Global Histories of Work Andreas Eckert, 2016-09-12 Global Histories of Work is the first title in the new series Work in Global and Historical Perspective This collection of selected articles written by leading scholars in different disciplines provides both an introduction and numerous insights into themes debates and methods of Global Labour History as they have been developed over the last years The contributions to the volume discuss crucial historiographical developments present different professions that have gained new attention in the context of an emerging Global Labour History critically engage the boundaries of free labour and the ambiguities contained in this concept and take up and historicize current debates about informal labour Global Histories of Work will familiarize readers with a burgeoning field of high academic social and political relevance

Economics of Mineral Mining in India S. Mohammed Irshad, 2024-12-02 This book explores the theoretical and practical challenges of engaging with climate and disaster risk in the changing context of capital investments and market expansion It explains the emergence of an at risk society and its interface with economic decision making The critical issue the book explores is the implication of certainty over the return period of risk and its influence on the economic behaviour of the state and market institutions Risk sharing and governing economic risks in the context of financial capitalism is a major theoretical issue the book engages with It offers a new conceptual framework to see how risk economics evolves out of increasing climate and disaster risks and a counter discourse on the mainstream economic theoretical standpoint on capital It also explains the economics of capital replacement in vulnerable social systems These broader perspectives will benefit economists researchers disaster and climate risk experts the corporate sector economics teachers financial economics and development policy making Also it examines climate change and disaster s theoretical and practical implications on capital formation and accumulation in the contemporary economic system This book discusses risk mitigation and its interface with sustainable development goals including climate action

The Futures of Racial Capitalism Gargi Bhattacharyya, 2023-10-23 Capitalism appears to be endlessly in crisis but without ever loosening its hold on our lives New modes of racism and exclusion emerge but the old ones never go away We continue to struggle to live and survive in its wake but are unable still now to build commonality with each other In this incisive book Gargi Bhattacharyya revisits debates about racial capitalism and its violence through differentiation Taking the four lenses of prisons borders debt and platforms Bhattacharyya reveals how this moment of capitalist crisis positions humans as expendable but differentially so in a process that remakes longstanding racialized hierarchies Uncovering practices and techniques embedded in the shifting processes of accumulation and state power the chapters illuminate how

value is extracted from populations through non wage routes and indebtedness This engaging introduction to racial capitalism offers an interlocking and insightful analysis of capitalist renewal essential for students and scholars interested in issues of race racism and inequality

Coolies of the Empire Ashutosh Kumar,2017-09-15 This book unfolds the story of the indenture system within the British Empire with India as the mother country of coolies

Middle East Authoritarianisms Steven Heydemann,Reinoud Leenders,2013-01-09 The developments of early 2011 changes the political landscape of the Middle East But even as urgent struggles continue it remains clear that authoritarianism will survive this transformational moment The study of authoritarian governance therefore remains essential for our understanding of the political dynamics and inner workings of regimes across the region This volume considers the Syrian and Iranian regimes what they share in common and what distinguishes them Too frequently authoritarianism has been assumed to be a generic descriptor of the region and differences among regimes have been overlooked But as the political trajectories of Middle Eastern states diverge in years ahead with some perhaps consolidating democratic gains while others remaining under distinct and resilient forms of authoritarian rule understanding variations in modes of authoritarian governance and the attributes that promote regime resilience becomes an increasingly urgent priority

India, Modernity and the Great Divergence Kaveh Yazdani,2017-01-05 India Modernity and the Great Divergence is an original and pioneering book about India s transition towards modernity and the rise of the West The work examines global entanglements alongside the internal dynamics of 17th to 19th century Mysore and Gujarat in comparison to other regions of Afro Eurasia It is an interdisciplinary survey that enriches our historical understanding of South Asia ranging across the fascinating and intertwined worlds of modernizing rulers wealthy merchants curious scholars utopian poets industrious peasants and skilled artisans Bringing together socio economic and political structures warfare techno scientific innovations knowledge production and transfer of ideas this book forces us to rethink the reasons behind the emergence of the modern world

The Lost World of Socialists at Europe's Margins Maria Todorova,2020-09-03 Maria Todorova s book is devoted to the golden age of the socialist idea broadly surveying the period in and around the time of the Second International It critically examines the promise for an alternative socialist utopia from 1870 to the 1920s Todorova brings in the experience of the periphery in a comparative context in the belief that the margins can often elucidate better the character of a phenomenon and de provincialize it from essentialist notions In doing so The Lost World of Socialists at Europe s Margins moves beyond the traditional historiographical emphasis on ideology by looking at different intersections or entanglements of spaces generations genders ideas and feelings and different flows of historical time The study provides a social and cultural history of early socialism in Eastern Europe with an emphasis on Bulgaria arguably the country with the earliest and strongest socialist movement in Southeast Europe and one that had a unique relationship to both German and Russian social democracy Based on a rich prosopographical database of around 3500 biographies of people born in the 19th century the book addresses the interplay of several generations of leftists

looking at the specifics of how ideas were generated received transferred and transformed Finally the work investigates the intersection between subjectivity and memory as reflected in a unique cache of archival materials containing over 4000 documentary sources including diaries oral interviews and unpublished memoirs A microhistorical approach to this material allows the reconstruction of structures of feeling that inspired an exceptional group of individuals *Global Communications* Paula Chakravartty, Yuezhi Zhao, 2007-08-29 This provocative book takes a new approach toward understanding the uneven flows of global communications Rather than guiding its discussion by geography types of media or traditional separations of power and resistance *Global Communications* examines political economic power and communication in relation to historically specific encounters with modernity It underscores lived experiences in its approach to globalization showing that the state and the market can both be sites of empowerment just as civil society might also be a site of repression Taking a political economic analysis of communication and culture this dynamic group of international authors looks beyond developments in the North American information and culture industries to map new forms of citizenship and exclusion The chapters spotlight China Ghana India Japan Palestine Russia Singapore and Venezuela and foreground the transnational formations of the European Union the pan Arab and Spanish speaking markets and civil society actors in sub Saharan African the Middle East and North America Theoretically driven and empirically grounded *Global Communications* defines communication broadly to include production circulation and consumption and addresses urgent questions about the inequalities of globalization and the possibilities of hybrid cultural forms and practices *Governing natives* Ben Silverstein, 2018-10-16 In the 1930s a series of crises transformed relationships between settlers and Aboriginal people in Australia s Northern Territory By the late 1930s Australian settlers were coming to understand the Northern Territory as a colonial formation requiring a new form of government Responding to crises of social reproduction public power and legitimacy they re thought the scope of settler colonial government by drawing on both the art of indirect rule and on a representational economy of Indigenous elimination to develop a new political dispensation that sought to incorporate and consume Indigenous production and sovereignties This book locates Aboriginal history within imperial history situating the settler colonial politics of Indigeneity in a broader governmental context *The World-System as Unit of Analysis* Roberto Patricio Korzeniewicz, 2017-09-22 World system analyses have recast the study of between and within nation country inequality as constituent aspects of a single field of inquiry the study of inequality and social stratification as processes that always have been global in their very essence World system analyses maintain that global social stratification pivots around institutional arrangements that render distributional outcomes as simultaneously national gendered racialized and global processes This book takes stock of some of the enduring theoretical and empirical contributions of a world system perspective and identifies promising directions for future inquiry and discussion Some chapters reassess the scope and methodologies of world system analysis around several key problems e g the spatial and temporal boundaries of global

commodity chains the construction and challenge of various dimensions of social inequality systemic and antisystemic social movements Others take stock of areas in which world systems are promoting methodological innovation and or generating useful global data and identify questions that demand additional methodological and empirical attention for future research In different ways this book help us to critically reconsider some of the enduring legacies within a world system perspective such as Karl Polanyi s concept of the double movement or the distinction drawn by Giovanni Arrighi or Immanuel Wallerstein between systemic and antisystemic movements As argued by many of the authors in this book a world historical approach calls for greater sensitivity to the manifold ways in which conceptual boundaries change over time and space Taking seriously the issue of unit of analysis this book explores critically productive ways for better understanding global patterns of continuity and change

The Long End of the First World War Katrin Bromber, Katharina Lange, Heike Liebau, Anorthe Wetzels, 2018-10-04 Eigene und Fremde Welten Herausgegeben von J rg Baberowski Stefan Rinke und Michael Wildt Mit dem Gedenken an den Ausbruch des Ersten Weltkriegs hat sich die Art der Erinnerung an dieses welthistorische Ereignis ver ndert Die Beitr ge dieses Bandes zielen darauf ab Verkn pfungen zwischen individuellen Kriegserfahrungen Geschichtsschreibung und Erinnerung herzustellen und so den Begriff eines statischen klar definierten Endes des Ersten Weltkrieges zu hinterfragen eines Konstrukts das haupts chlich auf europ ischen Entwicklungen beruht

The Bourgeois Revolution in France, 1789-1815 Henry Heller, 2006 In the last generation the classic Marxist interpretation of the French Revolution has been challenged by the so called revisionist school The Marxist view that the Revolution was a bourgeois and capitalist revolution has been questioned by Anglo Saxon revisionists like Alfred Cobban and William Doyle as well as a French school of criticism headed by Fran ois Furet Today revisionism is the dominant interpretation of the Revolution both in the academic world and among the educated public Against this conception this book reasserts the view that the Revolution the capital event of the modern age was indeed a capitalist and bourgeois revolution Based on an analysis of the latest historical scholarship as well as on knowledge of Marxist theories of the transition from feudalism to capitalism the work confutes the main arguments and contentions of the revisionist school while laying out a narrative of the causes and unfolding of the Revolution from the eighteenth century to the Napoleonic Age
