significant evidence for Paul to have written the letter with the sole intent of persuading the church to maintain its exclusive partnership with him and his gospel mission Jennings examines each section of Philippians with standard historical critical methods rhetorical criticism and social scientific methods Establishing that Paul s argument is rooted in three fundamental tenets emphasis is first placed on koinonia and the agreement that Paul and the Philippians had entered into regarding his apostolic mission Second Jennings looks at the repeated proofs that Paul offers that simultaneously affirm the ordained superiority of his apostolic mission and repudiate the claims of his rivals Third Jennings analyses the issue of finances in the epistle discussing how Paul rhetorically transforms the Philippians financial support into a salient indicator that they esteem his gospel mission authentic Finally whereas other scholars have argued that Paul entreats the Philippians to be steadfast in their commitment to the gospel of Christ Jennings proposes that Paul urges the church to be steadfast in their commitment to his gospel of Christ Jennings then considers how this seemingly small distinction has profound ramifications for understanding the letter and shows the gap between these interpretations

**Transnational Perspectives on Latin America** Luis Roniger,2022 Latin America is a region made up of multiple states with a diversity of races ethnicities and cultures In Transnational Perspectives on Latin America Luis Roniger argues that a regional perspective is significant for understanding this part of the Western hemisphere He claims that geopolitical sociological and cultural trends molded a contiguity of influences shaping a transnational arena of connected histories cross border interactions and shared visions complementing the process of separate nation state formation      **The Global Encyclopaedia of Informality, Volume 3** Alena Ledeneva,2024-02-26 For a post human hitchhiker human life with its

anxiety ageing illness and constant need for problem solving may look unviable Yet for humans the life struggle is softened by human touch human emotion and human cooperation The Global Encyclopaedia of Informality Volume 3 continues the journey of the two previous volumes into the world's open secrets unwritten rules and hidden practices It focuses on issues of emotional ambivalence and pressures of the digital age The informal practices presented in this volume demonstrate the urgency of alleviating tensions between continuity and all too rapid change and the need to tackle the central problem of modern societies uncertainty The volume takes a reader on a biographical journey through elusive taken for granted or banal ways of getting things done from over 70 countries and world regions It offers innovative understanding of the significance of fringes and challenges the assumption that informality is associated exclusively with poverty underdevelopment the Global South oppressive regimes or the former socialist countries of Eastern Europe and Central Asia It also maps the patterns of informality around the globe identifies specific informal practices in a context sensitive way and documents their ambivalent impact on people engaged in problem solving on societies in which these problems arise and on humanity overall Praise for The Global Encyclopaedia of Informality Volume 3 This book tells a story of human cooperation It is not the narrative you'll find in books teaching you how to solve problems It is an assemblage of something much more endemic fundamentally human and much more pervasive than we tend to think of informality It involves money and power but also the alternative currencies of gaining advantage or gaming the system Bruce Schneier author of *A Hacker's Mind* Alena Ledeneva's latest database of rule bending is a goldmine for documentary makers and storytellers Entries from 70 countries covering a human lifespan from Chinese anchor babies to funeral feasts in Azerbaijan offer remarkable insights into the way the world really works Lucy Ash journalist

**The Reign of God and Rome in Luke's Passion Narrative** Yong-sung Ahn, 2006-03-01 From a Korean perspective this book examines how Luke's Passion Narrative constructs the space time of the Reign of God both in contest to and in compliance with that of Rome and shows how Luke's colonial relations complicate the Gospel's theological perspectives

*Nigeria's Stumbling Democracy and Its Implications for Africa's Democratic Movement* Victor Oguejiofor Okafor, 2008-07-30 Nigeria's Stumbling Democracy and its Implications for Africa's Democratic Movement is the first book to recount and analyze Nigeria's controversial general elections of April 2007 Because Nigeria's immense and diverse population of 140 million people and its wealth of natural resources make it a microcosm of Africa Nigerian politics are an ideal case study and bellwether by which to view and understand African politics and the ongoing democratic experiments on the continent Ten leading scholars of Nigerian and African politics variously based in Nigeria the US and Europe contribute original chapters commissioned by Professor Okafor to provide an account at once deep and comprehensive of what went wrong with these disputed presidential federal and state elections together with their implications for the future of the democratic movement both in Nigeria and in Africa as a whole Although the 2007 general elections resulted in the first ever handover of political power from one civilian government to another in the history of Nigeria by which the two term Christian

president Olusegun Obasanjon was succeeded by a Muslim Alhaji Musa Yar Adua they were condemned by internal and international watchdogs for pervasive vote rigging violence intimidation and fraud which were as this book documents perpetrated by and with the connivance of the nation's security forces The disappointment of continental hopes that these elections might finally break with Nigeria's history of tainted elections has grave repercussions for the democracy movement not only in Nigeria but throughout Africa as seen in the knock on effect upon the disastrous general elections in Kenya later the same year

The Letter to the Hebrews in Social-Scientific Perspective David A. deSilva, 2012-06-20 A lot of mystery surrounds the book of Hebrews especially regarding its authorship date and audience But by asking the right kind of questions one can move beyond the impasses typical of historical investigation In this volume David deSilva explores Hebrews through a social scientific lens asking one of the most important questions when interpreting letters and sermons What was going on in the community to occasion such a response DeSilva looks for clues concerning the anonymous author his education level the influence of the Greek environment and his perception of his own authority In addition by forming a social profile of the audience that includes location ethnicity and class status deSilva brings to light the author's aims of helping protect Christian converts from persecution and social shame This book not only helps the sermon to the Hebrews take on flesh and blood for contemporary readers it also expands the readers tools for asking fresh questions and exploring new dimensions in biblical texts

*Social Scientific Models for Interpreting the Bible* John Pilch, 2021-10-01 Fourteen members of The Context Group honor Bruce J Malina and his scholarship in this volume by following his consistent example of developing or using explicit social scientific models to interpret documents from the ancient Mediterranean world Ordinary features of that cultural world such as gossip reciprocity a pervasive military presence the power of women and becoming a follower of Jesus stand out with greater clarity in the Bible when a reader understands the cultural matrix in which such social dynamics function These essays reflect The Context Group's more than twenty years of collaborative experience in researching the cultural context of the Bible New insights are built on the solidly established foundations of their earlier cross cultural studies Readers will find the individual essays enlightening and challenging Taken as a whole they form a valuable resource and a stimulating and helpful aid to further study
