Retrovirus Infections Of The Nervous System Current And Future Perspectives:

Retrovirus Infections of the Nervous System Michael B.A. Oldstone, Hilary Koprowski, 2012-12-06 Although retroviruses have long been associated with a variety of animal diseases active research in the field of human retroviruses dates from the discovery of human immunodeficiency virus HIV in association with acquired immunodeficiency syndrome AIDS The enormous research efforts in this field have been directed toward understanding the nature of the virus and toward its elimination through preventive vaccination and the cure of the disease Human T cell leukemia virus HTLV I was the first member of the human retrovirus family to be discovered It was implicated as the cause of adult T cell leukemia ATL even before the association of HIV and AIDS was established Research on HTLV I has however been lagging behind that of HIV because of the importance of AIDS Today HTLV I and possibly closely related HTLV 2 are associated with a variety of human neurologic diseases and research activities in this field may show that human retroviruses can cause a variety of human diseases in addition to those affecting the nervous system Papers in this volume attempt to acquaint the reader with the present state of research into retrovirus infection and related diseases of the nervous system National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1990 **Current Catalog** National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 *The Central Nervous System in AIDS* Juan Artigas, Gernot Grosse, Fred Niedobitek, 2012-12-06 Compact and clearly arranged this book details present knowledge of AIDS research in the fields of neurology and ophthalmology The experience gained by clinical experts through working with a large number of patients is presented together with the detailed morphologic results of neuropathology To describe the various disease complexes morphology takes into account all methods of result representation including immunohistochemistry and electron microscopy The four disciplines mentioned in the subtitle describe all aspects of the CNS with regard to AIDS including clinically significant ophthalmologic results Richly illustrated clinical and morphological descriptions helps you to understand the widely diverse CNS symptoms as well as ophthalmic involvement *AIDS Bibliography*, 1994 **Genetics Abstracts**, 1991 **Cumulated Index Medicus**, 1996 Bibliography of Agriculture, 1990 **Histology and Histopathology**, 1994 **Medical Management of HIV and AIDS** Ann Millar, 2012-12-06 In the decade since AIDS was first recognised the enormous and worldwide social and medical implications of this disease have been increasingly recognised The exponential increase in the number of people infected with HIV has been paralleled by the written literature on the subject When this book was initially conceived the question was why another book It seemed to me at that time and since that as HIV presented ever more complex problems they were best solved when considered within a wider context using basic principles of individual medical specialties and applying them For this reason all the chapter authors were experienced in a particular field and applied that knowledge to HIV All the authors were working at the Middlesex Hospital in London when the AIDS services there were expanding to fill a need from 2 beds in 1986 to two wards today The authors were frontline staff looking

after all aspects of HIV infection within a wider general medical context Many are now consultants or senior lecturers It is the aim of the book to provide an insight into HIV and AIDS as a overview for someone starting to work in this field or who sees such patients occasionally and requires some basic guidelines For this reason the chapters are based predominantly on organ systems and are divided into sections covering the presentation methods of investigation and treatment or action required of relevant conditions

Literature Search National Library of Medicine (U.S.),1986 **Acquired Immunodeficiency Syndrome (AIDS)** Estelle J. Abrams,1987 **The Neurology of AIDS** Howard E.
