Belloni, J. Hodgson, 1999-10-10 Beginning with an exploration of the awful miscarriages which prompted the establishment of the Royal Commission on Criminal Justice the authors examine the role played by institutions and legal factors within the criminal process Tracking the shift from due process rhetoric to the new penology of efficient risk management of suspect populations they assess the impact of recent reforms such as curtailment of the right to silence the removal of the right to jury trial and

the appeal process itself Miscarriages of Justice Sam Poyser, Angus Nurse, Rebecca Milne, 2018-05-16 Miscarriages of justice occur far more frequently than we realise and have the power to ruin people's lives. It is crucial for criminal justice practitioners to understand them given significant developments in recent years in law and police codes of practice. This text, part of the Key themes in policing textbook series, is written by three highly experienced authors with expertise in the fields of criminal investigation, forensic psychology and law, and provides an up-to-date and comprehensive analysis of miscarriages of justice. They highlight difficulties in defining miscarriages of justice, examine their dimensions, forms, scale and impact, and explore key cases and their causes. Discussing informal and formal remedies against miscarriages of justice, such as campaigns and the role of the media and the Court of Appeal and the Criminal Cases Review Commission (CCRC), they highlight criticism of the activities and decision making of the latter and examine changes to police investigation in this area. Designed to incorporate evidence-based policing, each chapter provides questions reflecting on the issues raised in the text and suggestions for further reading.

Changing Attitudes to Punishment Julian Roberts, Mike Hough, 2013-01-11 Throughout the western world, public opinion has played an important role in shaping criminal justice policy. At the same time, opinion polls repeatedly demonstrate that the public knows little about crime and justice and holds negative views of the criminal justice system. This book, consisting of chapters from leading authorities in the field, is concerned to address this problem and draws upon research in a number of different countries to address the issues arising from this state of affairs. Its main aims are to explore the changing and evolving nature of public attitudes to sentencing, to examine the factors that influence public opinion, and to bring together recent international research which has demonstrated ways in which public attitudes can be changed to propose specific strategies to respond to the crisis in public confidence in criminal justice.
