Patterns Of Power In Early Wales Odonnell Lectures Delivered In The University Of Oxford 1983:

Patterns of Episcopal Power Ludger Körntgen, Dominik Waßenhoven, 2011-08-29 In medieval Europe the death of a king could not only cause a dispute about the succession but also a severe crisis In times of a vacant throne particular responsibility fell to the bishops whose general importance for the time around the first millennium has been revealed by recent scholarship as royal counsellors and policy makers This volume therefore concentrates on the bishops room for manoeuvre and the patterns of episcopal power focusing on the Eastern Frankish Reich and Anglo Saxon England in a comparative approach which is not least based upon the research of a renowned medievalist Timothy Reuter His article about A Europe of Bishops Ein Europa der Bischöfe is presented in English translation for the first time **Patterns of Power in Early Wales** Wendy Davies, 1990 Wendy Davies one of the foremost historians of the Celtic world examines the distribution of power territorial and social and traces the ways in which contemporaries defined this fundamental concept

Patterns of Power in Early Wales Wendy Davies, 1990 Power in Wales in the early middle ages was inextricably linked to political authority This book analyzes the nature of power and its relationships in theory and in practice and looks at the distribution of territorial and social power Episcopal Power and Ecclesiastical Reform in the German Empire John Eldevik, 2012-08-06 This book explores how bishops used the medieval tithe as a social and political tool in eleventh century Germany and Italy *Charlemagne's Practice of Empire* Jennifer R. Davis, 2015-08-20 A new interpretation of Charlemagne examining how the Frankish king and his men learned to govern the first European empire Alfred's Wars Ryan Lavelle, 2012 Although this book provides a selection from sources and interpretations of warfare in Viking Age England and presents a consideration of them it is more than a purely historiographical study It investigates the current state of scholarship and the key points of its development indicating areas for enquiry and point out some less familiar sources along the way The intention is not to deal with the canon of historical works on the Anglo Saxon army for remarkably there is no canon as such Much though by no means all scholarship on the organization of military systems in the Anglo Saxon state has been undertaken by historians and scholars from related disciplines for whom warfare is not a primary concern Many of the sources used will be familiar to students of early medieval England but others are included because they are less often considered I have not attempted to use a chronological structure nor have I retold any particular narrative history of the English Kingdom during the Viking Age although for the reader's convenience a chronology of events is included as an appendix The focus is rather the exploration of the practice and politics of warfare Preface **Offa's Dyke** Keith Ray, Ian Bapty, 2014-03-31 The massive ancient earthwork that provides the sole commemoration of an extraordinary Anglo Saxon king and that gives its name to one of our most popular contemporary national walking trails remains an enigma Despite over a century of study we still do not fully understand how or why Britain's largest linear monument was built and in recent years the views of those who have studied the Dyke have diverged even as to such basic questions as its physical extent and date of

construction This book provides a fresh perspective on the creation of Offa's Dyke arising from over a decade of study and of conservation practice by its two authors It also provides a new appreciation of the specifically Mercian and English political context of its construction The authors first summarise what is known about the Dyke from archaeology and history and review the debates surrounding its form and purpose They then set out a systematic approach to understanding the design and construction of the massive linear bank and ditch that has come to stand proxy for the Anglo Welsh border What can currently be deduced about the build qualities of the Dyke are then summarised from the authors recent and newly intricate study of details of its localised form and construction and its landscape setting The authors meanwhile also explain Offa's Dyke as an instrument of late 8th century Mercian statecraft and the imperial ambitions of Offa himself *Cambrian Medieval Celtic Studies* ,1993 **Cambridge Medieval Celtic Studies** ,1993 British Archaeological Abstracts ,1991

Earthwork Castles of Gwent and Eryng AD 1050-1250 Neil Phillips,2006 The aims of this work are to provide as complete a list as possible of all the timber motte and bailey castles built in the counties of Gwent and Eryng Wales between AD 1050 and 1250 The list not only records number and place but also size shape type date of construction and date of disuse It is also intended where possible to assign building and subsequent ownership to as many of the castles as possible Using the ensuing combined database it becomes possible to plot construction development of the timber and earthwork castle across the chosen area The principal objectives are To build as complete a database as possible of the motte and bailey timber castles of the chosen areas of the Welsh March that can be assigned to the period of 1050 1250 To survey the castles and try to provide a classification system based on size and shape using medieval standard measurement To identify where possible owners or builders of each castle To recognise any patterns that may be identified i e did certain lords build or favour specific castle types If so can a lord's progress be charted through castle type spread or alternatively can castle chronology be dated by historical records To examine the concept of a rolling frontier as the motivation behind motte and bailey timber castles Research the spacing of sites in relation to earlier land use topography or resources by study of records fieldwork and aerial photographs To examine the instances of multiple castle construction within close proximity Due to the quantity of material that the research generated it was decided to include a separate data DVD The volume contains the introduction to the study followed by a social and historical background to the area and period Chapter 3 follows with a discussion of castle definitions and introduction to the various types of earthwork and timber castles that can be found The chapter also discusses the idea of pre conquest castle in Britain and Normandy In chapter 4 an assessment is made of present classification systems used to record castles and introduces an alternative method as employed by this study Chapter 5 introduces the methodology and research strategies employed in this study Chapter 6 contains the results of the statistical work undertaken on the findings of the study and chapter 7 presents distribution maps of the sites researched Chapter 8 discusses the study in relation to the original aims and objectives and the results of the statistical analysis and distribution

maps The study is the concluded in chapter 9 A gazetteer is included containing an in depth coverage of all the castles included in the study The CD contains plates topographical surveys resistivity surveys excavation reports and the spreadsheets **Cylchgrawn Hanes Cymru** ,1990 **Bibliography of Wales** ,1989 The Cumulative Book Index ,1991
