Watkins, 2015-01-01 Theological interest in art is at a premium However theological engagement with art is often enacted without a clear sense of method This text argues for a theological methodology in engaging the arts and specifically the author puts forward a theological model for understanding human creativity in the light of Jesus' sacrificial redemption In dialogue with theology philosophy psychology and art theory the author establishes the relevance and applicability of an incarnational and sacrificial model of human creativity Theological models also do more than provide a conceptual framework for theological inquiries They engage the imagination A theological model for human creativity is like an invitation to join in the creative vision God has for the world and to embody this vision in one's own creative work Therefore Creativity as Sacrifice does not merely articulate a conceptual framework for human creativity it also casts a vision for human life as a creative response to the gracious gifts of a creative God *Heroes, Saints, and Ordinary Morality* Andrew Michael Flescher, 2003-11-25 Most of us are content to see ourselves as ordinary people unique in ways talented in others but still among the ranks of ordinary mortals Andrew Flescher probes our contented state by asking important questions How should ordinary people respond when others need our help whether the situation is a crisis or something less Do we have a responsibility an obligation to go that extra mile to act above and beyond the call of duty Or should we leave the braver responses to those who are somehow different than we are better somehow heroes or saints Traditional approaches to ethics have suggested there is a sharp distinction between ordinary people and those called

heroes and saints between duties and acts of supererogation going beyond the expected Flescher seeks to undo these standard dichotomies by looking at the lives and actions of certain historical figures Holocaust rescuers Martin Luther King Jr Dorothy Day among others who appear to be extraordinary but were in fact ordinary people Heroes Saints and Ordinary Morality shifts the way we regard ourselves in relationship to those we admire from afar it asks us not only to admire but to emulate as well further it challenges us to actively seek the acquisition of virtue as seen in the lives of heroes and saints to learn from them a dynamic aspect of ethical behavior that goes beyond the mere avoidance of wrongdoing Andrew Flescher sets a stage where we need to think and act calling us to lead lives of self examination even if that should sometimes provoke discomfort He asks that we strive to emulate those we admire and therefore allow ourselves to grow morally and spiritually It is then that the individual develops a deeper altruistic sense of self a state that allows us to respond as the heroes of our own lives and therefore in the lives of others when times and circumstance demand that of us

media business and leadership Addresses the big issues including cultural differences traditional intelligence computer and animal creativity and more *Concerning Creativity* John H. Berthrong,1998-10-01 This work examines the philosophies and theologies of three thinkers Chu Hsi Alfred North Whitehead and Robert C Neville separated by time space and culture In so doing John H Berthrong provides a suggestive and successful comparison of creativity as a cross cultural theme while introducing Neo Confucianism as a sophisticated dialogue partner with modern Western speculative philosophy and theology Creativity lies at the heart of the discourse of Chu Hsi 1130 1200 and Alfred North Whitehead For both creativity emerges as an attempt to illustrate the organic unity of the world without resorting to an appeal to a source for creativity beyond the concrete actuality of the cosmos Subtle critics such as Robert C Neville argue that process thought is fatally flawed because Whitehead separated creativity from the other crucial elements of his system By interjecting the Chinese Neo Confucian synthesis of Chu Hsi it is possible to show how creativity can be re integrated into process discourse as creative synthesis

Parrella,1995 *Creativity and Its Discontents* Laikwan Pang,2012 Laikwan Pang offers a complex critical analysis of creativity creative industries and the impact of Western copyright laws on creativity in China ***Creativity, Psychology and the History of Science*** H.E. Creativity Matthew Fox, 2004-06-17 The author of *Original Blessing* explores how the highest communion with the Divine can be found right at our fingertips in the simplest expressions of human creativity Drawn from a sermon that has electrified listeners here is a concise powerful meditation on the nature of creativity from Episcopal priest and radical theologian Matthew Fox *Creativity* is Fox at his most dynamic It is immensely practical and leaves the reader with a message to put into action in life Fox tantalizingly suggests that the most prayerful most spiritually powerful act a person can undertake is to create at his or her own level with a consciousness of the place from which that gift arises

Creativity and Spirituality Maureen Miner, Martin Dowson, 2017-02-01 The volume was developed to address conceptual relational and formational questions around the phenomena of creativity and spirituality from a multidisciplinary perspective We acknowledge the complexity of each phenomenon and the need for multiple perspectives in a number of ways First different chapters are written from psychological theological or philosophical perspectives Second multiple research perspectives are considered across empirical and phenomenological methods of inquiry Finally multiple associations between creativity and spirituality are evaluated From such multiple perspectives the theme of this volume emerges Both creativity and spirituality are important for individual and societal flourishing but we know little about fostering both in the 21st century Some ways of fostering them are psychologically harmful and need to be avoided New ways of protecting people as they engage in creative and spiritual endeavours are needed In particular formal training in both creativity and spirituality within the sphere of higher education should be developed in the light of current research However new research that integrates multiple

perspectives and examines creativity and spirituality together is needed for training that avoids harm and promotes individual and social flourishing The book will be valuable for educators in all disciplines of higher education because it justifies and explicates training in creativity and spirituality within all areas of higher education Further it discusses how such training might best be included within andragogical practice The book will be useful for researchers of creativity and spirituality because it gives an overview of contemporary research issues and findings and proposes a new philosophical theological perspective for integrative research in these areas Students in fields of creativity theology and spirituality will use the book as a synthesis of contemporary theories and research relating to both creativity and spirituality and for direction in post graduate research More broadly Christians and others who appreciate the creative and performing arts will find much to challenge their thinking and deepen their awareness of spirituality within human creativity **Creative Is a Verb** Patti Digh,2010-10-19 A guidebook for all who call themselves artists and those who need permission to re insert creativity into their lives Freedom in Resistance and Creative Transformation Michael St. A. Miller,2013-04-11 The practice of freedom that is finite realistically libertarian and relational is vital for the wholesome development of human beings In promoting this idea Michael Miller challenges traditional Christian teachings that have hindered the pursuit of freedom by human beings **Creative Church Leadership** John Adair,John Nelson,2004 Following Management and Ministry and Leading Managing Ministering this third MODEM handbook explores an issue at the very heart of the Church how can an ancient institution with so many encumbrances remain a living sign of the Kingdom of God
