*Columbia River Gorge (OR,WA), Study of Alternatives* ,1980      Potential Effects of OCS Oil and Gas Exploration and Development on Pacific Northwest Indian Tribes ,1991      **Myth and Memory** John Sutton Lutz,2011-11-01 The moment of contact between two peoples two alien societies marks the opening of an epoch and the joining of histories What if it had happened differently The stories that indigenous peoples and Europeans tell about their first encounters with one another are enormously valuable historical records but their relevance extends beyond the past Settler populations and indigenous peoples the world over are engaged in negotiations over legitimacy power and rights These struggles cannot be dissociated from written and oral accounts of contact moments which not only shape our collective sense of history but also guide our understanding of current events For all their importance contact stories have not been systematically or critically evaluated as a genre Myth and Memory explores the narratives of indigenous and newcomer populations from New Zealand and across North America from the Lost Colony of Roanoke on the Atlantic seaboard of the United States to the Pacific Northwest and as far as Sitka Alaska It illustrates how indigenous and explorer accounts of the same meetings reflect fundamentally different systems of thought and focuses on the cultural misunderstandings embedded in these stories The contributors discuss the contemporary relevance production and performance of Aboriginal and European contact narratives and introduce new tools for interpreting the genre They argue that we are still in the contact zone striving to understand the meaning of contact and the relationship between indigenous and settler populations      A Museum Studies Approach to Heritage Sheila Watson,Amy Jane Barnes,Katy Bunning,2018-10-08 Heritage s revival as a respected academic subject has in part resulted from an increased awareness and understanding of indigenous rights and non Western philosophies and practices and a growing respect for the intangible Heritage has thus far focused on management tourism and the traditionally heritage minded disciplines such as archaeology geography and social and cultural theory Widening the scope of international heritage studies A Museum Studies Approach to Heritage explores heritage through new areas of knowledge including emotion and affect the politics of dissent migration and intercultural and participatory dimensions of heritage Drawing on a range of disciplines and the best from established sources the book includes writing not typically recognised as heritage but which nevertheless makes a valuable contribution to the debate about what heritage is what it can do and how it works and for whom Including heritage perspectives from beyond the professional sphere the book serves as a reminder that heritage is not just an academic concern but a deeply felt and keenly valued public and private practice This blending of traditional topics and emerging trends established theory and concepts from other disciplines offers readers international views of the past and future of this growing field A Museum Studies Approach to Heritage offers a wider more current and more inclusive

of Northwest Indians reportedly made the arduous journey from the shores of the Pacific to the banks of the Missouri in order to visit the famous explorer William Clark This delegation came however not on civic matters but on a religious quest hoping or so the reports ran to discover the truth about the white men s religion The story of this meeting inspired a drive to send missionaries to the Northwest Reading accounts of these souls ripe for conversion the missionaries expected a warmer welcome than they received and they recorded their subsequent disappointments and frustrations in their extensive journals letters and stories Bringing Indians to the Book recounts the experiences of these missionaries and of the explorers on the Lewis and Clark Expedition who preceded them Though they differed greatly in methods and aims missionaries and explorers shared a crucial underlying cultural characteristic they were resolutely literate carrying books not only in their baggage but also in their most commonplace thoughts and habits and they came west in order to meet and attempt to change groups of people who for thousands of years had passed on their memories learning and values through words not written but spoken or sung aloud It was inevitable that in this meeting of literate and oral societies ironies and misunderstandings would abound
