Personality Development And So:

The Life Story, Domains of Identity, and Personality Development in Emerging Adulthood Michael W. Pratt Ph.D., M. Kyle Matsuba Ph.D., 2018-05-30 The Life Story Domains of Identity and Personality Development in Emerging Adulthood focuses on individuals' formulations of the unique episodes and events of their lives that give one meaning and a sense of personal identity. This book brings the growing research on narrative study and the life story into focus by drawing from the existing research on personality development during emerging adulthood. In this book, authors Michael W. Pratt and M. Kyle Matsuba present a series of chapters exploring how one's life story manifests across the many components of their developing identity, including their religion, morality, vocation, society, and the relationships they have with their parents, peers, and romantic partners. Taking their cue from Erik Erikson's model of adolescent and adult development, the authors show readers exactly how a life story approach can illuminate the distinctive features of an individual's personality and development during this formative phase of life. Organized around a set of life contexts where personality is manifested: self, adjustment, personal ideology, close relationships, occupation, and civic life, this book draws on the authors' own longitudinal research on the development of the life story in emerging adulthood. Throughout the book, they incorporate fascinating case studies and historical examples, e.g., Darwin, Pope Francis, Martin Luther King Jr., Jane Fonda, of individuals' unique development during this period of life in order to better illustrate the application of this approach to understanding the whole person in context.

360° Personality Development In The 21st Century Mihir Prajapati, 2021-03-14 What is 360° Personality Development? Personality development means enhancing the traits that make up your personality. It will help you in influencing and inspiring people. Personality development is very important; the foundation of this eBook is that personalities are not born; they are forged. One is not born on this earth with good communication and leadership skills; rather, he has to learn them. The importance of personality development can be summed in the following points:

1. Holistic growth: It will help in your all-round development and enhances your best personality.
2. Increase confidence: When you feel good inside, you become confident. You can influence others and achieve success.
3. Enhances your personality: Everyone wants a magnificent personality that can influence anyone.
4. Enhance communication skills: Communication skills are the center point of personality. Explain your point to others; you will not even get connected, so convincing them is far away.
5. Conflict resolution and stress control: If you are a confident person, you will look upon positive aspects of life, face difficulties with a smile. Also, you will be able to handle difficult conversations and situations.
6. Builds a positive attitude in life: A person with a negative mindset sees problems in everything; he remains unsatisfied. If you are confident, you try to handle every situation positively.
7. Professional growth: If you have a strong personality, you will move towards success and growth in the profession. You will focus on your growth journey, not the others.
8. Makes a personality reliable and credible: Credibility comes from strong character. Personality development is not limited to impressive dressing and communication skills; many other factors make you a reliable person in life.
