Paul H Nitze On Foreign Policy:

Paul H. Nitze on Foreign Policy Paul H. Nitze, 1989-10-26 The distinguished New York Times columnist James Reston has observed that few if any Americans have served their government with greater distinction over a longer period of time than President Reagan's Secretary of State on arms control matters Paul H Nitze This volume brings together some of his most important essays articles speeches correspondence and public papers on foreign policy and national security and arms control

US Foreign Policy and the Gulf Wars Ahmed Ijaz Malik, 2014-12-09 The US led coalition which launched an invasion of Iraq on 20 March 2003 led to a decade long military presence in the country In the run up to that invasion many comparisons were made with the 1991 Gulf War Ahmed Ijaz Malik takes these two instances of military intervention by Republican US governments to highlight how the official discourse of leaders and decision makers has an impact on foreign policy and its results By taking these two examples he examines how discourse affects real events and the extent to which the legacy of the Cold War has influenced the decisions which are made at the upper echelons of the US government

US Foreign Policy and the Gulf Wars critically analyses the post Cold War liberal cosmopolitan and realist discourses related to these two instances of US military intervention Using an approach which Malik labels critical realism this book examines the ways in which discourses often act as ideological covers for material interests whilst still not holding a deterministic view whereby these interests alone shape policies From this perspective this book assesses the themes of Just War humanitarianism and cosmopolitanism It furthermore uses the approach of critical realism to engage with a variety of arguments on the emerging role of the US as they were displayed in academic discourses and other intellectual contributions around each of the 1991 and 2003 wars Malik relates these discussions to an analysis of the official discourses documents and policies displayed prior to the 1991 and 2003 wars as well as to an examination of the resulting actual conduct Since the implications of the US military presence in the Middle East are so central to the study of International Relations and Security Studies this book will be invaluable for specialists in these disciplines as well as for those interested in policy formation and the wider Middle East

US Foreign Policy Michael Cox, Doug Stokes, 2018 Critical and connected brings together diverse political perspectives from the world's leading experts giving students the tools to critically evaluate America's ever changing role in international politics and to connect theory to real events

The New Russian Foreign Policy Michael Mandelbaum, 1998 This book surveys Russia's relations with the world since 1992 and assesses the future prospect for the foreign policy of Europe's largest country Together these essays offer an authoritative summary and assessment of Russia's relations with its neighbors and with the rest of the world since the collapse of the Soviet Union

The Future of European Foreign Policy Erik Jones, Saskia van Genugten, 2013-10-31 The future of European foreign policy is of vital significance to the developing world order The failure of US policy in Iraq has underscored the need for Europe to play a constructive global

role Nevertheless divisions within Europe over the Iraq war and over the future development of the European Union have raised questions about the potential for an effective European foreign policy whether organized through EU institutions or via individual member states This book will consider why Europe should assume global responsibilities how they will be organized institutionally whether they will be adequate to address pressing regional and security concerns and how they will reflect the foreign policy interests of Europe s major powers It is the intention of this book to cover both thematic and country specific issues ranging from Europe s responsibility as a global actor and EU NATO relations to the specific influence of Germany France Italy and the United Kingdom The contributors come from across the European Union and represent a mix of established and rising scholars This book was published as a special issue of the Journal of European Integration

Gvosdev, 2017-07-05 This volume establishes Amitai Etzioni s communitarian approach to international relations as a distinct school of American foreign policy thought Nikolas K Gvosdev systematically evaluates Etzioni s ideas tracing their origins during the Cold War and their relevance to current challenges in Asia and the Middle East and considering their strengths and weaknesses Etzioni agrees with liberal internationalists who believe that traditional notions of state sovereignty are eroding and that a new set of global norms is required However he argues against the imposition of Western policies on the rest of the world which he sees as a recipe for conflict which the United States cannot afford He warns against the post Cold War triumphalism arguing that it undercuts efforts to find necessary common ground with both Russia and China An enduring and stable global architecture cannot be maintained unless it appeals to the interests of a broad community of nations The trust that is needed for forming closer associations between nations and to have a productive dialogue on human rights can only come about through the voluntary coordination of states forced to combat an increasing array of transnational threats **Routledge Library Editions: Revolution in Vietnam** Various, 2022-07-30 This

7 volume set of previously out of print titles examines both the war for liberation in Vietnam and its political and economic aftermath The economic reforms that began to transform Vietnam from a planned economy to a partially market one are focused on in particular as are the early days of revolutionary conflict Iran's Foreign Policy in the South Caucasus Marzieh Kouhi-Esfahani, 2019-01-10 Iran's role as a regional power is more significant than many in the West may realise The country lies between Central Asia the Caucasus and the Gulf region on the one hand and on the other between the Mediterranean Levant region and South Asia Many of these areas are of increasing strategic importance This book explores Iran's role as a regional power focusing on relations with South Caucasus countries Azerbaijan and Armenia It outlines the historical context including Persia's rule of these countries before the nineteenth century and discusses Iran's approach to foreign and regional policy and how both internal and international factors shape these policies The book assesses Iran Azerbaijan and Iran Armenia bilateral relations to demonstrate how those policies translate in Iran's regional and bilateral relations The book concludes by considering how Iran's relations in the region are likely to develop in the future US Foreign Policy and China Guy Roberts, 2014-11-13 This work is an exploration of how U S China relations were managed by President George W Bush Roberts argues that contrary to conventional wisdom President Bush conducted a calculated pragmatic and highly successful strategy toward Beijing which avoided conflict resolved crisis and significantly increased economic and diplomatic ties Roberts identifies key players and policies of the Bush White House and the specific themes of engagement successful and unsuccessful that unfolded during Bush's first term Research is based on analysis of primary and secondary documentation as well as interviews with key White House actors including Deputy Secretary of State Richard Armitage and two former Australian Prime Ministers Topics of discussion include China's changing attitude toward international engagement China's rising economic power and the tensions this triggered in the American establishment the nature of U S China relations contemporary and ideological understanding of the Bush Presidency as well as the strengths and weaknesses of different sources of information US Foreign Policy and China will be of great interest to students and scholars of US foreign policy and China Studies What prospects for normative foreign policy in a multipolar world? ,

Issues in EU and US Foreign Policy Münevver Cebeci, 2011-01-06 Issues in E U and U S Foreign Policy edited by Münevver Cebeci aims at analyzing the perceptions interests and policies of the EU and the US on various international issues It portrays their convergences and divergences and reflects on their interplay The book has a geographical focus rather than a thematic one however some themes such as weapons of mass destruction dual use technology transfer energy security and democratization are unavoidable within their respective geographical contexts For example the authors inquire into the case of Iran with a special focus on nuclear proliferation they investigate Russia with a significant emphasis on energy security Iraq is examined with a discussion on the withdrawal of occupation troops and finally the authors address the case of China with a debate on dual use technology transfer Issues in European Union and U S Foreign Policy is composed of two parts The

first involves an inventive theoretical framework for understanding EU and US foreign policy. The analysis extends beyond traditional approaches that seek to explain US and EU foreign policy through various dichotomies such as soft power versus hard power without overlooking the significance of such dichotomies. This section further discusses how European and American scholars approach transatlantic relations in different ways. The second section covers an intensive comparative analysis of EU and US foreign policy on specific issue areas. Some chapters also deal with the impact of their policy divergences and convergences on transatlantic relations and NATO. Nevertheless, the book aims to go beyond the parochial debates of burden sharing or division of labor in transatlantic relations. It focuses on and actually proposes a broader framework of cooperation and coordination for the EU and the US.

Proceedings form a forum which provided a collegial forum for a small and select group of foreign policy and regional experts to formulate and recommend new directions for American foreign policy for each of the major regions of the world. With a new American administration in office, this is an opportune time to assess American foreign policy and to set future directions.

1. What challenges and opportunities will the United States and its allies and friends face in the future?
2. What changes should be made to all elements of U.S. foreign policy including the diplomatic, economic, military, and informational elements?
3. What elements should continue?
4. What are the varying perspectives of nations within the region concerning U.S. foreign policy?
5. What changes in U.S. foreign policy would they desire?
6. Overall, what new directions for U.S. foreign policy will better support the interests and objectives of the United States, its allies, and its friends?

A total of thirty-three foreign policy and regional experts participated in the workshop. Seventeen panelists presented papers on seven panels: A. Global Perspective; Western Hemisphere; Asia and the Pacific; South Asia; The Greater Middle East; Europe and Russia; and Africa. Policymakers, members of government and governmental committees and agencies, and students and members of the general public interested in American foreign policy will be interested in this publication.

American Power and International Theory at the Council on Foreign Relations, 1953-54 David M. McCourt, 2020-02-04

Between December 1953 and June 1954, the elite think tank the Council on Foreign Relations (CFR) joined prominent figures in International Relations including Pennsylvania's Robert Strausz Hup Yale's Arnold Wolfers, the Rockefeller Foundation's William Thompson, government adviser Dorothy Fosdick, and nuclear strategist William Kaufmann. They spent seven meetings

assessing approaches to world politics from the realist theory of Hans Morgenthau to theories of imperialism of Karl Marx and V I Lenin to discern basic elements of a theory of international relations The study group s materials are an indispensable window to the development of IR theory illuminating the seeds of the theory practice nexus in Cold War U S foreign policy Historians of International Relations recently revised the standard narrative of the field s origins showing that IR witnessed a sharp turn to theoretical consideration of international politics beginning around 1950 and remained preoccupied with theory Taking place in 1953 54 the CFR study group represents a vital snapshot of this shift This book situates the CFR study group in its historical and historiographical contexts and offers a biographical analysis of the participants It includes seven preparatory papers on diverse theoretical approaches penned by former Berkeley political scientist George A Lipsky followed by the digest of discussions from the study group meetings American Power and International Theory at the Council on Foreign Relations 1953 54 offers new insights into the early development of IR as well as the thinking of prominent elites in the early years of the Cold War

Foreign Policy in Post-Apartheid South Africa Adekeye Adebajo, Kudrat Virk, 2017-12-18 South Africa is the most industrialized power in Africa It was rated the continent s largest economy in 2016 and is the only African member of the G20 It is also the only strategic partner of the EU in Africa Yet despite being so strategically and economically significant there is little scholarship that focuses on South Africa as a regional hegemon This book provides the first comprehensive assessment of South Africa s post Apartheid foreign policy Over its 23 chapters and with contributions from established Africa Western Asian and American scholars as well as diplomats and analysts the book examines the current pattern of the country s foreign relations in impressive detail The geographic and thematic coverage is extensive including chapters on the domestic imperatives of South Africa s foreign policy peace making defence and security bilateral relations in Southern Central West Eastern and North Africa bilateral relations with the US China Britain France and Japan the country s key external multilateral relations with the UN the BRICS economic grouping the African Caribbean and Pacific Group ACP as well as the EU and the World Trade Organization WTO An essential resource for researchers the book will be relevant to the fields of area studies foreign policy history international relations international law security studies political economy and development studies

The Control Agenda Matthew J. Ambrose, 2018-04-15 The Control Agenda is a sweeping account of the history of the Strategic Arms Limitation Talks SALT their rise in the Nixon and Ford administrations their downfall under President Carter and their powerful legacies in the Reagan years and beyond Matthew Ambrose pays close attention to the interplay of diplomacy domestic politics and technology and finds that the SALT process was a key point of reference for arguments regarding all forms of Cold War decision making Ambrose argues elite U S decision makers used SALT to better manage their restive domestic populations and to exert greater control over the shape structure and direction of their nuclear arsenals Ambrose also asserts that

prolonged engagement with arms control issues introduced dynamic effects into nuclear policy Arms control considerations came to influence most areas of defense decision making while the measure of stability SALT provided allowed the examination of new and potentially dangerous nuclear doctrines The Control Agenda makes clear that verification and compliance concerns by the United States prompted continuous reassessments of Soviet capabilities and intentions assessments that later undergirded key U S policy changes toward the Soviet Union Through SALT s many twists and turns accusations and countercharges secret backchannels and propaganda campaigns the specter of nuclear conflict loomed large
