Identity in American Politics Lori L. Montalbano, 2019-08-26 *Gender Race and Social Identity in American Politics* The Past and Future of Political Access explores the ways in which cultural expression is represented in American politics as it intersects with issues of gender race and the construction of social identity Specifically this body of work examines how representations in the media and larger culture can establish and diminish the status of diverse communities of American politicians Contributors analyze the rhetorical and performative changes that have occurred in America as it has shifted politically from growing acceptance and tolerance to an obscure and often hostile conservative ideology This book contributes to the growing dialogue surrounding American politics by citing specific cases of gender and race based infringements of the current political system as purported by media and party players This book will be especially useful to scholars of political science media studies gender studies and critical race studies *The Persuasive Preacher* David A. Christensen, 2020-07-16 How can we preach persuasively without huckstering manipulating or coercing people Sadly we are seeing the fall of many pastors not for reasons of sexual immorality but the pursuit of pride and power The skillful use of marketing methods creates celebrity pastors who become significant influencers in the evangelical church The lure of success is seductive turning pastors into hucksters and Christians into consumers We need to heed the warnings of the New Testament about the pride of rhetoric and the pursuit of power David Christensen carefully analyzes the biblical warnings of Paul about the temptations of rhetorical sophistry in the first century church and applies them to pastoral ministry today God calls preachers to be ethical and effective persuaders David develops an ethical grid for pastoral persuasion using principles drawn from the Bible and social science along with practical illustrations from his years of ministry He calls preachers to be ethical and effective persuaders by emphasizing the centrality of the word of God while depending on the power of the Spirit of God **The Purposeful Graduate** Timothy Thomas Clydesdale, Tim Clydesdale, 2016-09-08 American higher education is more expensive than ever and the rewards seem to be diminishing daily Sociologist Tim Clydesdale's new book however offers some rare good news when colleges and universities meaningfully engage their organizational histories to launch sustained conversations with students about questions of purpose the result is a rise in overall campus engagement and

recalibration of post college trajectories that set graduates on journeys of significance and impact The book is based on a study of programs launched at 88 colleges and universities that invited students faculty staff and administrators to incorporate questions of meaning and purpose into the undergraduate experience The results were so positive that Clydesdale came away from the study arguing that every campus religious or not should engage students in a broad conversation about what it means to live an examined life This conversation needs to be creative intentional systematic and wide ranging he says because for too long this core liberal educational task has been relegated to the margins and its attendant religious or spiritual discourse banished from classrooms and quads to the detriment of higher education s virtually universal mission graduates marked by thoughtfulness productivity and engaged citizenship **Rhetorical Public**

Speaking Nathan Crick,2017-06-14 Rhetorical Public Speaking Civic Engagement in the Digital Age Third Edition offers students an innovative approach to public speaking by employing the rhetorical canon as a means of constructing artful speech in a multi mediated environment It provides a foundation to guide students in understanding constructing and delivering messages that address matters of public concern This edition features contemporary as well as historical examples to highlight key concepts and show how rhetoric works in practice Each chapter includes speech excerpts summaries and exercises for review and retention Students of public speaking are encouraged to employ their new skills as engaged citizens of society Speaking the Truth in Love Daniel R. Berger,2007-01-01 Approaching public communication from a liberal arts point of view Speaking the Truth in Love provides a distinctly Christian perspective of rhetoric Written and oral rhetoric are interwoven throughout the text Two foundational ideas control the majority of the text The first is from Plato s Phaedrus as stated by Paul in Ephesians 4 15 speaking the truth in love The second is from the Apostle Peter in 1 Peter 4 11 if anyone speaks he should do it as one speaking the very words of God The spiritual responsibility of communicating truth in accordance with the nature of God especially the virtue of love is an awesome privilege and opportunity Sound content spoken or written eloquently with charisma will enable words to have a maximum impact The text is designed to be a culminating learning experience for undergraduate communication programs or as an introductory text for graduate programs involving public communication Beginning with a philosophy of language meaning and interaction argument is built against secular deconstructive thought where everyone has a different truth based on language Alongside philosophy we explore ethics and theology from an evangelical perspective Following this a brief history outlines rhetorical thought from pre testament classics to today Based upon these ideas we take a closer look at communication theory as it relates to public communication Finally the text addresses the practice of both written and oral communication *Red Flags* Wendy L.
