The Future of Social Psychology Cookie Stephan,Thomas F. Pettigrew,2012-12-06 Cookie White Stephan and Walter G Stephan This is a book about the two social psychologies psychological social psychology and sociological social psychology written by social psychologists from both disciplines It focuses on the benefits and costs of interchange between psychological social psychology and sociological social psychology with the ultimate goal of encouraging interaction among scholars in the two disciplines The primary questions addressed are What do the two disciplines have to offer each other What are the barriers to fruitful interchange How can these barriers be overcome In this introductory chapter we will first examine some historical reasons for the lack of interchange between the

two social psychologies Then we will provide a brief preview of the chapters to follow The Development of the Two Social Psychologies The beginning of concern with the social animal can be traced to the ancient Greeks However social psychology's formal beginning is usually dated from Norman Triplett's 1897 publication of his findings on the effects of competition or from the publication in 1908 of two books including the words Social Psychology in their titles one by the psychologist William McDougall and the other by the sociologist Edward Alsworth Ross Thus from its inception social psychology was already divided into two distinct academic units housed in the disciplines of sociology and psychology

Personality, Roles, and Social Behavior W. Ickes, E.S. Knowles, 2012-12-06 Personality and Roles Sources of Regularities in Social Behavior For behavioral scientists whether they identify primarily with the science of psychology or with that of sociology there may be no challenge greater than that of discovering regularities and consistencies in social behavior After all it is such regularities and consistencies that lend predictability to the behavior of individuals in social contexts in particular to those events that constitute dyadic interactions and group processes In the search for behavioral consistencies two theoretical constructs have emerged as guiding principles personality and roles The theoretical construct of personality seeks to understand regularities and consistencies in social behavior in terms of relatively stable traits enduring dispositions and other propensities for example needs motives and attitudes that are thought to reside within individuals Because it focuses primarily on the features of individuals the construct of personality is fundamentally psychological in nature By contrast the theoretical construct of roles seeks to understand regularities and consistencies in social behavior in terms of the directive influence of coherent sets of rules and prescriptions that are provided by the interpersonal occupational and societal categories of which individuals are continuing members Because it focuses primarily on features of social structures the construct of roles is fundamentally sociological in nature
