Retribution Evil For Evil In Ethics Law And Literature:

Retribution Marvin Henberg, 1990 Despite our moral misgivings retributive canons of justice the return of evil to evildoers remain entrenched in law literature and popular moral precept In this wide ranging examination of retribution Marvin Henberg argues that the persistence and pervasiveness of this concept is best understood from a perspective of evolutionary naturalism After tracing its origins in human biology and psychology he shows how retribution has been treated historically in such diverse cultural expressions as law codes scriptures drama poetry philosophy and novels Henberg considers retributive thought in light of contemporary moral theory and current social and political concerns and advances his own theory of the morality of legal punishment Retribution is no single doctrine or unified set of doctrines but rather a sprawling variety of doctrines many of them at odds with one another observes Henberg He suggests that understanding retributive thought as the quest for solace in the face of suffering helps to explain its variable nature Since there is no single defensible moral criterion for identifying exact retaliation culture is more important than nature in selecting among retributive practices Typically some forms of retribution are culturally approved while others are disapproved In place of the mistaken tendency to think of legal punishment as morally justified Henberg maintains that legal punishment should be thought of as morally permitted Author note Marvin Henberg is Professor and Chair of the Department of Philosophy and Director of the University Honors Program at the University of Idaho

Law and Literature María José Falcón y Tella, 2016-04-26 Mar a Jos Falc n y Tella invites us on a fascinating journey through the world of law and literature travelling through the different eras and exploring eternal and as such current issues such as justice power resistance vengeance rights and duties This is an unending conversation which brings us back to Sophocles and Dickens Cervantes and Kafka Dostoyevsky and Melville among many others There are many ways to approach the concept of Law and Literature In the classical manner the author distinguishes three paths the Law of Literature involving a technical approach to the literary theme Law as Literature a hermeneutical and rhetorical approach to examining legal texts and finally Law in Literature which is undoubtedly the most fertile and documented perspective the fundamental part of the work focusses on this direction This timely volume offers an introduction to this enormous field of study which was born in the United States over a century ago and is currently taking root in the European continent

John Gower and the Limits of the Law Conrad van Dijk, 2013 An examination of the ways in which Gower s poetry engages with contemporary law and legal questions It has long been thought that John Gower was probably a lawyer before turning to poetry and this study reveals his active engagement with contemporary legal debates they include constitutional questions jurisdictional issues private vengeance jurisprudential concepts such as equity and the rigor iuris and aspects of criminal law The author argues that the *Confessio Amantis* in particular demonstrates Gower s uncertainty about how to reconcile the ideal of a just law with alternative modes of justice such as self help royal discretion and divine will The book also examines the parallel development of the exemplum

and casus in medieval literature Exempla frequently create a sense of narrative closure by means of some form of punishment or as Gower would put it vengeance How then do we set Gower s reputation as a sympathetic writer alongside his frequent desire for closure and punishment What are the limits of exemplarity and law These questions are answered by reading Gower in relation to the volatile politics of the Ricardian period and in comparison with the poetic concerns of contemporary writers such as Chaucer and Langland In so doing the book provides a searching introduction to the intersection between literature and law in the late fourteenth century Dr Conrad van Dijk is Assistant Professor of English at Concordia University College of Alberta Edmonton Canada

A Unified Theory of Justice and Crime Michael J. DeValve, Tammy S. Garland, Elizabeth Q. Wright, 2018-09-15 Despite great effort and some improvements criminal justice today still seems like an oxymoron There are some very good reasons for this feeling catastrophic failures abound and marginal improvements appear revolutionary This book addresses the idea of justice in order to guide society toward a more effective justice system Specifically the authors argue that justice and love are one and the same thing They trace impoverished and accomplished thinking in criminological and justice discourses and show that the historic ills that have plagued humanity tend to evaporate when justice and love are understood to be synonyms

practices of forgiveness resentment and apology in three key moments when they were undergoing a dramatic change The three moments are early Christian history for forgiveness the shift from British eighteenth century to Continental nineteenth century philosophers for resentment and the moment in the 1950s postwar world in which British ordinary language philosophers and American sociologists of everyday life theorized what it means to express or perform an apology The debates that arose in those key moments have largely defined our contemporary study of these practices *The Oxford Companion to Philosophy* Ted Honderich, 2005-03-10 Oxford University Press presents a major new edition of the definitive

Philosophies of Gratitude Ashraf H A Rushdy explores gratitude as a philosophical concept The first half of the book traces its significance in fundamental Western moral philosophy and notions of ethics specifically examining key historical moments and figures in classical antiquity the early modern era and the Enlightenment In the second half of the book Rushdy focuses on contemporary meanings of gratitude as a sentiment action and disposition how we feel grateful act grateful and cultivate grateful being He identifies these three forms of gratitude to discern various roles our emotions play in our ethical responses to the world around us Rushdy then discusses how ingratitude instead of indicating a moral failure can also act as an important principle and ethical stand against injustice Rushdy asserts that if we practice gratitude as a moral recognition of

the other then that gratitude varies alongside the different kinds of benefactors who receive it ranging from the person who provides an expected service or gift to the divine or natural sources whom we may credit with our very existence By arguing for the necessity of analyzing gratitude as a philosophical concept Rushdy reminds us of our capacity and appreciation for gratitude simply as an acknowledgment and acceptance of our humble dependency on and connectedness with our families friends communities environments and universe

Honor For Us William Lad Sessions, 2010-10-21 Honor For Us is the first contemporary philosophical inquiry into the concept of honor It is unique not only in its analysis of six distinct concepts of honor which includes an investigation into the place of honor in religious thought and ethics but also in its interpretation of honor s prevalence in our own culture Many would like to discard honor altogether as obsolete but Sessions contends that the concept of honor is poorly understood standing sorely in need of clarification He argues that the notion of honor remains viable in the face of powerful criticism and that it has important features which warrant our normative interest While not downplaying the dark side of honor violence sexism inegalitarianism its abuse in religion Sessions shows that honor not only constitutes a descriptively useful concept but also remains a potentially valuable concept for us today
