The Words and Music of Paul Simon James Bennighof,2007-10-30 Paul Simon is commonly acknowledged to be one of the most successful singer songwriters of the pop rock era His work has flourished in the context of Simon and Garfunkel as well as in his own solo career Starting with the folk rock style that marked his earliest significant success he has drawn on a wide variety of influences including many American traditions and later many international ones as well He has won multiple Grammy awards in both the duo and the solo phases of his career His songwriting has also provided the impetus for brief forays into film and musical theatre After providing a brief biographical overview this work examines Simon s songwriting work in depth providing a critical discussion of each song as a fusion of text and music so as to help the reader to identify elements that enhance appreciation A particularly valuable contribution in this context is the discussion of the wide variety of musical

elements that contribute significantly to the value of Simon's work. These include such easily understandable issues as verse chorus structure, melodic variation, selection of particular instruments, and even performers' variation of musical style within a song. General harmonic characteristics, relationships among keys, rhythm, and pacing of text, etc. While the book proceeds chronologically through Simon's recorded output, specific threads are developed throughout, and the discussion of individual songs takes place in the context of these threads, both drawing on them and developing them further. The diversity of Paul Simon's work reflects his very American background, and no discussion of American music is complete without accounting for his influence.

Sourcebook for Research in Music, Third Edition Allen Scott, 2015-06-01. Since it was first published in 1993, the *Sourcebook for Research in Music* has become an invaluable resource in musical scholarship. The balance between depth of content and brevity of format makes it ideal for use as a textbook for students, a reference work for faculty, and professional musicians, and as an aid for librarians. The introductory chapter includes a comprehensive list of bibliographical terms with definitions, bibliographic terms in German, French, and Italian, and the plan of the Library of Congress and the Dewey Decimal music classification systems. Integrating helpful commentary to instruct the reader on the scope and usefulness of specific items, this updated and expanded edition accounts for the rapid growth in new editions of standard works in fields such as ethnomusicology, performance practice, women in music, popular music education, business, and music technology. These enhancements to its already extensive bibliographies ensure that the *Sourcebook* will continue to be an indispensable reference for years to come.

The Popular Music Teaching Handbook B. Lee Cooper, Rebecca A. Condon, 2004-04-30. The function of print resources as instructional guides and descriptors of popular music pedagogy are addressed in this concise volume. Increasingly, public school teachers and college-level faculty members are introducing and utilizing music-related educational approaches in their classrooms. This book lists reports dealing with popular music resources as classroom teaching materials and will stimulate further thought among students and teachers. It focuses on the growing spectrum of published scholarship available to instructors in specific teaching fields: art, geography, social studies, urban studies, and so on, as well as on the multitude of general resources, including biographical directories and encyclopedias of artist profiles. Building on two recent publications, *Teaching with Popular Music Resources: A Bibliography of Interdisciplinary Instructional Approaches* (Popular Music and Society XXII no. 2, Summer 1998) and *American Culture Interpreted through Popular Music: Interdisciplinary Teaching Approaches* (Bowling Green State University Popular Press, 2000), this volume focuses on the growing spectrum of published scholarship that is available to instructors in specific teaching fields: art, geography, social studies, urban studies, and so on, as well as on the multitude of general resources, including biographical directories and encyclopedias of artist profiles.
