# Retrieving the Ancients

An Introduction to Greek Philosophy

David Roochnik

WILEY Blackwell

# Retrieving The Ancients

**Thomas A. Blackson**

## Retrieving The Ancients:

**Retrieving the Ancients** David Roochnik, 2023-03-06 Provides an accessible introduction to ancient Greek philosophy enhanced with new features and content Retrieving the Ancients offers a clear and engaging narrative of one of the most fertile periods in the history of human thought beginning with the Ionian Philosophers of the sixth century and concluding with the works of Aristotle Organized chronologically this student friendly textbook approaches Greek philosophy as an illuminating conversation in which each key thinker including Thales Pythagoras Democritus Socrates and Plato engages with responds to and moves beyond his predecessor Throughout the text author David Roochnik highlights how this conversation remains as relevant and urgent to modern readers as ever Now in its second edition Retrieving the Ancients features an entirely new epilogue that introduces Stoicism Epicureanism Skepticism Cynicism and various schools of thought that emerged after Aristotle as well as a useful appendix designed to help students write philosophically This edition offers expanded online teaching resources for instructors including a downloadable web pack with sample syllabi Offers a compelling readable and humorous introduction to ancient Greek philosophy Approaches the history of ancient Greek philosophy dialectically Illustrates how the works of the ancients are as valuable today as ever Includes an accessible modern introduction to Hellenistic philosophers new to this edition Offering a sophisticated yet accessible account of the first philosophers of the West Retrieving the Ancients An Introduction to Greek Philosophy Second Edition is an ideal textbook for introductory and intermediate undergraduate courses in Ancient Greek Philosophy as well as general courses in Ancient Philosophy

*Retrieving the Ancients* David Roochnik, 2004-06-18 Retrieving the Ancients tells the story of the first philosophers in the West A clear and engaging introduction to ancient Greek philosophy Tells the story of the first philosophers in the West from Thales to Aristotle Has a strong sense of narrative drive Treats the history of ancient Greek philosophy dialectically as a conversation in which each thinker responds to and moves beyond his predecessors Argues that the works of the ancients are as valuable today as ever

*Retrieving Aristotle in an Age of Crisis* David Roochnik, 2013-01-01 An urgent contemporary defense of Aristotle

**Philosophic Classics** Forrest E. Baird, 2016-06-16 First published in 1961 Forrest E Baird's revision of Philosophic Classics continues the tradition of providing generations of students with high quality course material Using the complete works or where appropriate complete sections of works this anthology allows philosophers to speak directly to students Esteemed for providing the best available translations Philosophic Classics Ancient Philosophy features complete works or complete sections of the most important works by the major thinkers as well as shorter samples from transitional thinkers

**The Ancient Unconscious** Vered Lev Kenaan, 2019-05-08 In the field of classical studies the psychoanalytic construction of the unconscious is rarely regarded as a fruitful methodological concept Commonly understood as a modern conceptual invention rather than the discovery of a psychic reality the notion of the unconscious is often criticized as an anachronistic lens one that ineluctably subjects ancient

experience to modern patterns of thought The Ancient Unconscious seeks to challenge this ambivalent theoretical disposition toward the psychoanalytic concept and reclaim the value of the unconscious as a methodological tool for the study of ancient texts by transforming our understanding of what the unconscious means the way it operates and how it relates to textual hermeneutics It considers the debate over whether the ancients had an unconscious as an invitation to rethink the relationship between antiquity and modernity investigating the meaning of textuality through contact between historical moments that have no priority under the law of chronology associations and connections between the past and its future including the present belong to the sphere of the unconscious which is primarily employed here in order to study the inherent often hidden links that bind modernity to classical antiquity and modern to ancient experiences Drawing on an incisive examination of the complicated often conflicted relationship between classical studies and psychoanalytic theory the volume aims to explain why the concept of the unconscious is in fact inseparable from and crucial for the study of the ancient text and more generally the methodology of classical philology *Proceedings of the Boston Area Colloquium in Ancient Philosophy, Volume XXIII, 2007* John J. Cleary, Gary M. Gurtler, 2008 With one notable exception this volume contains papers and commentaries presented to the Boston Area Colloquium in Ancient Philosophy during the academic year 2006-7 That exception is the colloquium in which Alasdair MacIntyre offers a fresh reading of Plato's Republic Indeed most of the papers included in this volume discuss a wide range of topics related to Plato for instance the dangers of misology in the Phaedo the Socratic use of rhetoric in the Gorgias Plato's anti hedonism in the Philebus the link between mythical and logical thinking in the Symposium and Heidegger's interpretation of Plato's concept of truth But apart from this obsession with Plato there are two colloquia devoted to the Epicurean notion of preconception and to the Stoic conception of the good respectively **The Enigma of the Ancients** Pasquale De Marco, 2025-05-09 Embark on a captivating journey into the enigmatic world of the ancients in *The Enigma of the Ancients* This comprehensive volume unravels the secrets of lost civilizations hidden societies and enigmatic artifacts Explore the depths of history as we decipher ancient texts and uncover the mysteries of vanished worlds Encounter the guardians of hidden truths secret societies that have preserved ancient wisdom for generations Wander through ancient sites marveling at architectural wonders and searching for hidden messages in their symbols The search for lost artifacts takes on new meaning as we delve into the power of ancient treasures and confront the ethical implications of relic hunting Discover the profound influence of ancient civilizations on modern society drawing lessons from the past and exploring the role of ancient wisdom in shaping our future Unravel the enigma of ancient worlds as we venture into the mysteries of ancient cosmology the search for extraterrestrial life and the possibility of ancient visitors Uncover the forgotten knowledge of our ancestors marveling at the ingenuity of ancient engineers and the potential for rediscovering lost technologies *The Enigma of the Ancients* is a treasure trove of ancient knowledge and modern insights offering a fresh perspective on the enigma of the ancients Join us on this extraordinary journey as we uncover the secrets of the past and

explore their profound implications for the present and future If you like this book write a review on google books *The Cambridge Companion to Ancient Greek Political Thought* Stephen Salkever,2009-04-27 The Cambridge Companion to Ancient Greek Political Thought provides a guide to understanding the central texts and problems in ancient Greek political thought from Homer through the Stoics and Epicureans Composed of essays specially commissioned for this volume and written by leading scholars of classics political science and philosophy the Companion brings these texts to life by analysing what they have to tell us about the problems of political life Focusing on texts by Homer Herodotus Thucydides Plato and Aristotle among others they examine perennial issues including rights and virtues democracy and the rule of law community formation and maintenance and the ways in which theorizing of several genres can and cannot assist political practice

**The Metaphysics of the Pythagorean Theorem** Robert Hahn,2017-05-01 Bringing together geometry and philosophy this book undertakes a strikingly original study of the origins and significance of the Pythagorean theorem Thales whom Aristotle called the first philosopher and who was an older contemporary of Pythagoras posited the principle of a unity from which all things come and back into which they return upon dissolution He held that all appearances are only alterations of this basic unity and there can be no change in the cosmos Such an account requires some fundamental geometric figure out of which appearances are structured Robert Hahn argues that Thales came to the conclusion that it was the right triangle by recombination and repackaging all alterations can be explained from that figure This idea is central to what the discovery of the Pythagorean theorem could have meant to Thales and Pythagoras in the sixth century BCE With more than two hundred illustrations and figures Hahn provides a series of geometric proofs for this lost narrative tracing it from Thales to Pythagoras and the Pythagoreans who followed and then finally to Plato's Timaeus Uncovering the philosophical motivation behind the discovery of the theorem Hahn's book will enrich the study of ancient philosophy and mathematics alike A Guide to Ancient Greek Literature, Language, Script, Imagination and Philosophy Frederic Will,2020-07-03 This book is a chronological survey of the major writers or reciters or performers or orators of Ancient Greece Part One considers the major genres of ancient Greek literature epic history drama satire lyric and philosophy It profiles some of the key issues and authors of each period characterizes the literature of each period and sprinkles quotes through the whole Part Two comprises fifteen short essays on aspects of ancient Greek culture including language script and dialects folklore music dance mythology painting theater government military structures class structure gender relations innovations trade and science Overall the book will serve as both reference guide and launchpad for ongoing attention to our Hellenic heritage

Ancient Greek Philosophy Thomas A. Blackson,2011-01-06 Ancient Greek Philosophy From the Presocratics to the Hellenistic Philosophers presents a comprehensive introduction to the philosophers and philosophical traditions that developed in ancient Greece from 585 BC to 529 AD Provides coverage of the Presocratics through the Hellenistic philosophers Moves beyond traditional textbooks that conclude with Aristotle A uniquely balanced organization of exposition

choice excerpts and commentary informed by classroom feedback Contextual commentary traces the development of lines of thought through the period ideal for students new to the discipline Can be used in conjunction with the online resources found at <http://tomblackson.com/Ancient/toc.html> *Ancient Philosophy* William J. Prior, 2016-04-21 Philosophers didn't always busy themselves with life's big questions The earliest ancient philosophers were primarily concerned with the world of nature including phenomena such as earthquakes and eclipses But one enigmatic Greek named Socrates began to explore abstract ideas about human existence What makes us happy What is the nature of the soul And what is our purpose in this universe Professor William Prior elegantly guides readers through philosophy's formative years and key ancient texts Organised into four themes nature reality the soul and ethics *Ancient Philosophy A Beginner's Guide* is a lively introduction to the great thinkers who still send our minds reeling today Eat, Drink, Think David Roochnik, 2020-06-11 What role does food play in the shaping of humanity Is sharing a good meal with friends and family an experience of life at its best or is food merely a burdensome necessity David Roochnik explores these questions by discussing classical works of Greek literature and philosophy in which food and drink play an important role With thoughts on Homer's *The Odyssey* Euripides' *Bacchae* Plato's philosopher kings and Dionysian intoxication Roochnik shows how foregrounding food in philosophy can open up new ways of understanding these thinkers and their approaches to the purpose and meaning of life The book features philosophical explanation interspersed with reflections from the author on cooking eating drinking and sharing meals making it important reading for students of philosophy classical studies and food studies **Celibacy in the Ancient World** Dale Launderville, 2010-07-01 Celibacy is a commitment to remain unmarried and to renounce sexual relations for a limited period or for a lifetime Such a commitment places an individual outside human society in its usual form and thus questions arise What significance does such an individual and such a choice have for the human family and community as a whole Is celibacy possible Is there a socially constructive role for celibacy These questions guide Dale Launderville OSB in his study of celibacy in the ancient cultures of Israel Mesopotamia and Greece prior to Hellenism and the rise of Christianity Launderville focuses especially on literary witnesses because those enduring texts have helped to shape modern attitudes and can aid us in understanding the factors that may call forth the practice of celibacy in our own time Readers will discover how celibacy fits within a context of relationships and what kinds of relationships thus support a healthy and varied society one aware of and oriented to its cosmic destiny Dale Launderville OSB is professor of theology at Saint John's University School of Theology Seminary Collegeville Minnesota He is the author of *Piety and Politics The Dynamics of Royal Authority in Homeric Greece Biblical Israel and Old Babylonian Mesopotamia* Eerdmans 2003 and *Spirit and Reason The Embodied Character of Ezekiel's Symbolic Thinking* Baylor University Press 2007 *Leo Strauss and His Legacy* John Albert Murley, 2005-01-01 With over 10 000 entries identifying work of hundreds of Strauss's students and their students this bibliography is the most indeed the only comprehensive guide to published writing in the tradition of Leo Strauss Murley includes Strauss's own

complete bibliography and that of one of his most revered students George Anastaplo

**Luke among the Ancient Historians** John J. Peters, 2022-05-24 For centuries scholars have analyzed the composition of Luke Acts presupposing that the reference to many accounts in Luke's Preface indicates the written texts which served as the author's primary sources of information To justify this portrait of Luke as a text based author scholars have appealed to analogies with the text based authors Dionysius of Halicarnassus Diodorus Siculus Plutarch and Arrian Luke among the Ancient Historians challenges this portrait of Luke's method through surveying the origins and development of ancient Greek historiography in chapters on Herodotus Thucydides Polybius Josephus and Luke By focusing on the values and practices of ancient historians Peters demonstrates not only that ancient authors following the model of Thucydides regarded the testimony of eyewitnesses as opposed to texts as the proper sources for historians but that Luke emulated the values practices and craft terminology of the contemporary historiographical tradition Taking seriously the self presentation of Luke as a reporter of contemporary events who claims to write on the basis of eyewitnesses from the beginning and personal investigation this book argues against analogies with text based historians who wrote about non contemporary events and instead situates Luke within a portrait of the values and practices of historians of contemporary events

**Ancient Philosophy of Religion** Graham Oppy, N. N. Trakakis, 2014-09-12 The origins of the Western philosophical tradition lie in the ancient Greco Roman world This volume provides a unique insight into the life and writings of a diverse group of philosophers in antiquity and presents the latest thinking on their views on God the gods religious belief and practice Beginning with the pre Socratics the volume then explores the influential contributions made to the Western philosophy of religion by the three towering figures of Socrates Plato and Aristotle The chapters that follow cover the the leading philosophers of the major schools of the ancient world Epicureanism Stoicism Neoplatonism and the early Christian Church Ancient Philosophy of Religion will be of interest to scholars and students of Philosophy Classics and Religion while remaining accessible to any interested in the rich cultural heritage of ancient religious thought

Loom of Shadows Evangeline Yarrow, 2024-09-28 Loom of Shadows is an urban fantasy where reality is a tapestry waiting to be rewoven Naia a young textile artist discovers she possesses an extraordinary ability to manipulate the very fabric of existence Set against the backdrop of a vibrant multicultural metropolis this story weaves together strands of diverse mythologies creating a rich and textured world As Naia unravels the mysteries of her newfound power she becomes entangled in a sinister plot that threatens to tear apart the city's intricate social fabric The story explores profound themes of identity and heritage while celebrating the interconnectedness of all things Lin's lyrical prose brings this magical realm to life painting vivid imagery that immerses readers in a world where quantum theory and folklore intertwine Through alternating perspectives including those of mythological creatures living secretly among humans the narrative offers a unique and captivating glimpse into a reality where the lines between magic and science blur

*Recruiting the Ancients for the Creation Debate* Andrew J. Brown, 2023-10-05 A careful and unbiased analysis of how

thinkers from church history interpreted the creation narrative in Genesis How literally are we meant to take the creation week of Genesis 1 In this polarizing debate contemporary interpreters invoke great theologians from history to support their own side whether that be a young Earth theistic evolution or any other view The problem lies in trying to force ancient authors into contemporary boxes as Andrew J Brown shows in this thought provoking volume Covering Philo Basil Augustine Thomas Aquinas Martin Luther John Calvin John Wesley and more Brown carefully interprets great thinkers readings of Genesis 1 in their intellectual contexts He then assesses how these authors have been subject to cherry picking and misappropriation in the trenches of the modern creation debate By studying the intellectual history of the church in this way to revisit rather than recruit the ancients we can enrich our own biblical interpretation Irenic and magisterial Brown s guide will interest both scholars of historical theology and anyone invested in the creation debate     **Thales to Sextus** Garrett Thomson,2015-09-22 The period spanning approximately 624 545 BC to 175 225 AD is often considered the most exciting in Western philosophy Designed as a companion to the original works of the ancient philosophers from this early period this introductory text spotlights seminal thinkers including the Sophists offers a detailed analysis of the thoughts and teachings of Socrates Plato and Aristotle and features a well rounded assessment of the Hellenistic and Roman philosophers examining Epicureanism Stoicism and skepticism Thomson s comprehensive treatment features accessible explanations of the philosophers central arguments in metaphysics epistemology ethics and politics He presents critical assessments of the philosophers views and recounts some of the major interpretations of the original texts by noted scholars
