Patterns Of Modernity Volume 1 The West:

Genres of Modernity Dirk Wiemann, 2008-01-01 *Genres of Modernity* maps the conjunctures of critical theory and literary production in contemporary India. The volume situates a sample of representative novels in the discursive environment of the ongoing critical debate on modernity in India and offers for the first time a rigorous attempt to hold together the stimulating impulses of postcolonial theory, subaltern studies and the boom of Indian fiction in English. In opposition to the entrenched narrative of modernity as a single universally valid formation originating in the West, the theoretical and literary texts under discussion engage in a shared project of refiguring the present as a site of heterogeneous genres of modernity. The book traces these figurative efforts with particular attention to the treatment of two privileged metonymies of modernity: the issues of time and home in Indian fiction. Combining close readings of literary texts from Salman Rushdie to Kiran Nagarkar with a wide range of philosophical, sociological and historiographic reflections, *Genres of Modernity* is of interest not only for students of postcolonial literatures but for academics in the fields of Cultural Studies at large.

Modernity and the Jews in Western Social Thought Chad Alen Goldberg, 2017-05-22 In the late nineteenth and early twentieth centuries prominent social thinkers in France, Germany and the United States sought to understand the modern world taking shape around them. Although they worked in different national traditions and emphasized different features of modern society, they repeatedly invoked Jews as a touchstone for defining modernity and national identity in a context of rapid social change. In *Modernity and the Jews in Western Social Thought*, Chad Alan Goldberg brings us a major new study of Western social thought through the lens of Jews and Judaism. In France, where antisemites decried the French Revolution as the Jewish Revolution, Émile Durkheim challenged depictions of Jews as agents of revolutionary subversion or counterrevolutionary reaction. When German thinkers such as Karl Marx, Georg Simmel, Werner Sombart and Max Weber debated the relationship of the Jews to modern industrial capitalism, they reproduced in secularized form cultural assumptions derived from Christian theology. In the United States, William Thomas, Robert Park and their students conceived the modern city and its new modes of social organization in part by reference to the Jewish immigrants concentrating there. In all three countries, social thinkers invoked real or purported differences between Jews and gentiles to elucidate key dualisms of modern social thought. The Jews thus became an intermediary through which social thinkers discerned in a roundabout fashion the nature, problems and trajectory of their own wider societies. Goldberg rounds out his fascinating study by proposing a novel explanation for why Jews were such an important cultural reference point. He suggests a rethinking of previous scholarship on Orientalism, Occidentalism and European perceptions of America, arguing that history extends into the present with the Jews and now the Jewish state continuing to serve as an intermediary for self-reflection in the twenty-first century.

Modernity in Islamic Tradition Florian Zemmin, 2018-07-23 What does it mean to be modern? This study regards the concept of society as foundational to modern self-understanding. Identifying Arabic conceptualizations of society in the journal *al-Manar*, the mouthpiece of Islamic

reformism the author shows how modernity was articulated from within an Islamic discursive tradition The fact that the classical term umma was a principal term used to conceptualize modern society suggests the convergence of discursive traditions in modernity rather than a mere diffusion of European concepts Judaism Within Modernity Michael A. Meyer,2001 A collection of articles most of them published previously The following deal with antisemitism **Modern Greek Lessons** James D. Faubion,1995-10-30 Through a blend of lively detail and elegant narration James Faubion immerses us in the cosmopolitan intellectual life of Athens a centerless city of multiplicities and fragmentations a city on the margins of Europe recovering from the repressive rule of a military junta Drawing inspiration from Athens and its cultural elite Faubion explores the meaning of modernity finding it not in the singular character of Western civilization but instead in an increasingly diverse family of practices of reform **Neopatrimonialism in Africa and Beyond** Daniel C. Bach,Mamoudou Gazibo,2013-03-01 Neopatrimonialism a system whereby rulers use state resources for personal benefit and to secure the loyalty of clients in the general population is central to any teaching or conceptualisation of contemporary African politics This book is a theoretical and comparative study of neopatrimonialism in Africa and across world regions Although such practices are widespread in other parts of the world the African neopatrimonial state has also become a global prototype of the anti developmental state This volume calls for a reappraisal of the genesis and interpretations of the concepts of patrimonialism and neopatrimonialism Expert contributors consider recent debates in Africa through the study of democracy clientelism the big man syndrome Kenya the rise of godfatherism Nigeria warlordism Liberia and the neopatrimonial state on a day to day basis Niger They discuss patrimonialism and neopatrimonialism from Latin America to Europe Central Asia and Asia Pacific to weave a comparative analysis of the interplay between public policies and private interest Neopatrimonialism in Africa and Beyond is an important and timely volume that will be of interest to students and scholars of international politics African studies sociology and international development *Europe and Asia beyond East and West* Gerard Delanty,2006-10-03 This major new book tackles key questions on Europe in the context of shifting parameters of East and West The contributors sociologists anthropologists philosophers and historians show from a variety of different perspectives that the conventional equation of Europe with the West must be questioned Featuring four thematically organized chapters the book looks at a post Western world Asia in Europe encounters in history between Europe and Asia otherness in Europe and Asia Exploring new expressions of European self understanding in a way that challenges recent ideological notions of the clash of civilizations this outstanding work draws on recent scholarship that shows how Europe and Asia were mutually linked in history and in contemporary perspective It argues that as a result of current developments and the changing geopolitical context both Europe and Asia have much in common and that it is possible to speak of cosmopolitan links rather than clashes This book will be of great value to students and researchers in the fields of sociology European politics and history and cultural theory **A Nation Transformed** Alan Houston,Steve Pincus,2001-08-20 A Nation Transformed is a

major collection of essays by a mix of young and eminent scholars of early modern English history literature and political thought The fruit of an intense interdisciplinary two day conference held at the Huntington Library California it asks whether and in what ways the culture and politics of early modern England was transformed by the second half of the seventeenth century In sharp contrast to those who have emphasised continuity and the persistence of the ancien r gime the contributors argue that England in 1700 was profoundly different from what it had been in 1640 Essays in the volume deal with changes in natural philosophy literature religion politics political thought and political economy The insights offered here based on innovative research will interest scholars and students of early modern history Renaissance and Augustan literature and historians of political thought

Jewish History and Jewish Memory Yosef Hayim Yerushalmi,1998 Publication of Yosef Yerushalmi s Zakhon in 1982 inspired a generation of scholarly inquiry into historical images and myths the construction of the Jewish past and the making and meaning of collective memory Here eminent scholars in their respective fields extend the lines of his seminal study into topics that range from medieval rabbinics homiletics kabbalah and Hasidism to antisemitism Zionism and the making of modern Jewish identity Essays are clustered around four central themes historical consciousness and the construction of memory the relationship between time and history in Jewish thought the demise of traditional forms of collective memory and the writing of Jewish history in modern times

The Anthropology of Complex Economic Systems Niccolo Leo Caldararo,2013-11-14 Today we live in what Ulrich Beck has aptly characterized as a risk society shaped by intensifying crises outside of our control and seemingly outside of our comprehension The master narrative that was supposed to lead us to secular salvation economics has proved to be a large part of the problem rather than the much anticipated solution In The Anthropology of Complex Economic

Systems Niccolo Caldararo offers a much more radical and challenging answer that the fundamental assumptions on which the modern science of economics has been erected are false and that it is through the medium of anthropology particularly the relatively neglected field of economic anthropology that an alternative and sound basis for both the understanding of economic behavior and for the shaping of economic futures can be constructed Caldararo not only challenges the foundational assumptions of conventional economic theory but situates economic behavior something quite different and universal amongst human beings in both a historical and an ecological context Contemporary discussions of sustainability especially in the field of development studies have oddly neglected to look to anthropology Economic anthropology is the repository of a vast store of wisdom both about actual alternative and workable economic systems and about their evolution By drawing on this source Caldararo builds a model of the evolution of human economies which stir up substantial debate shows how economic anthropology provides a tool for the interrogation of economic theory and ties economics to ecology It has been the rupture of this fundamental relationship that lies at the basis of much of our present crisis and the unsustainable economic patterns that humans have created By bringing together in a new configuration economic anthropology ecology and culture history Caldararo not only proposes a new model of human social evolution but equally importantly creates a methodology for speaking to and against our present economic and environmental situation

Globalization Roland Robertson, 1992-07-27 A stimulating appraisal of a crucial contemporary theme this comprehensive analysis of globalizat on offers a distinctively cultural perspective on the social theory of the contemporary world This perspective considers the world as a whole going beyond conventional distinctions between the global and the local and between the universal and the particular Its cultural approach emphasizes the political and economic significance of shifting conceptions of and forms of participation in an increasingly compressed world At the same time the book shows why culture has become a globally contested issue why for example competing conceptions of world order have political and economic consequences

Rethinking Modernity G. Bhabra, 2007-04-11 Arguing for the idea of connected histories Bhabra presents a fundamental reconstruction of the idea of modernity in contemporary sociology She criticizes the abstraction of European modernity from its colonial context and the way non Western others are disregarded It aims to establish a dialogue in which others can speak and be heard

Rethinking Modernity Gurminder K. Bhabra, 2023-02-16 The second edition of this influential book addresses how the experiences and claims of non European others have been rendered invisible to the standard narratives and analytical frameworks of sociological understandings of modernity In challenging the dominant Euro centred accounts of the emergence and development of modernity Bhabra puts forward an argument for connected histories in the reconstruction of historical sociology at a global level This updated version of the original published in 2007 adds a new preface which explores key themes that Bhabra has further developed over the intervening years specifically how the rethinking of modernity enables us to reconstruct sociology and a call for a reparatory sociology committed to the

repair of the social sciences and the securing of global justice Customs and Excise William J. Ashworth, 2003 This book traces the growth of customs and excise and their integral role in shaping the framework of industrial England including state power technical advance and the evolution of a consumer society Central to this structure was the development of two economies one legal and one illicit If there was a unique English pathway of industrialization it was less a distinct entrepreneurial and techno centric culture than one predominantly defined within an institutional framework spearheaded by the excise and a wall of tariffs This process reached its peak by the end of the 1770s The structure then quickly started to crumble under the weight of the fiscal military state and Pitt's calculated policy of concentrating industrial policy around cotton potteries and iron at the expense of other taxed industries The breakthrough of the new political economy was the erosion of the illicit economy the smugglers free trade now became the state's most powerful weapon in the war against non legal trade If at the beginning of the period covered by this book state administration was predominantly deregulated and industry regulated by the close the reverse was the case The Axial Age and Its Consequences Robert N. Bellah, Hans Joas, 2012-10-31 This book makes the bold claim that intellectual sophistication was born worldwide during the middle centuries of the first millennium bce From Axial Age thinkers we inherited a sense of the world as a place not just to experience but to investigate envision and alter A variety of utopian visions emerged and led to both reform and repression

Islam and International Relations Mustapha Kamal Pasha, 2017-04-21 Islam and International Relations Fractured Worlds reframes and radically disrupts perceived understanding of the nature and location of Islamic impulses in international relations This collection of innovative essays written by Mustapha Kamal Pasha presents an alternative reading of contestation and entanglement between Islam and modernity Wide ranging in scope the volume illustrates the limits of Western political imagination especially its liberal construction of presumed divergence between Islam and the West Split into three parts Pasha's articles cover Islamic exceptionalism challenges and responses and also look beyond Western international relations This volume will be of great interest to graduates and scholars of international relations Islam religion and politics and political ideologies globalization and democracy Social Performance Jeffrey C. Alexander, Bernhard Giesen, Jason L. Mast, 2006-05-04 Jeffrey C Alexander brings together new and leading contributors to make a powerful and coherently argued case for a new direction in cultural sociology one that focuses on the intersection between performance ritual and social action Performance has always been used by sociologists to understand the social world but this volume offers the first systematic analytical framework based on the performance metaphor to explain large scale social and cultural processes From September 11 to the Clinton Lewinsky affair to the role of the South African Truth and Reconciliation Commission Social Performance draws on recent work in performative theory in the humanities and in cultural studies to offer a novel approach to the sociology of culture Inspired by the theories of Austin Derrida Durkheim Goffman and Turner this is a path breaking volume that makes a major contribution to the field It will appeal to scholars and students alike

Re-Presenting the Good Society Maeve Cooke, 2006-04-07 A proposal for negotiating the tension between an anti authoritarian impulse and a guiding idea of context transcending validity in critical social theory Contemporary critical social theories face the question of how to justify the ideas of the good society that guide their critical analyses Traditionally these more or less determinate ideas of the good society were held to be independent of their specific sociocultural context and historical epoch Today such a concept of context transcending validity is not easy to defend the linguistic turn of Western philosophy signals the widespread acceptance of the view that ideas of knowledge and validity are always mediated linguistically and that language is conditioned by history and context In *Re Presenting the Good Society* Maeve Cooke addresses the justificatory dilemma facing critical social theories how to maintain an idea of context transcending validity without violating anti authoritarian impulses In doing so she not only clarifies the issues and positions taken by other theorists including Richard Rorty Jürgen Habermas Axel Honneth and Judith Butler but also offers her own original and thought provoking analysis of context transcending validity Because the tension between an anti authoritarian impulse and a guiding idea of context transcending validity is today an integral part of critical social theory Cooke argues that it should be negotiated rather than eliminated Her proposal for a concept of context transcending validity has as its central claim that we should conceive of the good society as re presented in particular constitutively inadequate representations of it These re presentations are Cooke argues provocatively regulative ideas that have an imaginary fictive character
