Foot Prints on the Rocks Dr Amitabh Shanker Roy Choudhury, 2018-03-02 It all happened in mid June 2013 The nature s fury had broken loose in Kedarnath valley Excerpts from the book It didn t take long for nature

to reveal its frightening designs It was indeed a natural calamity but a manmade disaster too The sudden blackening of the blue sky which Inder had witnessed was caused by a cloud burst over the Chorabali Tal situated at the height of 14 000ft four km from the Kedarnath temple It remains blanketed throughout the year with snow white flakes The clouds poured god knows how many thousand cusecs of water into the lake Consequently the walls of the lake could no longer withstand the water pressure and were breached at several points releasing a huge water jinn which tore apart whatever tried to block it And then when no shackle was left to constrain it the jinn was free to wreak havoc upon the lives of the people Chetak again raised its two bleeding forelimbs to hit the attacker But by that fraction of a second the war was lost and won The poor dog tried to bark But its neck was stifled between the leopard s two sets of teeth The hapless creature could not make even a final cry Blood was oozing from its throat The black brown hairs of the neck gradually became crimson The birds had returned to their nests They were chirping all around The leaves of the kafol tree were fluttering in the evening breeze and emanating the sound like ankle bells The temple bells were ringing Standing on the ramparts of heaven with silver peak railings on the sides the not so bright moon was smiling and peeking through the fluttering leaves of the peepal tree in front of their house The heaven and earth extended a warm welcome to the long lost son of the family The sky above Himalaya was bathed in a crimson red hue

God's Blood Norman E Stephenson,2007-11 On Friday October 13 1307 Phillip the Fair of France betrayed and arrested the cream of the Knights of the Temple However before he could recover their vast amounts of wealth and Holy Relics these items vanished into the mists of history This is the story of what really happened to the treasure and how it was rescued from his unworthy clutches The book relates how our heroes in time Raza Beauregard Ram n and Alice managed to spirit it away evading the king s men and various natural barriers as they travel on the great rivers of Europe to freedom

Paw Prints Along the Rhine Norman E. Stephenson,2010-01-22 Finally due to great demand the long awaited sequel to trilogy Paw Prints Through the Ages makes its appearance This time our intrepid time traveling cat Beauregard and his friends time jump into the violent Burgundian Swiss wars of the late 1400s Their adventures in that period are as exciting and remarkable as those they experienced during the crusades Beau is his usual self and his bonded human partner Ramn his friends Raza and Alice and a few new characters join him in taking part in and recording the true events of the Burgundian Wars Like Norms previous novels this book is a blend of history fantasy and science fiction which means the reader will never be bored It is also like all of his other works a stand alone book which means you do not have to have read the others to enjoy this one

Foot-prints on the Sands of Time; Or, Words of Hope and Comfort for Hours of Sorrow and Bereavement William Thoseby,1869 *Games for the Early Years* ,

Great Tide Rising Kathleen Dean Moore,2016-02-01 Even as seas rise against the shores another great tide is beginning to rise a tide of outrage against the pillage of the planet a tide of commitment to justice and human rights a swelling affirmation of moral responsibility to the future and to Earth s fullness of life Philosopher and nature essayist Kathleen Dean Moore takes on the essential questions

Why is it wrong to wreck the world What is our obligation to the future What is the transformative power of moral resolve How can clear thinking stand against the lies and illogic that batter the chances for positive change What are useful answers to the recurring questions of a storm threatened time What can anyone do Is there any hope And always this What stories and ideas will lift people who deeply care inspiring them to move forward with clarity and moral courage

Foot-prints of

a letter carrier James Rees, 2014-10-30 Example in this ebook There are few institutions in this or in any other country the history of which is so little known as is that of the post office The very name in the opinion of the masses is sufficient to enlighten them and beyond this little or no interest is manifested Yet the history if fairly written would surprise that very portion who consider the name alone an index to its unwritten pages Indeed it seems strange that so important a branch of our government should have been so slighted by those who constituted themselves historic writers Our school books contain no allusion to it nor are its officers mentioned with any marks of commendation in any of our national works And yet there are names identified with this department both as regards mind intellect and character unequalled by those of any other in the country Perhaps it is looked upon as being merely an appliance to the wheels of government and not essential to its general movements Is this so is the department a mere workshop and its officers and employees simply workers We have endeavored in this work perhaps feebly to place the post before our readers as one of the most important branches of the General Government We have thrown around its social and political history an interest by connecting with it incidents facts and local matter more immediately identified with events which have marked our country's history from its earliest period to that of the present Much has transpired during all these years to render such a work both instructive and interesting and although we do not claim for ours any such pretension yet we may safely term it a pioneer in the cause of our postal history We have also endeavored without any aid from the postal department at Washington to furnish a somewhat desultory history of the post in this country while at the same time we have given some account of those of other nations Ours is not a mere statistic history but one that blends with it a certain amount of information upon every subject more or less connected with it Aiming at no high literary attainments or attempting to excel others in language beauty of sentiment or construction of sentences he has written a work in his own style and in a manner which he flatters himself will be received favorably by the masses The American language given in its plainest style will be far more appreciated by them than if clothed in the classic garb scholastic and academical tailoring has thrown around it The primitive style in which our forefathers wrote has been materially changed by the introduction of foreign and learned words This it is true as Blair says gives an appearance of elevation and dignity to style but often also they render it stiff and forced and in general a plain native style as it is more intelligible to all readers so by a proper management of words it may be made equally strong and expressive with this Latinized English Barren languages may need such assistance but ours is not one of these The author is also aware that in the general arrangement of his subject there may seem a want of connection but as the postal chain is linked to dates he may

be excused if other portions of the work fly off in tangents This however is owing more to the variety of postal matter introduced than to any neglect on his part to bring them into harmonic action To be continue in this ebook The gallery of nature: a tour through creation Thomas Milner,1860 The gallery of nature: a pictorial and descriptive tour through creation ... A new edition, carefully revised Thomas Milner,1852 **Dear Mr Len!** Len Wilson,2020 For years Len s friends have encouraged him to write his travel adventures for all to read He is widely acknowledged as a great story teller and enjoys entertaining his friends with travel tales or delivering power point presentations to select audiences Len s first overseas adventure was as part of a delegation of New Zealand University graduates to People s Republic of China in 1977 and he has been constantly traveling since then This book covers over 40 years of travel to over 35 countries Len s aim to to entertain and inform the reader and bring laughter to otherwise stressful situations **Foot-prints of a letter carrier; or, a history of the world's correspondence** James Rees,2021-05-19 In Foot prints of a Letter Carrier or A History of the World s Correspondence James Rees masterfully intertwines personal narrative with a sweeping historical analysis of letter writing and postal systems Through engaging anecdotes as a letter carrier Rees explores the evolution of correspondence from antiquity to the modern age examining the social political and technological transformations that shaped human communication His literary style is marked by a blend of detailed observation historical rigor and an underlying reverence for the written word making this work both informative and reflective James Rees a distinguished figure in the study of communication history draws from his own experiences in the postal service to provide a rich context for understanding the significance of correspondence in human interactions Rees s passion for the subject is evident in his meticulous research and the personal insights he shares which not only illuminate historical trends but also the emotional weight of letters that connect individuals across time and space For readers fascinated by the evolution of communication or the intimate stories behind written exchanges Rees s work is indispensable Foot prints of a Letter Carrier offers a profound glimpse into the role letters play in society making it a compelling read for historians scholars and anyone intrigued by the power of the pen
