Bourne, Ross D. MacKinnon, Jay Siegel, James W. Simmons, 1974-12-15 Urban problems are now a dominant social issue the essays in this volume consider the direction some of these problems may take in Central Canada Three broad themes are discussed forecasting a spectrum of methodologies and urban forecasts assessing the consequences of these forecasts at two levels the growth of cities as an urban system and the growth and form of individual cities or urban regions and assessing the role of changes in public policy Specific topics include forecasting methodology in a spatial context population and employment growth migration transportation innovations communication linkages regional economic structure economic fluctuations the effects of public policy controls within a system of cities land use and redevelopment household mobility and social change the spread of urban fields and communities and neighbourhoods within cities      **Interpreting the City** Truman Asa Hartshorn, 1992-04-16 The Second Edition has been rewritten to provide additional coverage of topics such as urban development and third world cities as well

as social issues including homelessness jobs housing mismatch and transportation disadvantages It has also been updated with 1990 Census data **Handbook of Regional and Urban Economics** P. Nijkamp, Edwin S. Mills, P. C. Cheshire, 1986 This second volume of the Handbook presents professional surveys of all the important topics in urban economics The first section contains 6 surveys on locational analysis the second 5 surveys of specific urban markets and the third part presents 5 surveys of government policy issues The book brings together exhaustive research by distinguished scholars from many countries It is the only complete survey volume of urban economics and should serve as a reference volume to scholars and graduate students for many years For more information on the Handbooks in Economics series please see our home page on <http://www.elsevier.nl/locate/hes>

**Deciphering the City** William A. Schwab, 2020-10-07 Well written and extremely topical Deciphering the City efficiently deals with the large and small issues facing cities today A focus on globalization's impact on the role of cities an explicit

mission to drive home the applied nature of urban studies to students This innovative text offers an exciting introduction to the history issues problems potential solutions and challenges facing cities in the developed and the developing world for the twenty first century Globalization has changed the roles of cities in the global economy and this text begins with an introduction to the phenomenon of globalization and how the changes it has brought about have affected the social political and economic institutions of societies The second section of the text concentrates on the psychology of the city and the community building process while the book s third section illustrates the structure of cities and their historical and emerging patterns Deciphering the City makes studying the city a relevant and interesting subject necessary in understanding the functioning of today s world      European Settlement and Development in North America James R. Gibson,1978-12-15

Andrew Hill Clark 1911 1975 was responsible for much of the recent rise of historical geography in North America The focus on his research was the opening of New World lands by European peoples and this North American experience is the subject of this collection of essays written by eight of Clark s students They examine the role of a new physical and economic environment particularly abundant and cheap land in the settlement of New France the cultural and physical problems that conditioned Russian America the transformation of cultural regionalism in the eastern United States between the late colonial seaboard and the early republican interior the changing economic geography of rice farming on the antebellum Southern seaboard the interrelationships of the European and Indian economies in the pre conquest fur trade of Canada differential acculturation and ethnic territoriality among three immigrant groups in Kansas in the late nineteenth and early twentieth centuries the development in England and the United States of similar social geographic images of the Victorian city and the erosion of a sense of place and community by possessive individualism in eighteenth century Pennsylvania The essays are preceded by an appreciation of Clark as an historical geographer written by D W Meinig and are brought together in an epilogue by John Warkentin The work is an unusually consistent Festschrift which should appeal to all interested in the patterns of North American settlement      **Urban Sociology in Canada** Peter McGahan,2013-10-22

Urban Sociology in Canada Second Edition introduces the fundamentals of the theoretical structure of Canadian urban studies The book is comprised of 11 chapters that are organized into six parts The text provides census data of various Canadian cities along with urban empirical studies to help illustrate the generalization and concepts The book first covers the classical foundations of urban sociology and then proceeds to discussing the growth of urban system The third part talks about the process of entrance to the urban system while the fourth part deals with the spatial shape of the urban system The last two parts tackle urbanism and the regulation of urban system respectively The book will be of great use to social scientists who involve urban population as the main demographics of their research study      Social Process and the City Peter Williams,2019-03-08

Contemporary urban studies engages a wide range of approaches in the analysis of the processes at work in urban areas These approaches derive from anthropology economics geography history politics and sociology as well as from the

professional experience of town planning and architecture Social process and the city reflects this growing cross disciplinary engagement This shows the important problematic role which cities in particular and urban change in general have played in the growth of Australia The overriding concern of each essay in this collection is to develop an understanding of the ways urban areas function and an awareness of how differing interpretations of urban phenomena might be applied This attention to the nature of the forces at work and the processes these forces manifest themselves in is extended both empirically and conceptually This book was first published in 1983

**Household Movement Patterns** James W. Simmons, Alan M. Baker, University of Toronto. Centre for Urban and Community Studies, 1972 Origin and destination of household relocation in the Toronto metropolitan area

**Geographic Perspectives in Migration Research** David Gordon Bennett, Ole Gade, 1979

Cities of Canada: Profiles of fifteen metropolitan centres George A. Nader, 1975

**Chicorel Index to Urban Planning and Environmental Design** Marietta Chicorel, 1975

**Understanding Social Impacts** Kurt Finsterbusch, 1980-10 The book clearly fills a void in the field of social impact assessment and should be well received by researchers involved in the field One particularly strong point of the book is the presentation and review of studies that have not been published previously in readily accessible forms e g agency reports project reports etc There is a wealth of information in such sources and Finsterbusch has done us a service by making some of this material available here

Organization Studies Vol 3 No 4 1982

The book's main contribution is the enormous amount and variety of data included in each of the chapters

Journal of Applied Behavioral Science Vol 18 No 2 1982 In this volume Finsterbusch seek
