Richard Nixon and Europe Luke Nichter, 2015-05-19 The U S European relationship remains the closest and most important alliance in the world Since 1945 successive American presidents each put their own touches on transatlantic relations but the literature has reached only into the presidency of Lyndon Johnson 1963-9 This first study of transatlantic relations during the era of Richard Nixon shows a complex turbulent period during which the postwar period came to an end and the modern era came to be on both sides of the Atlantic in terms of political economic and military relations **The Story of One Man's Journey in Faith** Gene Bradley, 2003-08 **Planning in Cold War Europe** Michel

Christian, Sandrine Kott, Ondrej Matejka, 2018-10-08 The idea of planning economy and engineering social life has often been linked with Communist regimes will of control However the persuasion that social and economic processes could and should be regulated was by no means limited to them Intense debates on these issues developed already during the First World War in Europe and became globalized during the World Economic crisis During the Cold War such discussions fuelled competition between two models of economic and social organisation but they also revealed the convergences and complementarities between them This ambiguity so often overlooked in histories of the Cold War represents the central issue of the book organized around three axes First it highlights how know how on planning circulated globally and were exchanged by looking at international platforms and organizations The volume then closely examines specificities of planning ideas and projects in the Communist and Capitalist World Finally it explores East West channels generated by exchanges around issues of planning which functioned irrespective of the Iron Curtain and were exported in developing countries The volume thus contributes to two fields undergoing a process of profound reassessment the history of modernisation and of the Cold War
