Philosophy Feminism At The Border

Timothy G. Cashman

Philosophy Feminism At The Border:

Feminism on the Border Sonia Saldivar-Hull, 2000-05-09 Sonia Saldivar Hull's book proposes two moves that will no doubt leave a mark on Chicana and Latin American Studies as well as in cultural theory. The first consists in establishing alliances between Chicana and Latin American writers/activists like Gloria Anzaldúa and Cherrie Moraga on the one hand and Rigoberta Menchú and Domitilla Barrios de Chungara on the other. The second move consists in looking for theories where you can find them in the non-places of theories such as prefaces, interviews and narratives. By underscoring the non-places of theories, Sonia Saldivar Hull indirectly shows the geopolitical distribution of knowledge between the place of theory in white feminism and the theoretical non-places of women of color and of third world women. Saldivar Hull has made a signal contribution to Chicana Studies, Latin American Studies and cultural theory. Walter D. Mignolo, author of *Local Histories/Global Designs*, *Coloniality, Subaltern Knowledges and Border Thinking*. This is a major critical claim for the sociohistorical contextualization of Chicanas who are subject to processes of colonization, our conditions of existence. Through a reading of Anzaldúa, Cisneros and Viramontes, Saldivar Hull asks us to consider how the subalternized text speaks, how and why it is muted. How do testimonio, autobiography and history give shape to the literary where embodied wholeness may be possible? It is a critical de-centering of American Studies and Mexican Studies as usual as she traces our cross-ed genealogies situated on the borders. Norma Alarcon, Professor of Ethnic Studies, University of California, Berkeley. *Philosophy & Feminism* Andrea Nye, 1995. In complex and lucid prose, Nye then moves methodically through the major contemporary fields in philosophy: logic, ethics, epistemology, philosophy of language and political theory, in order to demonstrate the ways in which contemporary feminist thought is challenging basic presuppositions in each of these fields. In every case, she offers fair and articulate summaries of the major debates for and against incorporating feminist perspectives in mainstream philosophy while presenting compelling arguments for her own vision of the crucial role that feminist philosophy should play in transforming her discipline. Feminist Philosophy Herta Nagl-Docekal, 2018-03-08. Are we in a post-feminist era? Has the term 'feminist' grown out of its resisted stance? What, from today's standpoint, is an appropriate concept of feminist philosophy? And is it not the case that all people thinking democratically must share its central concern? In this book, internationally acclaimed philosopher Herta Nagl-Docekal discusses and critiques the theories of today. Her study ranges across philosophical anthropology, aesthetics, philosophy of science, the critique of reason, political theory and philosophy of law. Continually confronting the persistent problem of the hierarchical relations of the sexes, Nagl-Docekal affirms the importance of feminist thought as she presses for effective approaches to common problems. **Ethnography at the Border** Pablo Vila, 2003. Focusing on a particular area of the U.S.-Mexico border, Ciudad Juárez/El Paso, *Ethnography at the Border* brings out the complexity of the border experience through the voices of the diverse people who inhabit the region. In a series of essays that investigate specific aspects of border existence, the contributors provide rich and detailed insights into such

topics as life in illegal subdivisions called colonias in Texas the experience of actually crossing the bridge between El Paso and Ciudad Juarez the impact of Operation Blockade on illegal crossings the controversy surrounding the El Paso Border Patrol's proposal for a border wall in Sunland Park the paradoxes of making American products using Mexican workers and the relevance of grassroots efforts environmental problems and the multiple meanings of Mexican The final chapter offers a critique of the all too metaphorical border often depicted by cultural studies Book jacket

Bodily Exchanges, Bioethics and Border Crossing Erik Malmqvist, Kristin Zeiler, 2015-12-14 Medical therapy research and technology enable us to make our bodies or parts of them available to others in an increasing number of ways This is the case in organ tissue egg and sperm donation as well as in surrogate motherhood and clinical research Bringing together leading scholars working on the ethical social and cultural aspects of such bodily exchanges this cutting edge book develops new ways of understanding them Bodily Exchanges Bioethics and Border Crossing both probes the established giving and selling frameworks for conceptualising bodily exchanges in medicine and seeks to develop and examine another less familiar framework that of sharing A framework of sharing can capture practices that involve giving up and giving away part of one's body such as organ and tissue donation and practices that do not such as surrogacy and research participation Sharing also recognizes the multiple relationalities that these exchanges can involve and invites inquiry into the context in which they occur In addition the book explores the multiple forms of border crossing that bodily exchanges in medicine involve from the physical boundaries of the body to relational borders as can happen in surrogacy to national borders and the range of ethical issues that these various border crossings can give rise to Engaging with anthropology sociology philosophy and feminist and postcolonial perspectives this is an original and timely contribution to contemporary bioethics in a time of increasing globalization It will be of use to students and researchers from a range of humanities and social science backgrounds as well as medical and other healthcare professionals with an interest in bioethics

Border Transgression Eva Youkhana, 2017-10-02 This volume addresses processes of human mobility in times of crisis from different scientific perspectives and at a global and trans regional level The first part

sets out to discuss established paradigms in migration studies and politics in order to suggest new approaches to analyse mobility migration and to challenge boundary making approaches The second part presents empirical cases from Latin America and Spain to demonstrate how migrants challenge negotiate and mobilize citizenship and belonging The third part deals with the question how belonging is produced and identity is constructed at a transnational level New information and communication technologies human mobility but also the mobility of concepts ideas and values foster these collectivization processes across and within physical and symbolic borders

Decolonial Voices Arturo J. Aldama, Naomi Helena Quiñonez, 2002-04-04 *Decolonial Voices* brings together a body of theoretically rigorous interdisciplinary essays that articulate and expand the contours of Chicana and Chicano cultural studies

Beyond the Border Steven Aschheim, 2018-06-05 The modern German Jewish experience through the rise of Nazism in 1933 was characterized by an explosion of cultural and intellectual creativity Yet well after that history has ended the influence of Weimar German Jewish intellectuals has become ever greater Hannah Arendt Gershom Scholem Theodor Adorno Walter Benjamin Franz Rosenzweig and Leo Strauss have become household names and possess a continuing resonance *Beyond the Border* seeks to explain this phenomenon and analyze how the German Jewish legacy has continually permeated wider modes of Western thought and sensibility and why these migr s occupy an increasingly iconic place in contemporary society Steven Aschheim traces the odyssey of a fascinating group of German speaking Zionists among them Martin Buber and Hans Kohn who recognized the moral dilemmas of Jewish settlement in pre Israel Palestine and sought a binationalist solution to the Arab Israel conflict He explores how German Jewish migr historians like Fritz Stern and George Mosse created a new kind of cultural history written against the background of their exile from Nazi Germany and in implicit tension with postwar German social historians And finally he examines the reasons behind the remarkable contemporary canonization of these Weimar intellectuals from Arendt to Strauss within Western academic and cultural life *Beyond the Border* is about more than the physical act of departure It also points to the pioneering ways these migr s questioned normative cognitive boundaries and have continued to play a vital role in addressing the predicaments that engage and perplex us today

Philosophy Across Borders Emma Ingala, Gavin Rae, 2024-11-14 This book brings into conversation geographically diverse theorists to question the meaning purpose and place of conceptual borders in philosophy It shows how contemporary theory is constituted by a dynamic practice in which the boundaries created to define it are simultaneously overcome in their establishment Philosophy has often taken itself to be distinguished from and superior to alternative ways of thinking To do so philosophical thinking has found itself rigidly affirming the need to think within borders to obtain conceptual clarity and certainty and or secure its own independent existence The chapters in this volume call into question the need to retreat behind demarcated boundaries that mark the domain of philosophy proper to instead offer a performative account of how philosophy can creatively work across geographical cultural linguistic borders without foreclosing that analysis conceptually In so doing the contributors tackle

issues including the historical establishment of philosophical borders the metaphysics of philosophical borders the relationship between Western and non Western thinking the ethics of transgressing borders and the political implications of Western rationality on and for non Western societies Philosophy Across Borders will therefore be of interest to scholars and advanced students working in philosophy aesthetics critical theory comparative philosophy cultural studies feminist theory history of ideas political theory and postcolonial studies
